Sciatic Kheumatism

The Sciatic Nerve is the main motor nerve of the lower Branching off from the spine in the region of the hips, work begins where it leaves the spinal column. When ressure occurs on this nerve, the victim is crippled.

The lower nerve under the magnifying glass is pinched by a misaligned joint transmit healthful impulses, Chiropractic adjusting removes the pressure , The upper nerve is free as nature intends.

For this reason cause and effect are more closely related in sciatica than in most other conditions. When a spinal bone presses upon the sciatic nerve, the resultant pain begins right at the point of pressure.

For the same reason, Chiropractic Spinal Adjustments secure results more quickly and surely in sciatica than in most other conditions-because they are applied directly to the seat of the trouble and remove the cause.

HIS CANE NOW DISCARDED

"For months I had been suffering from Sciatica. I was in such shape I couldn't sleep, work or rest, and was hobbling about on a cane. A friend suggested that I try Chiropractic, I was backward about investigating Chiropractic, figuring it would be like all. the other things I had tried without results, but the time came when I was willing to try anything. Adjustments were started, and I will frankly say that I was relieved from the first one. I laid my cane aside after the fourth adjustment and haven't picked it up since. It has now been a year past and I have not lost a day's workhave had no return of the trouble since."-- Crant Tay'or, Chiropractic Research Bureau, Statement No. 2038-K.

CHARLIE HUNTER'S BELIEFS

Editor, Daily News:

The man who sent in the report to your paper on Saturday about Charley Get the Big 4 habit! When thinking Hunter must not know him very well. tf He must not have been to the hospital or he would have known a little dif-Our shingles cost less and last longer, ferent. He is still a sick man but imtf proving very slowly and he is getting a little of his sight back. This man he never even belonged to the socialist party, never mind being a leader of that party, but he always believed in industrial unionism and was really a union man to heart. He always believed in better wages and shorter hours which would take some unemployed off the slave market and make a chance for a decent living for all, both men and women in Canada, and give the working people a little heart and not have them going with their wondering where the next meal would come from. If something like this is done, we will soon start to think it is not a bad old Canada after all. That is Hunter's idea of things and mine

ENDIESS CARE It Looks Creamy It Tastes Creamy It is Creamy

ILK is a fragile food, easily spoiled. That is IVI why Carnation takes such extraordinary care with the milk which goes into the Carnation

Carnation quality starts at the farm. Selected farms—selected herds—the Carnation Field Force performing an endless service of inspection and education on the farms—rapid handling—scientific treatment—these are the secrets of Carnation purity and quality.

You'll like Carnation Milk. It is just pure, fresh milk made doubly rich by evaporation and kept safe by sterilization. Use it undiluted in place of cream at one-third the cost of cream. Use it diluted in all cooking—with better results and less cost. Order several tins or a case of 48 tins from your grocer.

CARNATION RICE PUDDING - Two cups Carnation Milk diluted with 2 cups water, 1/2 teaspoon salt, 1/3 cup sugar, 1/2 cup seedless raisins, grated rind of 1/2 lemon, 1/3 cup rice. Combine all ingredients except raisins. Turn into buttered baking dish, set in pan of

hot water, and bake in 300 degrees F. oven three hours. Stir several times during first hour to keep rice from settling to bottom. After pudding has cooked two hours, stir in raisins. Return to oven
