FURTHER PARTICULARS OF POWELL RIVER CO.'S UNDERTAKING GIVEN IN DESPATCH TO VANCOUVER PAPER

Further particulars of the big development plan on Graham Island proposed by the Powell River Co., and some interesting discussion of timber affairs on the Queen Charlotte Islands were contained in a special despatch from Victoria which occupied a prominent position in the Vancouver Province on Friday. The despatch was as fol-

Plans for a large industrial development by the Powell River Company on Graham Island involving the expenditure of at least \$1,250,000 and designed to move out logs for the company's big mill at Powell River were announced here by Michael Manson, member of the Legislature for MacKenzie.

Mr. Manson indicated that he had just received authentic information covering the company's plans, following the sale of about a billion feet of pulp timber to it by the government. With his announcement of the proposed Queen Charlotte Island industrial development Mr. Manson linked the statement that the government's sale of the timber in question, formerly under attack, was entirely satisfactory to the opposition.

The Powell River Company will spend not less than \$500,000 in creating new port on Graham Island as an outlet for its new timber limits, Mr replied Manson stated. This will be in additton to large railway construction on 'No other sales are comparable. Sales

the opposition, declared that the trans- timber. action had been of great advantage to Question-Why were tenders called for read from the Educational Department in the province.

This means! that they will have to take their chance of reselling at a market which at present shows a tendency to decline rather than to advance."

by R. H. Pooley.

Cash to the amount of \$95,608 was paid down and stumpage and royalty were to be paid as the timber was cut and scaled and upon receipt of account. All the timber must be cut inside of thirty years. The Powell River Co. submitted the only tender.

Mr. Pattullo said that George H. Mc-Kinnon, a timber cruiser, protested in writing against making the sale at this time of year, claiming that communication with the islands was difficult and the season not propitious for examining timber. Communication was not difficult, however, the minister said, while with detailed information available in he department, only limited field checking by interested parties was necessary.

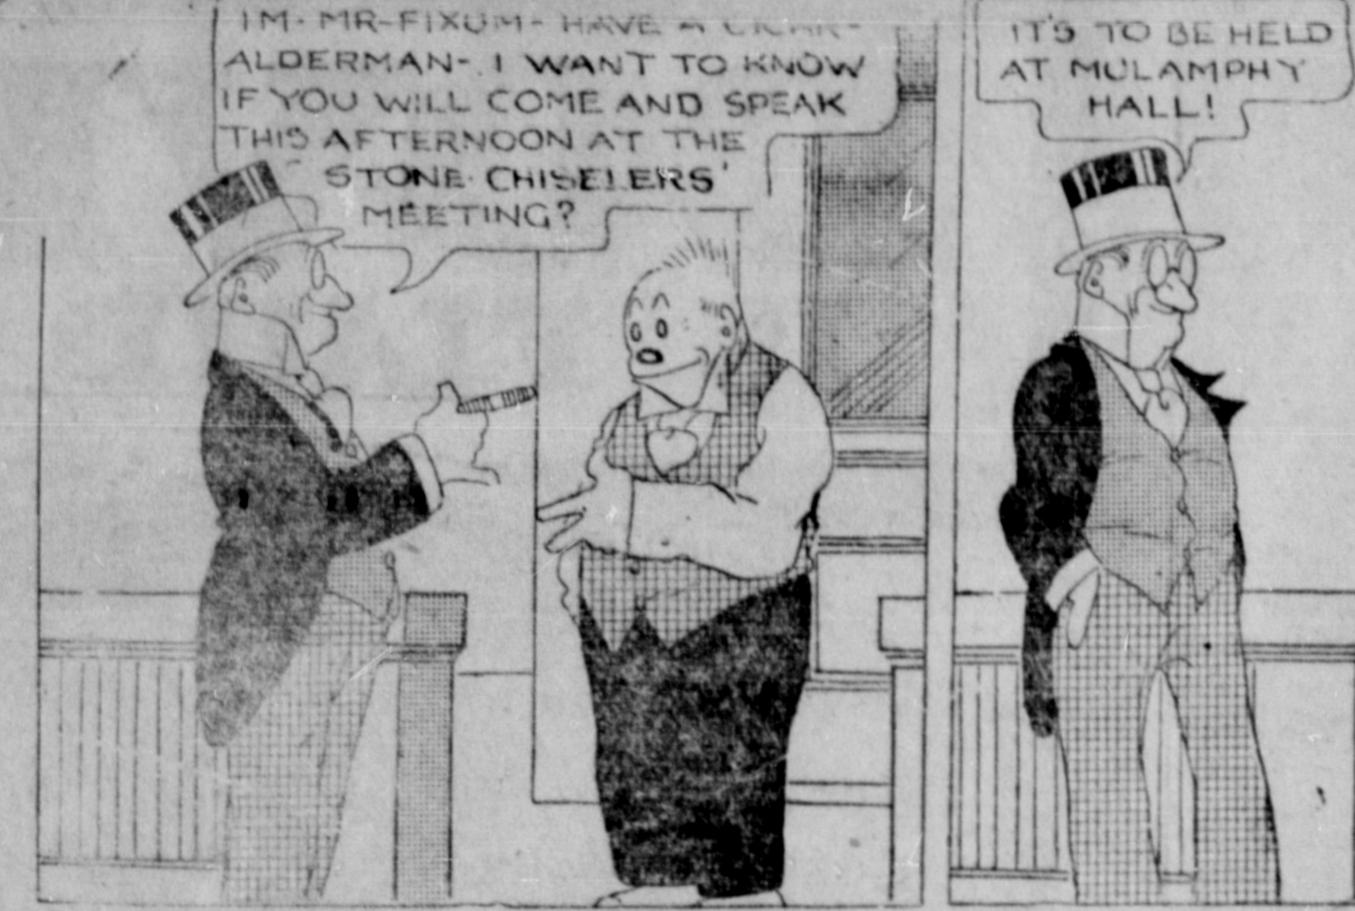

Question-Did any other person or persons make protest to the minister of lands?

Answer-Yes. the Lumber Products Company of Los Angeles, California, and Ladner & Cantelon, solicitors, Vancouver, on behalf of the Lumber Products Company. Coincident with the representations made by Messrs. Ladner & Cantelon, R. H. Pooley also made representations to the prime minister.

Question-Did any person or corporation make request for time to inspect the timber with a view to making a bid to purchase this timber? If so, when, and who were the parties? Was extra time granted? If not, why not?

OPERATIONS NOT SATISFACTORY Answer-Yes, the Lumber Products Company of Los Angeles, California, and Leon Ladner, on behalf of the said company, immediately prior to the sale. The Los Angeles Company carried on operations at Massett Inlet of an unsatisfactory character. Their operations consisted of the very minimum of manufacture to permit export. The product was then shipped to Los Angeles to be further manufactured there. This company is not operating at the present time and is not the owner of the licen-

BRINGING UP FATHER

WHY-AT MULAMPHY CERTAINLY-OLD TOP! HALL!

ses at Massett Inlet, but acquired cutting nights from the license-holder.

The Lumber Products Company was advised that if they would erect a pulp and paper plant in connection with the existing dicenses, which it is understood approximate over two billion feet, such additional government timber as might be available and required to supplement the present supply up to capacity of the proposed unit would be rendered available under the terms of the Forest
