

### Every Cold is Serious

Any cold is serious enough when its dreadful possibilities are considered, but when there is soreness or tightness in the chest and a dry hard cough you can look for bronchitis, which is often confused with an ordinary cold.

It is usually known by aching limbs and body pains, chilly feelings, weariness and weakness, pain in the chest and a tight, tearing cough. Fever, dry skin, thirst, coated tongue and constipation are other symptoms.

#### BOARD OF TRADE

Complaints are often made about the board of trade. Just now the chief complaint is that it is not any too active. When it is active the complaint is made that some clique is running it or that it is a political organization. Plenty of other kicks are registered against it. In fact it is very much like other organizations of its kind in other places where similar complaints are made from time to time.

Some years ago the Victoria Board of Trade was eating itself away with dry rot and the people of the city were taking little interest in it. Then the younger men of the Rotary Club and Kiwanians undertook to put some life into it. They abolished the old organization altogether and started the Chamber of Commerce with new officers and since that it has been functioning with vigor and has been one of the factors that has made for the recent improvement in Victoria conditions.

It has been suggested that the board of trade here is not sufficiently representative of the business interests of the city. It has done good work but might do much better if everyone took interest in it.

#### STEWART RAILWAY SALE

Nobody seems to know exactly what the sale of the Stewart railway means. It may have purely a local application or it may be the precursor of a move to build through from Stewart to the Peace River country. At any rate the operation of the railway will benefit the mining town and will be a decided advantage to the owners of mines along its route.

#### UNIVERSITY EXTENSION LECTURES

Terrace is anxious to have university extension lectures but cannot get them unless Prince Rupert is willing to take them. The lectures must be free to the public. Any local organization putting them on must provide a hall and pay the cost of advertising and any other incidental expenses in connection with the series.

It is a matter for some organization interested in education to undertake. The board of trade has passed it over to the Parent-Teacher's as being without the scope of activity of a trade organization.

It would seem rather a pity if the lectures cannot be heard here. As they are purely educational in character, possibly the school board might co-operate in helping to carry the cost. At any rate it seems odd if Terrace is anxious to have them and Prince Rupert turns them down.

#### BASKETBALL GAMES

Reports indicate that some wonderfully good basketball games are being played in the city this season. The exhibition hall is being used for the purpose and usually there are three games each basketball evening. A good many attend these games and it is remarked that those who do not are the losers thereby, if they enjoy good sport.

#### GOOD WORK OF BIOLOGISTS

The fisheries experimental station under the Biological Board, which is just getting down to work, has already made itself quite useful and further developments may be expected in connection with it. The work goes on quietly and without ostentation and bids fair to become very important, especially in a place like this where the development of the fisheries along modern lines is the hope of the port. The fact mentioned in the waterfront news Saturday that the experiments with dog fish liver oil for vitamins had been fully confirmed at the University of B.C. shows that the work done here is supported elsewhere.

## LON CHANEY IN CIRCUS STORY

### Although a Clown the Man is Capable of the Great Passion

One of the most appealing and tragic stories ever filmed, with all the director's delicate artistry at its best. That is the verdict on "He Who Gets Slapped," Victor Seastrom's second American picture, which is coming for the week-end.

"He Who Gets Slapped" presents a tragic, intense story of an unhappy clown. The picture is set in the colorful locale of a European circus.

Lon Chaney gives many tags at the heart-strings in his portrayal of "He," the unfortunate clown, and easily surpasses his other great roles.

The story, in short, is of an obscure scientist, who slaves away for years on his theories, proves them, then, as his

life work is stolen by his patron, and his wife deserts him, becomes "He Who Gets Slapped," a circus clown. His life in the circus, his unspoken love for the beautiful circus rider, and the final sacrifice of his life to save her from marriage to the very man who had ruined him years before, forms the basis of the story.

The story is tragic, but not an unhappy one, and Chaney makes of the unfortunate clown a most appealing character.

Norma Shearer adds another triumph to her list as the girl of the circus, and John Gilbert, as the romantic lead, does creditable work.

### "ADAM AND EVA" SEEN IN DRESS REHEARSAL

#### Local Production Bids Fair to Enhance Reputation of Players' Club and Please Audience

The Prince Rupert Players' Club staged a full dress rehearsal at the Westholme Theatre yesterday of "Adam and Eva" and it is no exaggeration to say that the reputation gained by this club in its previous productions will be greatly enhanced after Tuesday and Wednesday of this week.

