NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to-and at once.

OF ALL absurdities in the kingdom of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

## SPORT CHAT

There appears to be considerable perurbation over the fact that the International Olympic Committee has granted to the International Football Federation the privilege of extending to its players who participate in the football events at the Olympic games remunertional Olympic Committee is by no search. means of unanimous opinion in the with that of President McVicar to the oils is being carried out by the Experi- co-operation of the industry is sought. effect that the action taken by the Olympic Committee places the Olympie Granes in danger of disruption.

The Olympic Committee accept "the definition of an amateur as drawn by the respective International Federations of Sport." But in article 2 of the Olympic rules it is provided that "an athlete taking part in the Olympic Games must satisfy the following obligations: must not be or knowingly have become a professional of the sport for which he is entered, or in any other sport; must not have received reimbursement or compensation for loss of salary." Then why has the committee departed from these principles n respect to football? It is probably explained in the fact that last year at the meeting of the International Federation of Football, held in Rome, that body decided that "amateur players may receive payment for lost time as may be decided upon by the national association governing the sport, subject to the approval of the Federation," a condition which prevails in several continental centres, but which is strongly disapproved of in British football circles. Not only are these players on the continent paid for loss of time for playing, but for time also while training.

It was in support of rigid amateur principles that the Football Association in England some years ago withdrew from the Olympic games. The Olympic Committee as a result decided to ban such payments for loss of itime for training and playing. But now comes another switch, and from all appearances, unless the decision is withdrawn by the Olympic Committee. English football players will be noticeable only by their absence. This latest bombshell will doubtless form one of the settings for the forth-comling annual meeting of the Amateur

## BRINGING UP FATHER

By George McManus

Several Parties Bring Home Good Bags of Geese and Ducks Over Week-end

The bird hunting season opened auspiciously at the end of the week. While weather prospects were none too good on Saturday, there was a change for the better on Sunday and there was quite a representation out from Prince Rupert Rowing & Yacht Club floats thietic Union of Canada, but in duck fare during this week will, as a Canada participates in the Olympic households.

## SCANDINAVIAN HOPS BECOMING POPULAR

About Eighty Persons Present at Event in Metropole Hall Saturday Evening

The weekly dances being held Saturday evenings in the Metropole Hall under Scandinavian auspices are gaining in popularity. This last Saturday evening about seventy-eight persons were present and they fully enjoyed themselves dancing until 12 o'clock to the tune of melodious music furnished by the Scandinavian Glee Club orchestra consisting of Miss Jean Currie and S. Wikdal.

Harlan I. Smith, Dominion archeologist, reports that Thomas Wray of this city has presented to the National Museum at Ottawa a stone mirror which he found a few days ago under the root of a hemlock tree near the wireless station on Digby Island. As there are only a few of these in exist- (Call George, Paul or Gust) ence, so far as known, they are said to be valuable. One was found recently at Hazelton.
