stalled a "speed gear," whatever that may be, in the Poinsettia and Doc Alexander is not yet satisfied with Miss Mig so he has her on the grid installing a speed wheel. Jack Bulger is atempting to get more out of his raft ind George Hill is doing some mysterius stuff on his I. C. U. up Cow Bay. George would give the boat a coat paint once in a while, she might h

"Scotty" Reid has made a solemn resolution that he will look at the tide book after this. About ten days ago he put his halibut boat Marguerite on the Ward Ways without taking this little precaution and there she sits still, no ide having come high enough since Among other things this means that Marguerite will miss a east one trip.

HALIBUT LANDINGS

Volume of halibut landings at Prince Rupert is gradually creeping up and, while the total is still something more than one million pounds less than at a similar date last year, the past few weeks, taken individually, have shown increases over the corresponding weeks in 1926. During the past week, landings totalled 624,500 pounds-486,500 pounds American and 138,000 pounds Canadian-as compared with 607,300 pounds in the corresponding week last year. The total this year to date is 7.076,200 pounds - 5,299,600 pounds American and 1,776,600 pounds Canadian-while last year's total at a similar date was 8,261,700 pounds. The fluctuation in prices during the past week yas comparatively small. The high Canadian price was 14.7c and 8c hich the Ternen received on Thursday for 5,200 pounds. The low Canadian price-12c and 7c-was paid on Saturday and Friday. The highest American price of the week was paid on Tuesday to the June which received 14.2c and 7c for 13,000 pounds. The low American price was 12.5c and 7c paid on Wednesday to the Alten for a record catch of 70,000 pounds.

AND ABOVE ALL, the "Hecla" saves 13% to 15% of your coal bill! It has a patented Steel-ribbed Firepot, guaranteed for twenty years, and other heat-saving devices.

TOMORROW TO A REAL

A pilot house is being put by C. O. Rowe on the power cruiser which was purchased during the winter by Miss Almon, from one of the Digby Island wireless operators. The boat is on the beach at Cow Bay outside the railway

Four Ford marine engines have been sold by S. E. Parker during the past ten days for installation on local boats. One is being placed by Capt. Saunderson of Prince Rupert Cannery on his workboat, another is going to C. Cameron's troller, the third is for George McAuley's troller, and the fourth is going in a gillnetter belonging to T. J. Davidson. All these boats are over

50 Miles an Hour All Day Long

WITH EASE TO CAR AND COMFORT TO PASSENGERS.

This is far below the maximum speed of the Essex Super-Six. Yet it illustrates another brilliant side of Essex performance - the ability to cover long distances so smoothly and easily that neither car nor passengers are conscious of the effort.

Flashing pick-up, positive brake control and easy steering give nimble, fast and safe going in traffic.

The new Essex Super-Six is a triumph of engineering-for long wear, accessibility and lowest operation and maintenance cost.
