Halibut Boat Owners Decide to Provide Own Bait During Season With Seining Outfits

For the purpose of in future ensuring a steady supply and price of fresh herring bait during the early portion of the fishing season, there was a joint meeting in the City Hall last night of halibut boat owners and fishermen and seineboat operators. The meeting succeeded in an agreement whereby two seinboat outfits, which will be decided upon later, will supply bait at something less than \$15 per ton while herring seining is on and for \$25 a ton after seining is over and the live fish have been impounded. Thus it is hoped to avoid uncertainty of supply and price which has in past seasons prevailed. The seining outfits will guarantee to provide the bait sub-
