Neglected Eyes

NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

TERRACE, Nov. 2.—Miss Elderkin, high school teacher, was hostess at a Hallowe'en party at the high school on Monday night, her guests being the pupils of the high school and the members of the high school basketball teams.

The schoolroom was artistically decorated in real Hallowe'en fashion and presented an eerie appearance. Games and dancing were indulged in and an interesting contest was carried out, the prizes going to Miss K. Burnett and Alva Moore.

Refreshments also in keeping with the Hallowe'en spirit were served at midnight and a very pleasant evening brought to a close.

ALICE ARM

The Last Chance property in the Upper Kitsault Valley, owned by Archie McPhail and Paddy Morley, is a mine which it is expected will soon command considerable attention. The ore body is traceable on the surface for a distance of 1,000 feet and two open cuts have been driven across the ledge, yielding ore with values of $18 in silver and gold, copper values not being yet ascertained. A 250 foot tunnel is being driven and is now in 120 feet.

The Wolf mine, situated a few minutes walk from Alice Arm, will be operated throughout the winter states J. Fiva. Development will be carried on until Christmas and mining of high grade will then be commenced.

The log carrying barge Biscayne was at Alice Arm at the first of the week loading logs from the booms of F. L. Housley for shipment to the Powell River paper mill.

Claude Williams left last week for the Queen Charlotte Islands.

Logging operations which have been conducted for the past five years on the Kitsault flats here were brought to a close last week when the last of the logs was dumped in the water by F. L. Housely. The railway tracks are to be taken up and logging at Alice Arm will shortly be brought to a close.

The Espenanza is another Alice Arm mine which it is expected will be operated steadily during the coming winter.

Quite a number of residents left last week to spend the winter in the south. The biggest proportion were from the F. L. Housley logging camp and the Toric mine.

The main development tunnel at the Keystone mine is now in 645 feet and is being driven at the rate of four feet per day with two shifts. The ore body has been located carrying bunches of high grade zinc and galena ore and it is expected that only another 35 feet will have to be driven before the main body is encountered.

The first snow of the season on the flats fell during Monday night and Tuesday morning, the rain turning to snow at different times during the morning but quickly disappearing. A considerable amount of snow is visible quite low down on the hill sides.

RIDICULOUS CONTROVERSY

Editor Daily News.

Referring to the Mayor's report on his resignation from the Board of Trade, we do not wish to continue this ridiculous controversy. In justice to the chairman of our Entertainment Committee however, we must emphatically state that Cyril Orme had absolutely nothing whatever to do with the placing of seats at the banquet in question, nor the choosing of speakers thereat.
