

Make the Old Car Look Like New!

Give it a finish that will start bright and stay bright—you can do it yourself.

For this purpose we suggest Valspar Enamels—a combination of the finest pigments carefully ground in the famous Valspar Varnish itself.

VALSPAR ENAMEL

Sun, rain, mud, dust, gasoline, oils—even boiling water from the radiator—will not dim its fine lustre.

EXAMPLE SET BY ALBERTA PEOPLE IN MATTER OF FRIENDLINESS TO STRANGERS

It is always a good thing for a place if the people are friendly and optimistic. That is well illustrated by what they are doing in Alberta, which is next door neighbor to British Columbia.

The other day the Journal's Corvair correspondent told of the welcome that had been accorded some settlers on their arrival there. Nothing was overlooked that would add to their comfort and help them in making the right kind of a start in their new home.

HOSPITALITY EXPECTED

The effect of such an exhibition of friendliness is not limited to those to whom it is extended. They are certain to write back to the places from which they come and encourage others to join them.

Instances have been cited where newcomers have had a very different experience. In the Birmingham Daily Mail there was a letter not long ago written by a former resident of that part of England who came out a year ago and settled at a point which is described as one hundred and fifty miles northeast of Calgary.

The Ladies' Aid of the First Presbyterian Church was responsible for an enjoyable concert last night in the church hall. The program was arranged by Mrs. William Millar, and the proceeds will be used in church work.

Event Last Night, Under Direction of Mrs. William Millar, Was Much Appreciated

EDMONTON, May 4. — Only his natural reluctance to devouring his partner and prime minister kept Louis Roy, arctic trapper, from being the king of a cannibal island when he and Jack Brown, the partner aforesaid, were marooned on an ice floe for six days with six hungry huskies.

According to Roy's story, his partner and himself built a cabin from logs along the beach at the end of the Mackenzie delta. Came a terrible storm and the waters started to move the cabin, so the twin hitched their dogs to the sled, threw in the canoe and made along the beach for some high land. They struck a hillock of ice

NATIVES NOW BUSY BOILING OOLACHANS FOR OIL CONTENTS

Oolachan fishing on the Naas River is over and the natives are now busy boiling the fish and extracting the oil therefrom states W. E. Collison, Indian agent, who is back from a week's official visit up the river as far as Greenville. The spring season there has been late in keeping with other parts of the province says Mr. Collison.
