THE LABEL IS RED AND WHITE

Its Uniformity Makes it Good For Baby!

ONE of the great advantages of Carnation Milk as a baby food is that its goodness never varies. No matter where you buy it or when you use it, baby's delicate digestion is never upset by a change in quality or purity.

Another advantage Carnation offers—the Carnation process of "homogenization" breaks up the fat globules and makes Carnation very easy to digest.

All the food value of milk is in Carnation, for Carnation is just pure, fresh milk evaporated to double richness and kept safe by sterilization. Consult your physician regarding a feeding formula for your baby. Also write us for baby feeding chart. Order several tins or a case of 48 tins from your grocer.

CARNATION CARAMEL TAPIOCA—One-third cup tapioca, 2 cups Carnation Milk diluted with 2 cups water, 2 small eggs, few grains salt, 1 cup light brown sugar, 1 cup broken nut meats. Add tapioca, salt and sugar to hot diluted milk. Cook in double boiler for 25 minutes or until tapioca is transparent. Beat eggs thoroughly and add slowly to tapioca, cooking for two minutes longer. Finally add nuts. Chill and serve with whipped cream. This serves eight.

Why you need LIFEBUOY--the purifying Toilet Soap

Think of the adventures of a coin---or a piece of paper money in a single day. Think how unclean a thing can become by passing from hand to hand.

And money is only one of the objects you often touch that are touched by other hands—objects that carry invisible but dangerous germs.

Millions have turned to Lifebuoy Soap as a prevention against infection and as an all-sufficient, delightful Toilet Soap.

The orange red cake in the orange red carton is a familiar sight in countless homes where the truth is recognized of the old axiom that "an ounce of prevention is worth a pound of cure."
