## Neglected Lyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving to-and at once.

OF ALL absurdities in the kingdom of foolishness. surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

Recent Improvement in Fishing Bringing Halibut Catch up Close to That of Last Year-Many Join Yacht Club

Each week the total of halibut landings at Prince Rupert is crawling up a little closer to the record of 1926 and prospects are that the 1927 season which had a bad start, mainly on account of an unprecedented amount of unfavorable weather for the first couple of months, may yet come up to the big year previous. Total landings at the port to date are now less than 800,000 pounds behind last year. Canadian landings are just 30,500 pounds behind and next trouble, have them attended week may "go over the top." The big decrease is now in American fish, the volume of which it is gratifying to note is also steadily coming up.

During the past week a total of 809,- vessel which is 65 feet long. 500 pounds was marketed at this port consisting of 490,500 pounds American The Prince Rupert Rowing and Yachts and 319,000 pounds Canadian. Total Club has acquired seven new members landings for the season to date now just recently. Heading the list is our stand at 9,181,100 pounds ac compared old friend Eddie Mann who has made with last year's total of 9,971,500 lbs. admirable progress since he became The 1927 landings consist of 6,619,600 president of opposite political party. pounds American and 2,561,500 pounds Yes, Eddie has been the local Tory Canadian as compared with respective boss just five months but he has alfigures last year of 7,379,200 pounds ready regaled himself with a summer and 2,592,000 pounds.

## John Rowell's Prince Rupert Invention:

## REX-O-TONE COMPANY

50 UNITS OF \$100 EACH

This Advertisement Written Especially For Prince Rupert News Readers FOR LARGE PROFITS, QUICK RETURNS AND GREAT INCREASE IN VALUE OF INVESTMENT, NOTHING BETTER HAS EVER BEEN OFFERED IN PRINCE RUPERT.

To every subscriber of two units or more we will send complete Rex - O - Tone Free.

Owing to the unexpected demand for John Rowell's marvellous Patented Acoustic Chamber which makes all old phonographs equal to any of the highest class machines now on the market, and to cope with the demands throughout Canada, United States and Great Britain, we are now about to form a small syndicate of investors, prior to incorporation. Arrangements have been completed to have Rex-O-Tones factory-made, and our first order for one thousand placed. A small investment made now will insure a life's income. If possible, call and hear it for yourself. The first public syndicate will comprise fifty units of \$100.00 each, which will be absolutely on the ground floor. Should unit holders deem it advisable to form a corporation, unit holders will receive in shares, double the value of said unit. Directors of Company will be chosen from the holders of said units. Not more than five units will be sold to any one person.

Since our first advertisement of the Rex-O-Tone, our Demonstration Rooms have been filled to capacity until 11 o'clock every night to accommodate those wishing to hear their favorite records as reproduced by this invention. A Rex-O-Tone is not merely an attachment for a phonograph, but consists of the full sounding chamber, to take the place of the one now in use in old phonographs. A Rex-O-Tone when installed, will make the oldest phonograph equal to the finest and highest

class machines now on the market, in volume, tone and quality. We know we have an unlimited market for our product, which is as yet untouched. Our mail orders prove this. Acoustic engineers state that this man Rowell (the inventor) has accomplished what has been considered the impossible, because of the fact that he has gone contrary to all laws of Acoustics. Within the space of an average sized violin, he can reproduce Volume, Tone and Quality equal to the largest and most expensive phonographs now on the market.

These sounding chambers called Rex-O-Tones are made of selected B.C. Violin Spruce. There is no metal, nothing to get out of order, and will last a lifetime. It is the most marvellous invention in connection with phonographs that has occurred for over twenty years.

We have now at the present time, numerous offers from manufacturers and distributors to manufacture and sell for us, the Rex-O-Tone on a royalty basis. A Rex-O-Tone (meaning King of Tone), without additional experimentation is equal to the best radio horn now on the market. We have experts perfecting the device in this connection, and it is an assured success. To the present date, all expenses in connection with the Patents, Manufacturing and Demonstration, has been supplied by private capital. Additional capital is wanted for Publicity and Radio Experiments, etc.

We have orders for or have already installed Rex-O-Tones in the homes of such well known names as J. S. Cowper, Editor of the Western Tribune: Mr. Geo. Kidd, President of the B. C. Electric Co.; Harold Brown, Manager of the Union Steamship Co.; Mr. D. W. Merrick, Manager of the Bank of Nova Scotia; Chief of Police, W. H. Long; W. D. Grant, President, North Western Dredging Company: Reverend Father Woods, Victoria, B.C.; and many others of Vancouver's prominent citizens.

Endorsed by the leading musicians of Vancouver, sach as, Mr. Will Pilling. Orpheum Theatre: Rowland, Rowland's Band, and Mr. Dix, Organ Builder; Mr. Calladine, Violin Maker.

FOR DEMONSTRATION We Want to Buy The Oldest Upright Phonograph Possible.

The Vancouver Sun calls the Rex-O-Tone, "Caruso's Throat." Western Tribune, April 30th. states that it is "the greatest revolutionary stride in Acoustics since Edison gave the phonograph to the world." Vancouver Sporting News states that it "sure gives the dyspeptic old phonograph a new set of lungs." South Vancouver News, "It is perfection itself." Vancouver Home Monthly, "Old records can now be resurrected and enjoyed as never before, with the use of a Rex-O-Tone."

Our price for installation is from \$15.00 to \$35.00, according to size and make of machine, and is sold on a money-back guarantee, and is considered by the public exceptionally reasonable for results accomplished which means to the Company, a profit of at least 200%. This invention is a Vancouver product, and will be demonstrated in every city and town across the continent.
