Pulp Mill at Brown's River to be Built and Site Now Being Cleared

Explaining rumors that had been prevalent in the city last week with regard to the matter, it has just been learned by the Daily News on good authority that Harry Saunders of Vancouver, who is believed to have money of his own as well as other financial backing, is about to acquire the mill site of James A. Brown at Brown's River on the Estell River and establish there a pulp plant. Mr. Saunders now has a crew of men at work clearing the site and making other preparations for an early start on building operations. It is understood that a deal covering transfer of the property may be closed in the city today. Mr. Brown arrived from Port Essington on yesterday afternoon's train and Mr. Saunders is expected today.

ENGINEER AT STEWART ON RY. MISSION

Examines Mackenzie & Mann Line on Behalf of Private Interests

After having spent nearly a week at Stewart looking over, on behalf of private interests, the possibility of a railway up Bear River, J. G. Sullivan, consulting engineer for the Canadian Pacific Railway, was a passenger on the Prince Charles this morning bound for Vancouver. In an interview, Mr. Sullivan made it clear that his mission had no connection whatever with the C.P.R. and that he had been merely acting in a consulting capacity for private interests. Who these interests were, what they intended to do and what had been the result of his trip, Mr. Sullivan declined to reveal.

PIRATES HAVE HOLD ON FLAG

Victory in Double-Header Over Chicago Cubs Practically Cinches Pennant for Pittsburgh

NEW YORK, Sept. 26.—Victory in two games of a double-header yesterday with Chicago Cubs virtually cinched the National League pennant for the Pittsburgh Pirates. Notwithstanding the St. Louis Cardinals rose very close to the leadership by winning three week-end games from Boston. The New York Giants now look as though they might finish in third place. They shut the Pirates out 3 to nil on Saturday but their game yesterday with Brooklyn Dodgers was called on account of darkness at the end of the seventh inning with no score.

Pittsburgh can win the pennant by taking four of the five remaining games even if the Giants and Cardinals take all theirs. Three wins for the Pirates would make a three-cornered tie under similar circumstances. The Pirates now have a two-game lead.

Jess Petty of Brooklyn stopped the Giants' advance in the scoreless seven inning game. New York Yankees and Detroit Tigers split honors in the American League, each winning over the other once. Philadelphia Athletics and Cleveland Indians split a double-header on Saturday.

Babe Ruth must hit three homers in the four remaining games if he is to tie his 1921 record.

Saturday's Scores
NATIONAL LEAGUE
New York 3, Pittsburgh 1.
Boston 3, St. Louis 4.

British Flyer Smashing All Records for Speed Making 281 Miles an Hour Wins Cup

VENICE, Italy, September 26.—Flight Lieutenant S. N. Webster in the supermarine Napier S5 monoplane today smashed all seaplane speed records capturing the famous Schneider Cup for Great Britain.

Italy held the cup for the past year as a result of last year's victory over the United States. At Hampton Roads Webster averaged 281.488 miles an hour compared with the record of 246.496 per hour of Major Mario de Bernardi, who won last year.

Lieut. Kinkead, British, and three Italians, including last year's winner, were forced to give up before the completion of the course.

This year's win makes the third victory for Britain. Others were at Monaco in 1914 and Naples in 1922.

BISHOP WILL BE APPOINTED

Archdeacon Rix Recounts Need Here and Synod Agreed to Find Money

TORONTO, Sept. 26.—The desire of the Diocese of Caledonia for the appointment of a Bishop met the approval of the Anglican Synod. It recommended the appointment, although the episcopal endowment funds have not reached the amount required by the regulations to produce an annual revenue of \$1,500 before a Bishop can be appointed.

Archdeacon Rix of Prince Rupert, however, won the sympathy of the Assembly by a stirring recital of the heroism of the clergy and the scattered peoples to complete the fund. He pointed out that contributions promised or received for the Endowment Fund totalled \$83,000, of which the clergy of Caledonia were giving \$12,000, by voluntary payment from small salaries, and that, despite conditions in England, the British Missionary Society had made a generous contribution.

The balance of the fund for Caledonia will be provided by the Missionary Society.

It transpired that the following dioceses which have Bishops have not sufficiently large endowment funds to produce the required revenue of \$1,500 a year: Athabasca, Keewatin, Mooseonee, Yukon, Edmonton, Algoma, Ontario, Qu'Appelle, Saskatchewan, Cariboo, Nova Scotia, Kootenay and New Westminster. These thirteen dioceses get their Bishops before the present regulation came into effect.

F. G. Dawson Sees Great Prosperity in Interior

Motored from Smithers to Prince George With Mrs. Dawson and Says Country Never Looked so Good as it Does Today

The country between here and Prince George never looked so good as it does today," declared F. G. Dawson who with Mrs. Dawson returned yesterday from the interior. "We motored through the country from Smithers to Prince George and everywhere were signs of prosperity. Increased acreage is being brought into cultivation and here and there are new farms where formerly was only bush. Wheat, oats and hay are an excellent crop this year but roots are a failure. Harvesting operations are complete and threshing is almost finished.

Asked about increased acreage in wheat this year, Mr. Dawson said it was difficult to arrive at anything like an accurate estimate but he would judge there was pretty nearly fifty per cent more wheat acreage this year than ever before in the history of the country and the yield has been heavy. Timothy and clover seed would be about the same as last year.

Mining is also being carried on at Hazelton, Smithers and Topley with renewed vigor and the little setback at Topley by the withdrawal of the Standard Silver Lead Company has already been fully overcome and work there is proceeding.

Speaking of the roads, Mr. Dawson said there was now a real highway most of the way. They were able to make thirty miles an hour without difficulty. One of the sources of wealth in the country this year will be the tie business, about a million dollars will be spent this year in the country through which he traversed in getting out a million and a half ties. About the pole business will bring in about three quarters of a million dollars.

Mrs. Dawson, who was making her first trip through the country, was very much enthused over what she saw and could scarcely realize that such wonderful farms could be found in so remote a country.
