

**The only diamonds we can afford to sell**

—are the kind of diamonds you naturally want to buy—diamonds of known value, appraised by experts and doubly certified by our own experienced examination. A single sale of a diamond not all we represent it to be, would damage the reputation we have so painstakingly acquired. A reputation, moreover, which has earned us the right to sell Gruen Guild Watches.

### PEACE VALLEY GRAIN COMING

Shipment Now on Way Here Includes Coveted Prize Wheat and Oats of Herman Trelle

The first shipment of Peace River grain ever to be received here is on its way to Prince Rupert and is made up largely of samples of the production of Herman Trelle of Grand Prairie, world's wheat and oats king. It is the exhibit from that fertile region which is to be placed in the Prince Rupert Exhibition next week where it will, undoubtedly, draw a large measure of attention. Mr. Trelle's contribution was only obtained after some persuasion by W. C. Pratt, president of the Grand Prairie Board of Trade, from whom a letter has just been received by the Exhibition authorities which reads in part as follows:

"We are forwarding by today's express an exhibit for your Fair. The exhibit from Herman Trelle, world's wheat and oats king, is not as large as promised owing to the fact that Mr. Trelle has been confined to his bed through illness. One box going forward is plainly marked: 'The product of Herman Trelle, world's wheat and oats king.' This box we are insuring for \$200.

"I might state that the wheat and oats in this frame is some of the original grain that Mr. Trelle exhibited at Chicago in 1926 and which won the world's prize. Apart from this sample, he has only a handful of each left and that is why we are insuring the box for the full amount. I wish you, as a special favor, to take great care and see that this case is not broken and, as soon as the Exhibition is over, that it will be properly packed and returned to us by express, insured for \$200.

"In order to get this sample for your Exhibition, I made a personal call at Mr. Trelle's farm and just had to sit down and plead with him to let me have it as you can quite understand that, this being the last he has left of the original wheat, he naturally wants to keep it.

"Included in Mr. Trelle's case is a small sack of timothy seed grown by Robert Cochrane of this district—part of the seed which won third place at the World's Exposition in Chicago in 1926 and first prize at the Western Canada Exhibition at Regina in 1927.

#### VEGETABLES FOR HOSPITAL

The balance of the exhibits have been made up by W. D. Albright, superintendent of the Dominion Experimental Farm at Beaveridge. Some photos of this farm are included with signs which we would request you put up with the exhibit.

"Mr. Albright requests that you give the vegetables, when you are through with them, to the hospital at Prince Rupert; the grains and grasses you can dispose of as you deem advisable. We do not want anything returned to us but Mr. Trelle's grain and the photos.

"We trust you can arrange the exhibit so as to add to the attractions of your Fair as well as to draw attention to the Peace River country, the greatest agricultural area in the Dominion of Canada.

"The writer, who spent many years on the North Pacific coast, only regrets he cannot accompany the exhibit in order to shake hands with his many old friends in the Prince Rupert and Stewart districts.

"If this exhibit attracts very much attention, the Grand Prairie Board of Trade will next year try and send a representative from the experimental farm to accompany the exhibit and make it about twice as large."

### CITY REJECTS PART OFFER FOR BONDS BY PEMBERTON & SONS

A telegram was read at the special meeting of the city council last night from Pemberton & Sons, the financial corporation, offering to take \$25,000 worth of city bonds at 95.92 with an option for six weeks at the same price on the remainder of a \$51,000 issue. It was moved by Ald. Joseph Greer and carried that the offer be not accepted unless the whole issue were taken.

Mayor Newton had reported that City Treasurer D. J. Matheson who was ill, had left word that he did not favor acceptance of the offer because if \$25,000 worth were taken, the bidders could take the long term bonds and leave the short terms which were not so easy to dispose of.

### SEWER DEBENTURE TO BE CHANGED IN STYLE

Council Decides, However, to Have C.N.R. Matter Settled Before Making Alteration

Mayor Newton made a proposal at last night's special meeting of the city council that to facilitate the sale of sewer extension bonds, the bylaw be changed from serial to sinking fund plan. The citizens were expecting something to be done about the sewer extensions on which bylaw they voted favorably in January and he felt that better time might be made if it were decided to change the style of the debentures. Bond houses had been unable to dispose of the bonds on the serial basis and he suggested that arrangements be made for the ratepayers to vote on this change at the same time as the Canadian National Taxation agreement was placed before them. The problem might as well be faced now and decision made as to whether or not the sewers would be proceeded with this year. Personally, he was in favor of the work being carried out.

Ald. Brown, Ald. Joseph Greer and other members of the board were in favor of the work being carried out at the earliest possible moment but they questioned the advisability of submitting the change to the vote at this time. Once the C.N.R. taxation matter was settled, the way would be clear to proceed with such work and the bonds would have a better chance of sale. The suggestion was accordingly dropped.