The story of the play itself is about a rich American businessman who has a genius for managing his family. The young business manager, however, takes charge of the home for a while, the family having got father to take a long trip.

The young man finds himself confronted with a hurricane of flippancy and lingerie bills. How he extricates himself from trouble and does good for the family and himself must be seen to be appreciated.

As "Adam" Louis Smith displays some of the finest acting seen on the local stage and is splendidly supported by Jimmie Farquhar as "James King" the father. Much humor is afforded by "Uncle Horace" and "Lord Andrew Gordon," played, respectively, by Jack Doherty and D'Arcy Marsh. Smaller parts are ably portrayed by George Waddell and Dave Balfour.

Of the four ladies' parts, by far the biggest is that of "Eva" which is played by Miss Irene Morrison whose setting of the part is a pleasure and delight and a splendid performance for a newcomer to the stage. Her sister "Julie" is played by Mrs. Howard White. "Corinthia" the maid is ably taken by Miss Caroline Mitchell and "Aunt Abby" played with dignity by Miss Rushforth.

Altogether a pleasing and delightful show, absolutely clean, in spots laboriously funny and in others with touches of nice pathos—in other words a play that all should see and those who see will enjoy.

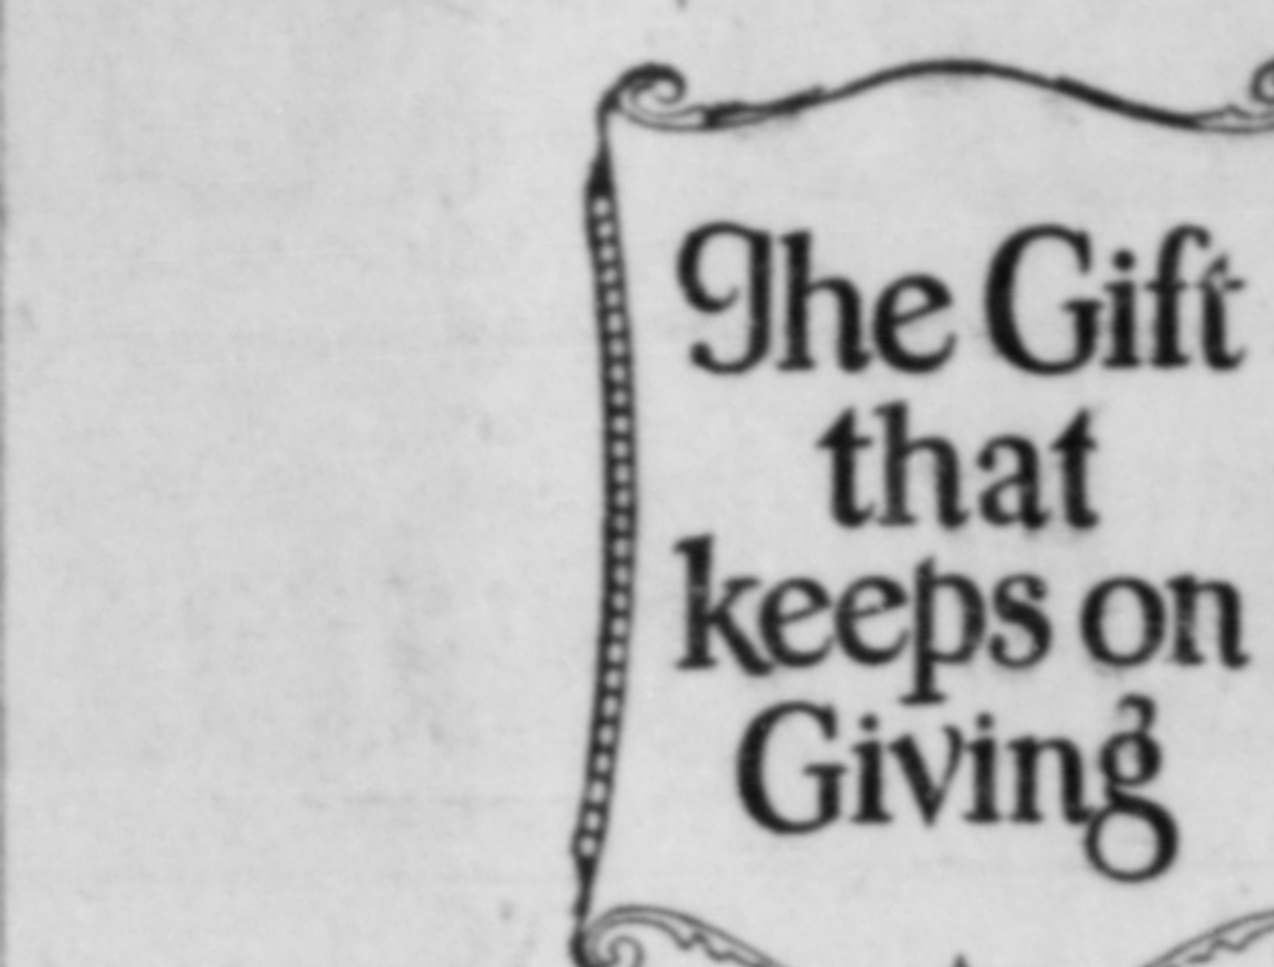

### "FOR THE LOVE OF MIKE" AT THE WESTHOLME IS UNUSUAL AND LAUGHABLE

Here's a picture to laugh and to cry over—a picture that will go straight to your heart. It's "For the Love of Mike," the new First National attraction which is to be seen here tonight.

The story is about a foundling who is discovered by three men living in the notorious Hell's Kitchen district of New York. The men are an Irishman, a German and a Jew. All claim the little youngster but compromise at last by agreeing to bring him up co-operatively, so to speak.

As the boy grows up and becomes captain of the Yale crew, the interest of the story increases. The crew race is authentically that between Yale and

Harvard and is unusually exciting. Ben Lyon plays the boy and Sidney Sterling and Hugh Cameron are seen in excellent characterizations as the "fathers." Both Claudette Colbert, who is seen as Ben's childhood sweetheart, and Mabel Swor, who portrays the Fifth Avenue blonde who strives to make Ben forget his old pals of Hell's Kitchen and join her ritzy set, give a splendid performance. Frank Capra, who is responsible for a couple of the internationally famous Harry Langdon comedies, directed.

# Electrically Driven!

The new Orthophonic Victrola may now be obtained with an electric motor which eliminates winding. You simply relax—and enjoy.

