CHOOSING A PREMIER

When Hon. T. D. Pattullo was in the city recently he was asked if he was looking for the position of Premier. He replied in the negative, stating that he did not believe in any person looking for it. The office should seek the man, rather than the man the office. He had no doubt that any man chosen for the position would accept it two hoses. as a public duty but he did not like to see a person "going after" | According to Olsen, who chartered any position of importance.

In spite of the modesty of Mr. Pattullo, there are a great many people who think he would make an excellent premier and one that would add dignity to the office. However, it is for the members of the Legislature to do their own choosing.

Talking is quite all right as long as the talker says something. The objection most of us take is to the person who talks all the time and never even suggests an

INTENSE HEAT IS FATAL

Intense heat in the east is proving fatal to many of those who are not sufficiently strong to withstand it. That is the trouble with many climates. It is either intensely hot or intensely cold but here it is neither. Very seldom is it very hot and never very cold. We often feel that we are under disabilities here in regard to weather but that is largely because we are not properly informed as to what it is like in other places.

> There is life insurance, fire insurance, automobile insurance, and marine insurance, but so far nothing has been heard of election insurance. Today the province of British Columbia should take out a policy.

CATCHING SUCKERS WITH CLEVER BAIT

One may wonder at the regularity with which the "born sucker" is taken in by sharpers of all sorts, says the Ketchikan Chronicle. But a study of literature prepared to stimulate the "sucker's" desire for "big profits quick" tells a story all its own. It answers the question of millions, "why do not the authorities catch and punish the sharpers instead of contenting themselves with issuing warnings to beware of them?"

And this literature is conclusive as to the determined character of the hunt that incessantly goes on to catch them. That more are has a knowledge of this province equalled not caught is due to their having discovered the safe ground that by no other man. In the intricacies of lies between promises that cannot be fulfilled and a type of appeal the constitution he had no superior; as that assures cupidity's rushing in with demand that his money be a political strategist and party leader his accepted in exchange for the thing boomed, though no promise has work of the last session showed him to been made in connection with it and no one has been solicited to buy.

So subtly is the appeal to avarice made, so skilfully is the reader impressed with the merits of that with which it is desired to impress him that "suckers" are sure to be hooked without the possibility of any "come-back" on the sharpers. One sheet lying on the editorial desk makes apparently straightforward report of "market" position and strength of an obscure mining stock; it has terms under which this province joined advanced about 30 per cent in two weeks.

A goodly space in the sheet is given over to historical accounts, apparently accurate, of the rise of well known mining stocks from a lowly state in the market to the position of good investments.

This stuff goes through the mails without questioning of its right to the privilege of being distributed by Uncle Sam. It is stands before his people respected; to- Evelyn and the smaller car received "sucker" stuff, nevertheless. Protective agencies and public author- morrow he will have his praises sung. considerable damage. ities are powerles to act against it. This proves what? Simply that But before he reaches the fade-out of the fishing is always good if the bait is right. The "born sucker" his career it would appear to be a kindly, cannot be protected. No posible warning wil make him wary to the human thing to give just a few of the ful equipment of the best farm machpoint of resisting a skilfully devised lure.

If people of Prince Rupert had as much faith in town as outsiders have there would be few to complain about the prospects here.

School Girl's Nerves

Lost year's time from school with St. Vitus' Dance.—Completely restored by Dr. Chase's Nerve Food.

The anxiety and strain in connection with school life and examinations are too much for many girls who are naturally of a nervous temperament or have become so as a result of anaemia or a run down physical condition.

Nervous conditions are most difficult to overcome and there seems to be no treatment to compare with Dr. Chase's Nerve Food to restore exhausted nerves. Children's health responds quickly to this well known restorative treatment.

Mrs. George A. Moot, St. Anns, Lincoln Co., Ont., writes:-"Our daughter, who was never very strong from birth, at nine years f age became all broken down Walk," which was caused from overtax at school. She seemed to show

symptoms of St. Vitus' Dance and had queer spells, something like fits, at nights. She was out of school for a whole year, as her nerves were so bad. Acting on a friend's advice. we gave her Nerve Food and after a few months' time we began to see a noted change in her, so we kept on with the Nerve Food until she was completely relieved and for the last year she has been absolutely free of the old trouble, sleeps well and is doing fine at school. Now we without Dr. Chase's Nerve Food in our house, as we owe our daughter's health to it."