### NEED OF MORE LOCAL STEAMSHIPS MENTIONED

Inadequacy of Present Steamers Pointed Out by Member for the District

At the meeting of the Board of Trade last night J. C. Brady, M.P., drew attention to the inadequacy of the Canadian National steamships on the coast pointing out that there was no auxiliary in case of a break down and that the Prince Charles did not fill the purpose for which she was purchased. This might be taken before the Canadian Chamber of Commerce.

G. W. Nickerson said the company would need more boats if it intended to stay in the steamship business.

The chairman pointed out that this was hardly a matter that could go before the Canadian Chamber of Commerce but it might be discussed with the Vancouver Board of Trade.

The question of the opening of the Peace River it was explained would be discussed there.

### PROMINENT VICTORIA BARRISTER HOST AT LUNCHEON IN CITY

Lindley Creese, K.C., prominent Victoria barrister, who visited the city for a few days on his way home from Toronto where he attended the convention of the Canadian Law Society, gave a luncheon yesterday afternoon in the Commodore Cafe to local members of the legal profession at which he described for their benefit the proceedings of the big meeting where Chief Justice Ewart of England was the principal speaker. J. C. Brady M.P. was a guest at luncheon which was attended by W. O. Fulton, E. F. Jones, S. W. Taylor and W. E. Fisher.

### Ten Years Ago in Prince Rupert

The big feature of the Labor Day celebration yesterday, was the gear-setting contest and dory race for fishermen. The respective winners were Simonson and Wick and Pierce and Stockland.

A daughter was born yesterday to Mr. and Mrs. Peter Byrne, Besner Apartments.

Material is on the way now to be used in the reconstruction of the Kyex sawmill which has been acquired by the Pacific Lumber & Trading Co. of Vancouver. W. F. Boyers, formerly of Smithers, has been appointed manager of the plant which will employ one hundred men and have a daily capacity of 75,000 feet.

### MISS GLADYS KENNY GIVEN A SURPRISE

TERRACE, Sept. 3.—Miss Gladys Kenney was pleasantly surprised on Thursday evening when the young people of the district gathered and escorted her to Badminton Hall where

**WATER NOTICE.**

**DIVERSION AND USE**

TAKE NOTICE that E. Rousseau, whose address is 410 Seymour Street, Vancouver, B.C., will apply for a licence to take and use 1 cubic foot of water out of unnamed stream which flows southerly and drains into Port Stephens Bay, about one mile east of Bluff Point. The water will be diverted from the stream at a point about 600 feet from the mouth and will be used for commercial purposes upon the lands described as Lot 2750, Range 4, Coast District. This notice was posted on the ground on the 26th day of July, 1927. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is August 20, 1927.

DAILY EDITION Saturday, Sept. 3, 1927

**JUNIOR HIGH SCHOOLS**

Several junior high schools are being established in the province this year in Vancouver, Point Grey and at other places and Premier MacLean, who is also minister of education, explains that it is being carried out in conformity with the recommendations of the report of the school survey and is in line with modern ideas. He says the program is intended to fit Canadian conditions and to perpetuate what is best in our traditions.

Life is full of beauty if we only train our eyes to see it.

**PITY TOLMIE DOES NOT OFFER**

It seems a pity that Hon. Dr. Tolmie does not offer himself for election so that he may take his rightful place as leader of the opposition. There are some people so unkind as to hint that he is afraid, but of course that is not reasonable. He probably thinks the proper strategic time is at the next general election.

As a matter of fact it takes money to fight elections and the Doctor is not anxious to spend any for nothing just now and at the same time lose his sessional allowance at Ottawa. He is probably wise to stick to the job he has but we should all like to see him in the leader's seat instead of trying to direct affairs from the outside. Conservatives as well as Liberals would like to see what sort of a leader of the opposition he will make. But the Liberals say he will have lots of time for that later, so why hurry. Conservatives on the other hand are hopeful that with a new leader and possibly a new policy they may get the coveted reward of years of waiting.

The strawberry and raspberry seasons are over and the peach and apricot seasons are passing but happily we have the pumpkin season ahead. Life still seems to be worth living.

**MYSTERY WHEAT TRIED**

The new Mystery Wheat, which is said to be more rapid even than Marquis or any of the later wheat products, may solve the frost problem for the prairie farmers. Usually if a farmer gets his crop sown in good time he harvests it without frost but if it is late there is danger. With the Mystery Wheat he can beat the weather, even in a late spring, and this will mean everything.

Gradually the forces of science are pressing hard on the forces of nature and making them capitulate.

Next week the schools open and the parents will get a long needed holiday.

**AIR MAIL WOULD BE GREAT**

An air mail south of Seattle and thence to the East would be the first step toward rapid mail transportation for this province. This class of mail is becoming very popular in the States and after some education would doubtless be of value here.

If the government is to develop an air service for military purposes, there must be employment for those who fly and opportunities for familiarizing everyone with planes. The air mail is the first step and others will follow.

If you want to keep off the rocks, obey the rudder.
