Rising Tide of Anti-Foreignism Observed Throughout District

REACTION FROM BOMBARDMENT OF NANKING ASSUMES LARGE SCALE—MASSACRE OF FOREIGNERS FORECAST— POSITION BECOMING DIFFICULT EVERYWHERE

SHANGHAI, March 28.—Under protection of the muzzles of British war vessels, almost complete evacuation of the great Yangste valley is under way in the midst of a rising tide of anti-foreignism all along the river. From virtually all Yangste ports and from many inland stations, waterways and land ways are dotted with groups of foreigners fleeing from the Nationalists' territory to the now uncertain haven of Shanghai. . The evacuation, which is under official supervision, is impelled by fear of the anti-foreign wave now sweeping the Yangste valley as a reaction from the Nanking bombardment
