Huge Shark Stranded in Harbor-McLean to Start Construction of Fine New Plant Next Month-Improvement in Trolling

Most unique was an incident on Tuesday afternoon when a twelve-foot shark became stranded and was captured in a tide basin east of the plant of the Canadian Fish & Cold Storage Co. towards Shawatlans Passage. The venomous monster is believed to have been chasing salmon toward the passage when he became entangled among the rocks and there either beat himself to death or suffocated as the tide receded. The fisheries experimental station was advised of the incident and Acting Director Brocklesby proceeded to the scene and took charge of operations toward recovering the creature. Five

men finally succeeded in getting it into a boat in which it was taken to the completed, Dr. Large returned to Simp-Cold Storage plant where it is now being son with the boat today. frozen preliminary to preservation.

The monster was found, besides being twelve feet in length and three feet phin, Capt. Peter Byrne, which was in breadth, to weigh some 1,200 pounds. damaged in a recent gasoline explosion. of some two feet, the creature is dock and it is expected that the vessel equipped with small sharp teeth and will be ready next week to proceed to all the necessary factors toward making | sea again. it most vicious in appearance.

and, so far, its identity has not minster were in port this week enroute been established. Last year a shark of to the Skeena River for operation this somewhat similar appearance was taken season. Each were powered with Ford at Nanaimo but it was only some six marine engines; feel long. It is the intention to retain it as an exhibit for the local fisheries experimental station but, owing to the N. M. McLean shop on the forestry boat size, methods for its preservation present Alpine Fir which had her entire upper some problem. Repair work is well under way at the while lying moored at Butedals. Frames are now up for the house work which Dr. R. Geddes Large of Port Simpson will be of slightly different design than truck Ryan Point, near Simpson, with formerly. Within a couple of weeks, the

NEW BOAT PLANT

building plant at Seal Cove in the small bay immediately west of the Canadian Fish & Cold Storage Co. Plans call for what will undoubtedly be one of the finest establishments of its kind on the

The boat shed will be 120 by 100 feet in dimensions and will cover a marine ways which will have capacity to build or repair three boats simultaneously of almost any size.

In addition to the boat shed, there will be floats providing accommodation for some twenty-five boats. Seeing that Mr. Brady fell down on the fishermen's floats job, Mac is going to rise to the In Range 3, Coast Land District, Land occasion. The facilities he intends to Recording District of Prince Rupert, provide will undoubtedly be made full

Another new job for the McLean shop! B.C., occupation Fish Packers, intends in the installation of 20 h.p. and 16 h.p. Hicks heavy duty engines in the B.C. Packers' seine boat Hanna L. and another smaller seine boat belonging to the same concern.

> With the 50 foot seine boat for the Langara Packing Co. due for completion next week, McLean will lay the keel on Tuesday of a 46 h.p. seine boat for the Gosse Packers for the building of which he was recently awarded the contract. This boat, which will be the last to be built in the old shop, will be powered with a 20 h.p. Frisco-Standard

Arthur Kerr is putting a new top on and generally overhauling his speedboat which is moored at the Newcombe float at Seal Cove. The snappy little vessel is powered with a Ford marine engine.

With his house furniture and family on board, Capt .Chris Hovmuller pulled out on Thursday afternoon in his new boat Helen II., originally designed for the halibut fisheries, for Vancouver enroute to Burclay Sound, on the west coast of Vancouver Island, where the vesse! will take up a salmon seining charter. The return of Capt. Hovmuller, who for some years has been identified with halibut fishing out of this port, his former boat Helen I having been the high halibutter here last year, is a matter of doubt.

you can have more heat at less cost by installing the famous "Hecla" Warm Air Furnace. More comfort, too, because the Hecla eliminates dust and gas leaks, and supplies the correct amount of moisture in the warm air. Get the Hecla dealer to show you the Patented Steel-ribbed Firepot that has three times the radiation of other firepots and saves 13% to 15% of your coal bill. We guarantee this firepot for 20 years. See also the Patented Fused Joint Radiator that ensures clean, healthful air. These two improvements alone put the Hecla in a class by itself as the finest heating installation you can buy. You will be interested also in our "Success" Furnace, lower in cost and with some of the famous "Hecla" features. Mail the coupon for valuable "Hecla" literature CLARE BROS. WESTERN LIMITED

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to-and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!
