

# ANGLICANS HAVE ANNUAL MEETING

### GOOD PROGRESS RECORDED BY VARIOUS DEPARTMENTS—OFFICERS FOR 1927 ELECTED

The annual vestry meeting of St. Andrew's Anglican Cathedral was held last evening with a good number present, Archdeacon Rix presiding. Reports for the various activities of the church were presented and showed a busy and successful year in the various departments. W. C. Orchard presented the report for the finance committee and the organ fund. Mrs. Thomas Andrew reported for the W.A., and E. W. Tucker presented the report for the Sunday School, while the activities of the social club, in which mention was made of the Boy Scouts and the Badminton Club, were recorded by W. C. Orchard.

The rector reviewed the year's work after which the following officers were elected for the ensuing year:

Clergyman's Warden, H. T. Cross. People's Warden, R. L. McIntosh. Secretary-treasurer, W. C. Orchard. Auditor, C. V. Eviitt.

Lay delegates to Synod, Mrs. R. L. McIntosh, T. Andrew and W. Gilchrist. The finance committee is composed of the above members and R. V. G. LePine, A. E. Bazzett Jones and E. Unwin.

Sidesmen: A. Rix, E. W. Tucker, C. W. Homer, G. A. Woodland and G. P. Tinker.

Organ committee: A. J. Lancaster, W. E. Fisher, G. A. Woodland, R. V. G. LePine and Miss L. M. Ellett.

At the conclusion, votes of thanks were passed to the officers and various organizations, with special reference to the faithful services rendered by the caretaker, John Carroll.

# SULPHATE MILL FOR VICTORIA?

### LOS ANGELES AND CHICAGO INTERESTS PREPARED TO INVEST MILLION DOLLARS ON COAST

VICTORIA, Jan. 25.—The establishment of a sulphate mill here, representing an investment of probably \$1,000,000, is being seriously considered by F. M. Brown, of Los Angeles, formerly of Chicago, who is in the city investigating the possibilities of a paper pulp industry in Victoria. He has been in conference with both city hall and chamber of commerce officials in connection with the matter.

In a statement to a local paper, Mr. Brown said that a committee had been appointed to secure necessary information and data for him and the financiers whom he represents. The cost of water, power, site for plant, foreshore rights and other matters will have to be looked into, he stated.

He and his partners were prepared to invest \$250,000 and more if a large plant were justified, Mr. Brown stated. He was not prepared to divulge the complete details of his proposition until the Chamber of Commerce committee appointed to gather information on the matter had made its report.

It is proposed by the promoters to sell preferred stock in Victoria and other cities, the proceeds from which would be added to the \$250,000 and more that they are willing to invest. With this capital the paper pulp industry would be established here.

**SITE IS NEEDED**  
Some twelve acres of land are necessary for the plant, Mr. Brown stated, while the property will have to have foreshore rights, with sufficient depth of water to allow the docking of freighters, graving considerable draft.

Mr. Brown stated that he had been interested in the establishment of a sulphate mill here by F. W. Pringle, of Chicago. Mr. Pringle is a brother of City Solicitor H. S. Pringle, and has been practicing law in Chicago for the past thirty-five years. F. W. Pringle is closely interested in the establishment of a sulphate mill at Prince George.

This announcement follows close upon that of the Sidney Roofing and Paper Company of a similar nature. The Sidney Roofing and Paper Company will build a \$100,000 paper pulp plant on the industrial reserve, from which the raw material for their roofing papers will be produced.

**PLENTY OF LOGS**  
There are plenty of logs suitable for manufacturing into paper pulp on the lower end of this island. The establishment of a plant, such as that proposed by Mr. Brown, will be of great value to the logging camps along the C.N.R. and C.P.R. that have not been operating on full time for some months past.

# BROTHERHOOD POST GOES TO MURDOCK

TORONTO, Jan. 25.—News of the appointment of Hon. James Murdock, former federal minister of labor, as a vice-president of the Brotherhood of Railroad Trainmen has been received in Toronto. He will assume his new duties on February 1.

