JAY WALKING AND FAST DRIVING

Pedestrians complain of fast driving in the city and drivers complain of pedestrians jay walking. Probably both have grounds for complaint. There are people, especially some of the younger same as they were before they were drivers, who seem unable to restrain their desire for speed. They are a decided danger to the community. On the other hand there ed on either side by fields of ripening Canadians Sanctuary Wood. It was are people who cross the streets at any point and at any angle and they are a decided annoyance to the people who have cars and are themselves in danger of being run down. There are certain places where it is legal to cross the street and the crossing should always be at right angles. Those who cross from Wallace's corner to the C.P.R. office in a direct line are jay-walking and are liable to punishment and likely to meet with a serious accident during a busy

Canadian Soldier Revisits Battlefields at Ypres and Tells of Big Change There

(By Sergt.-Maj. Percy Buttery, late of Canadian Field Artillery) YPRES, Belgium, September 22 .- There is no need for me here to tell over again the story of Ypres, and of all the memories it holds for Canadian men and women. It was with no small feeling of pride, mingled with sad and affectionate memories of the many personal friends who sleep for ever beneath the hallowed soil of Ypres, that I set out for the Salient for the first time since I was there in mud-soaked khaki-for I was a Canadian soldier in the war days, and as a humble artilleryman in the 3rd brigade I was privileged to play a modest part in the unforgettable stand at St. Julien in April, 1915. Though the articles

which I have read on the New Ypres had always interested me, they lacked, I always felt, that personal touch which can only be supplied by a visit to the cene of those unforgettable events. SCENE OF PEACE

Early one morning I arrived at Poelcapelle by train from Ostend. Instead of huge shell-holes gaping out of a sea of mud with the ruins of century-old houses lying in straggled heaps over what was once the countryside; instead as much they ought to be. of charred stumps of trees and long lines of trenches, the outlook was just went at once to the Menin Gaté. Surely suggestive of complete peace and happiness. On all sides were long stretches of land rich in cultivation, and scattered sive arch are galleries approached by about here and there were large redwork and returned to the plow. While we were left behind after the Armistice, while snatching a few hours of rest in an the barbed wire which formed the boun- old barn behind St. Jean, all of us daries of many of the farms, was, most ikely, similarly acquired.

A walk of nearly a mile from Poelcapelle station brought me to Poelcapelle village. Scon I found myself on the road to St. Julien and Ypres, and was then on familiar ground, for the roads have been preserved, and, except that they have been repaired, are the Menin Road, Hell Fire Corner soon ripped open by the German shells. Every few yards on the road from St. Julien I was pestered by these urchins "pfennings." A group of these young mendicants had assembled at the wayside memorial-a small block of stone little larger than an ordinary English milestone-situated on the Wieltje road to mark the furthermost point reached by the Germans in their endeavor to capture Ypres. During a pause to try to visualise the scene as the invader commenced the big retreat which was the beginning of the end of the Great World War, I was relieved of all my small change.

FAMOUS CATHEDRAL

The ruins of the Cloth Hall in the famous square at Ypres remain much as they were, but the rebuilding of the Cathedral of St. Martin as nearly as possible like the original is proceeding. The side of the square outside the Cloth Hall is occupied by cheap and flashlooking souvenir stalls and a sort of fun fair, complete with round-a-bouts, etc., the owners of which live in cara-

vans. It was something of a shock and surprise to see the washing of these caravaners hanging from a clothes-line stretched between the walls of the famous ruins which are forever to stand a mute witness to the horrors of modern warfare. On the opposite side of the square is a row of restaurants and cafes where one can get an excellent meal if one has enough money to pay for it, but the charges are about three times

Next day I was in Ypres amin, and this is the finest memorial of its kind in the world! On each side of the masstair-cases. On the walls are the names of fifty-eight thousand soldiers of the artillerymen is headed by Gunner Julien, where we had to abandon most wanting a smoke more than anything else at the moment, Warren shared his treasure among us. A few days later, while he was wheel driver of an ammunition wagon rushing up to the batteries at St. Jean with shells, he and his horse were blown to pieces by a shell.

Passing through the gate along the came into view, and we quickly reached

FRIENDLY ESTAMINET

That same afternoon I went by light railway from Ypres to Kemmel, and Ranoutre, another spot which will be well remembered by Canadians. At this time this section was comparatively quiet after the terrible experiences which preceded it. I saw the position on the side of the road in front of Kemmel Q.C.I. Hill and facing Messines where our guns were placed during this period.
