NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to-and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

Incident in Life of Painter Illustrates Great Truth for Every-

(Sermonette by Rev. H. R. Frizell) A man of wealth once brought a company of his friends to see the paintings of George Frederick Watts. The women talked of their new gowns and the social functions, the men of the club and the horse race, but Watts never drew back the curtain before the doors of his working studio. An hour passed and the conversation still went on. But there was a man in that company who worshipped the vesta of beauty, and the angel of ideal loveliness and he wanted to see the paintings, so he whispered to Watts that he must be going. Then it was that the artist caught his inspiration. Turning to his friend he replied: "I do not wish to wear my heart upon my sleeve before this vulgar crowd, but 1 know how to weed them out." So he said, "Perhaps some of the company may desire refreshments, if so the table is spread in the hall below," and at the word they ran away like a flock of chickens in pursuit of salad and champagne. Then Watts drew back the curtain before the doors of his studio, and while the multitudes were feasting below he and his friend bathed their souls in the glory of the "Mammon" and "The Rich Young Ruler" who went away sorrowful. In silence they sat long together, then in awe the friend of Watts drew the curtain to its place. bowed his head upon his breast and went