When he entered the King government as minister of labor, Mr. Murdock was vice-president of the Trainmen's organization for Canada, and since his resignation he has been filling the post of deputy president.

# BRINGING UP FATHER

# NO SHORTAGE MOOSE HERE

### ARE THICKER THAN EVER IN CASSIAR AND CARIBOO DISTRICTS THIS YEAR

VANCOUVER, Jan. 25.—Although reports from Edmonton indicate a comparative shortage of moose in the north woods, ascribing this to the ravages of a mysterious tick or blood-sucker, British Columbia knows of no such shortage according to trappers and big game hunters who have been working in the moose country recently.

In the Cassiar and Cariboo districts moose are thicker this season than ever, although they are one of the few species of big game that does show an appreciable increase in numbers. Even when the conditions of a generation of so ago are recalled by old-timers they are unable to remember any season when moose have been thicker than at the present time.

Building of the Grand Trunk Pacific line, now part of the Canadian National Railway system, is believed to have divided the moose into two vast divisions, sending one northward towards the Cassiar country and the other south into the Cariboo. Both these sections are big enough to accommodate an enormous number of these animals, however, and the slaughter of moose by settlers along the railway belt does not seem to have had the slightest effect in reducing the total.

Big game guides report that ticks have caused some trouble among the moose, especially in the heavy wooded sections, but they have certainly not been serious enough to curtail their number. So far as the guides know, there has been no case in British Columbia of ticks actually killing moose as has been the case in Alberta.

# APPOINTMENT ON C.N.R. ANNOUNCED

### W. S. Dewar Becomes Travelling Passenger Agent at Vancouver Succeeding Late Harry Wright

WINNIPEG, Jan. 25.—Announcement was made here today by R. C. Creelman, passenger traffic manager, Western region, Canadian National Railways, of the appointment of W. S. Dewar, as travelling passenger agent of the company with headquarters in Vancouver, vice the late Harry Wright. The appointment of Mr. Dewar becomes effective February first.

Mr. Dewar has been with the company since July, 1906, when he joined the accounting department of the Canadian Northern Railway in Winnipeg. In

# Headache Made Her So Sick She Could Not Work

Miss Lola White, Cape Bald, N.B., writes: "I suffered severely, for a long time, with a bad headache. It would ache and ache until it made me so sick I could not work at all. A friend recommended

and after using a few bottles of this medicine I feel that I cannot recommend it too highly to all those who suffer from headache of any kind. For the past 48 years B.B.B. has been put up only by The T. Millburn Co., Limited, Toronto, Ont.

1915 he was transferred to the passenger department as rate clerk and advanced rapidly until he became assistant chief clerk from which position he has now been promoted. His territory will run east from Vancouver to Jasper and will include Kamloops, Kelowna and the Okanagan Valley district.

Mr. Dewar will be succeeded as assistant chief clerk of the passenger traffic department in Winnipeg by Thomas A. Tait, who has been employed in the service of the company for a number of years in Saskatchewan.

# TO INSTAL WATER CONNECTION FOR EDWARD LIPSETT CO.

The city engineer had a report before the council meeting last night dealing with the proposed water connection for the Edward Lipsett Co. in which it is estimated that the cost of laying a six inch main from the dry dock to connect up with the company would cost \$2,500. A letter from the company offered to pay half of this amount. The Board of Works were then authorized to proceed with the installation. It was understood by the council and company that, if the main were continued along the waterfront to others that each company would be asked to pay pro rata and Edward Lipsett Co. would then be reimbursed to that extent.

J. R. Turner, manager of the Duthie Mines at Smithers, will arrive from east on this afternoon's train and proceed south on the Cardena.