With the new Victor induction disc motor—smooth, silent, constant in speed; playing the Orthophonic Victrola is made more enjoyable than ever before. An electric motor never "runs down". You simply plug in at the nearest electric outlet. The instrument is always ready to play and stops playing at the end of each record. Electricity does the work for you.

Electrical equipment at slight additional cost, is an optional feature of every one of the beautiful Orthophonic Victrola models, even those of lowest price. It is not an attachment. The electric motor is built-in just as spring motors are.

It is difficult to imagine anything more entertaining—in the home—than a new Orthophonic Victrola. The principle of "Matched Impedance" or "smooth flow of sound" brings you real music, by real artists, a treasure house of exquisite treats, at your leisure. An unequalled repertoire.

**FUNNY AND FAST IS "SOFT CUSHIONS" LIKE ARABIAN NIGHTS STORY**

In his unique new comedy, "Soft Cushions" which comes here Thursday, Douglas MacLean has undergone a complete screen transformation.

From the character of the bashful, timid young American who couldn't fly an airplane, scale a mountain or capture a lion, MacLean has become a swashbuckling, self-confident Oriental rogue who willingly dares anything to win fortune and a lovely lady.

"Soft Cushions" is from the pen of the late George Randolph Chester, creator of "Get Rich Quick Wallingford." Like this popular fiction character MacLean in "Soft Cushions" depends on his quick wits to carry him through many dangers.

As the leader of a band of three thieves, Douglas successfully executes several "get rich quick" coups worthy of Wallingford only to fall victim to a

**In The Letter Box**

THE MAYORALTY.

Editor, Daily News.

I was delighted when I heard that Coy. McMordie had consented to run for mayor.

The electors may depend on it that

In choosing Col. McMordie as their Mayor they will elect one who will do his duty, and do it well, and for the benefit of the city at large, and without reference to persons, creeds or political bias. I feel thoroughly convinced that he will carry out the office of mayor of this city, not only to the satisfaction of the council, but to that of the city generally. Col. McMordie will I am sure, carry out the office with honor and dignity, for he is possessed of all the qualifications and characteristics necessary for that highly important office. Of that I venture to say there can be no dispute.

Col. McMordie has been associated and identified with the progress and advancement of the city since the early days.

So I ask you one and all to choose him as your mayor on election day.

CITIZEN.

Capt. Dan Archie of the forestry service called Saturday night on the Prince John for Buckley Bay.
