POLITICAL SAGACITY OF MR. POOLEY:

is greater than the entire business carried by the Sun Life at the outbreak of the war. It has now more business in force than the total life assurance, in force in all Canada, with all companies, Canadian and foreign, when war was declared. Latest reports indicate that the general increase in life insurance secured during 1926 in the United States and Canada is six per cent in excess of 1925. The Sun Life's increase for the year is 371/2 per cent.

Fully keeping step with this great access of business, the assets of the Company have increased during the past twelve months by \$42,195,000, swelling the total to \$345,251,000. The Company's assets have multiplied five

times in the last twelve years. Not the least gratifying portion of the report is the fine showing of business written within the Dominion. Here again a new record is established for Canada in a massave aggregate of \$102,-000,000 of paid assurances.

The Sun Life Company is as old as the Dominion. But it has greater claims to Canadian pride than that. It is today one of the foremost of the small group of great Canadian financial institutions which are making Canada fomous.

CRITICIZING SIR HENRY THORNTON.

If Sir Henry Thornton were not so big and comfortable looking, the lean fellows like Tom Church of Toronto might not be so prone to criticize him. Perhaps, also, the "Sir" does not help matters as far as he is concerned in such a democratic country as this the people of which are rapidly getting away from importance that used to be attached to such things. The fat and titled men never did inspire confidence in the lean and democratic ones,

We have every confidence in the capability and talents of Sir or daughter to have one of those coveted Henry and we believe such an attack as Mr. Church's is badly timed diplomas.