# BRIDGE GAME VERY POPULAR

### MOST INDULGED IN ALL WINTER RECREATIONS—RIVALLED ONLY BY DANCING

If a census were taken of the indoor games played in our part of the world during the winter, it is hardly to be doubted that bridge would be far at the head of the parade says the Edmonton Journal. Other games have their devotees, chess, billiards, badminton, rummy, "Up Jenkins," and so on but bridge almost certainly outnumbers them all. Dancing is no doubt a serious rival. It may even have more followers than bridge, but dancing can hardly be called a game. It is more in the nature of a ritual, a passion, or a disease, according to the point of view of the critic.

Bridge would seem to have a number of reasons for its supremacy. It appeals to the universal gambling instinct, even where the prize is not money but one of those small objects beloved of hostesses and their guests. It is not an expensive game to play, unless one is a reckless believer in high stakes, and a bad and unlucky player into the bargain. A four at bridge needs little preparation or organization, and almost any room in any house will suffice for it. It is interesting but not too exacting. It does not tire one like chess, nor does it demand the "wasted life" of the traditional joke in order to attain skill as billiards does.

Between hands—there are opportunities for the pleasantly pungent exchange of opinions about one's mutual friends, which is supposed to be the favorite sport of ladies, and actually is just as much the weakness of men.

# EASY TO UNDERSTAND

It is easy to understand why bridge is popular. What is perhaps more difficult to determine is whether its supremacy is a factor for good or evil. Do bridge parties at all hours of the afternoon and night constitute a serious social evil? On the other hand, do they form a harmless defence against the existence of the idle hands which traditionally seek employment at the Mephistophelian labor exchange? Is the unending talk about bridge hands and scores a useless drain on minds which might otherwise be contemplating great schemes of philanthropic progress, or does it keep the girls from talking scandal, and the men from being encouragingly disappointed of the same?

Does bridge foster the powers of memory, observation and deduction, or does it merely restrict mental activity to a narrow and semi-mechanical routine. Is it really true or merely the embittered observation of a beaten cynic that the leading bridge players are usually people who are too commonplace and dull to be good at anything more exacting? All these crucial questions arise with regard to this well-nigh universal game. They might be made the subject of interesting debate at some of the discussion clubs, when stock subjects have been exhausted.

# SPORT CHAT

After a week's vacation due to the cold weather, basketball will be resumed this evening when four games are scheduled to be played. Interest has somewhat increased in the games partly due to the announcement that Ketchikan will probably come shortly for a series of games and the possibility of a visit from other outside teams. Although the Maple Leafs have only to win one game to make them the city champions in the ladies' league there will continue to be much interest attached to their performance as it is probable they will be selected to meet Smithers and Anyox to decide the ladies' championship of Northern and Central British Columbia.

Ottawa is still leading in the Canadian section of the professional hockey league with a very nice margin.

Robert Gillespie, centre half and captain of the Queen's Park organization soccer team, a famous Scottish aggregation, has declined the sum of \$12,000 to join a Scottish professional team.

It is not probable that Tommy

BOARD.—THE INFLANDER, 939 Second Avenue. Phone 137. 14

Mitchell will ever enter the ring again as a result of the match with Cliff Graham when Mitchell's jaw was broken. The Ontario Athletic Commission did not recognize Tommy as Canadian lightweight champion so there was no title at stake although Mitchell was badly beaten.

Tom Heeney, New Zealand heavyweight has arrived in New York and has signed a contract to meet Jack Sharkey in Chicago on February 14. Although Heeney beat all the best heavies in New Zealand and won the Australian title, and then moved over to South Africa where he battled his way to the top of the heavyweight class, it is expected that he will have a tough battle with Sharkey who is rated with Delaney and Maloney as eligible for the heavyweight championship honors.

### CRIBBAGE LEAGUE

## Avoid Alum!

The use of an alum baking powder not only has a tendency to make things taste bitter, but, according to health authorities, alum is not suitable for use in human food.

## There's no alum in Magic Baking Powder

Its ingredients are the finest grades of phosphate, starch and soda, expertly blended in the right proportions to assure best results in baking. Protect yourself by insisting on Magic Baking Powder. Refuse all substitutes—even if they do offer you some crockery "thrown in" as an extra inducement.