New rich blood, steady nerves, new energy and new vigor come with the use of Dr. Chase's Nerve Food. 60 cts. a box, all dealers or The Dr. A. W. Chase Medicine Co., Limited, Toronto.

EXPLOSION ON

Man Was Cooking While Tank Being Filled and Result Was Wreck radgue

An explosion caused by the flames on an over-flowed gasoline tank and the heat from a galley stove early this morning partially destroyed the 38-foo Standard Oil dock, making the second similar accident within 30 days the Ketchikan Chronicle.

aboard the vessel, which they had chartered for trap work from Ed Van- Fortunate Occupants of Motor Cars Esderweele, was in the galley when the explosion took place, and was forced to jump overboard when flames enveloped his body.

where Wick was immediately removed for treatment to burns about the face and hands, the following account of

the accident was given: "I was in the galley cooking while Pete Olson was on the dock at the inake. I had finished cooking some acon and was going to fry the eggs when I noticed gasoline on the floor Then the explosion came and I jumped verboard."

Wicks was taken from the water by small fishing vessel.

According to dock officials, Olsen left ing his absence the tank filled and spilled over.

The terrific crash of the explosion completely tore off the pilot house. mediately had the vessel towed around son under the top, the frame of the the dock to the beach where it submerged after filling with water from

the boat for trap work on his Thorne arm property, the vessel will be recon-

TO BE SHOWERED

Editorial of Appreciation of Hon. John Oliver Who is Said to be Retiring

(Interior News)

The Honorable John Oliver has re igned as leader of the Liberal government in British Columbia. His successor will shortly be named and in a very short time there will descend a shower of floral tributes upon that doughty warrior in the political battlefield British Columbia. Tomorrow it will be the same much-ecomiumed John Oliver we know today as "Honest John" who will pass out of the political picture and over the political horizon, yet the jibes. and ridicule and abuse of today will tomorrow give way to the real feeling that comes from down deeper than the political necessities of other occasions. Laboring under what disadvantages Anglican Church on Friday, with the there may and must be in, being deprived of the privileges of education. John Oliver this "Honest John"-is daughter of Mr. and Mrs. P. M. Rae of British Columbia's wonder man. With his life-long opponent, W. J. Bowser, he head and shoulders above any other member in the House. He has been a faithful public servant for a lifetime and an unrelenting guardian of the rights of this province. His fight for equalized freight rates and his battle still under way for an adjustment of the the confederation of provinces, have demonstrated alike his determination and his knowledge of British Columbia

Yesterday he stood before taunts and jeers of the unreasonable; today he

Stop That Tired Feeling!

IN TWO ACCIDENTS

cape Without Serious Hurts

Two very fortunate auto accidents were added during the week to the long In the Ketchikan general hospital, list of mishaps from which occupants of automobiles had miraculous escapes, says the Interior News. On Thursday afternoon Mrs. Wm. Thorne was motoring with her small children and Miss Lola Wakefield. East of Telkwa the car ran into new gravel and finally ran up a hill from which the car toppled over onto the road. Mrs. Thorne and all the children were pinned under the machine. None of the latter were in the least injured, but Mrs. Thorne suffered a compound fracture of one wrist. The

car was considerably damaged. On Saturday morning E. Fletcher and his young son met misfortune on the big hill across the Bulkley River from town. The car stalled and in backing down one hind wheel went over the side to upset the car. The machine Firemen arriving on the scene im- turned upside down, pinning father and car resting on Mr. Fletcher. The boy was imprisoned in the back seat. Assistance was brought from town and when the car was removed it was found the car and that neither occupant was

MANSON HAS CANCELLED SEVERAL MEETINGS IN ORDER GO TO VICTORIA

At Francois Lake a very large attendance turned out at the meeting! held by A. M. Manson on Tuesday night and all were preatly pleased with the meeting, says the Burns Lake Observer. Throughout the western part of Omineca riding, Mr. Manson met with a splendid and cordial reception. Owing to a sudden call to Victoria on important business, Mr. Manson has cancelled the other dates for his lecture tour at Burns Lake and other points east, but states his intention of returning toward ! the end of this month or beginning of

LOCAL RESIDENT WAS MARRIED AT SMITHERS

SMITHERS, July 16 .- At St. James' Rev. J. B. Gibson officiating, the wedding took place of Miss Joan H. K. Rae. Smithers, and John C. Stephenson, Prince Rupert. The groom is a brakeman on the C.N.R. out of Prince Rupert, and next morning the newly married pair left in a shower of rice and confetti to make their home in that city.
