DAILY EDITION Tuesday, July 26, 1927

**CENT A POUND MEANS MUCH**

Possibly the people of Prince Rupert do not just realize what it means to the fishermen if the price of halibut goes up. On a four man boat with a catch of ten thousand pounds an addition of a cent a pound means \$100 more for the catch or \$25 for each fisherman or thereabouts. Is it any wonder that the fishermen scan so eagerly the halibut sales list as published in this paper and that merchants and others also take a keen interest in the prices paid.

It might be well to ponder over the fact that doctors take very little medicine.

**NEW PARKING BYLAW**

Doubtless the police will use reasonable discretion in enforcing the parking bylaw. The object seems to have been to prevent people on a sixteen foot road using it for permanent parking instead of building a garage or making a parking platform on their own premises. The general purpose is a laudable one but it may be enforced in such a manner as to prove objectionable. If a visitor calls at a house and happens to stay half an hour after midnight, it would be an unreasonable thing to fine him for so doing. If it is right for a visitor to leave a car standing outside a home at half past eleven it is just as right for it to be left there half an hour after midnight except for an arbitrary bylaw. However, it is supposed that this is not the purpose of the enactment but that it is to prevent permanent parking and to give the police the right to prevent it. We fancy it might be a good thing for the police or for the mayor to make an announcement as to just what is intended to be implied. If it is just one of those fussy bylaws made to annoy people, the quicker it is repealed the better, but we hardly think that is the intention.

Those who are always crying out against the methods at present adopted by denuding the country of its timber, might reflect that if the timber supply were less the Sunday newspapers would have to be smaller, and what an advantage that would be.

**TEETH AND HEALTH**  
(Vancouver Sun)

Members of the Washington State Dental Association, meeting this week in Seattle, are handing out some advice to the public that can be received just as profitably in Vancouver as across the line.

These dentists say that the teeth are the most neglected part of the human body.

If we do not see well, we have our eyes looked after.

If we are easily tired and feel languid, we usually find out the trouble.

But until our teeth break out in open rebellion, we pay little or no attention to them.

Decaying teeth are hotbeds of disease. They generate poisons that pollute the entire body, resulting in protracted sickness or even death.

Periodical dental inspection is one of the big factors in keeping well.

It's not necessary to go to the Orient. All that is necessary is to visit Cow Bay and you can share horrid smells right at home. It might be a good thing to advertise this as an attraction to tourists.

**JAP INLET SUCCESS**

With a total of 403 marks Ruth Corbould of Jap Inlet school takes second place in Prince Rupert Centre in the recent High School entrance examinations. Her marks are only thirty below those scored by the leading pupil of the province.

Ruth's success brilliantly justifies the struggle of the Jap Inlet residents to obtain a teacher, and to erect by combined labor, a new school for their children. Ruth is the teacher's eldest daughter and her success is also an example of what sound teaching combined with loving home interest can do for a pupil. We must all take off our hats to the pupil, the teacher, and the unselfish labor of the fishermen of Jap Inlet.

The chief objection to the movies is that you can't throw a brick at the innocent creature who ought to have been badly beaten up by the villain.

**MATRICULATION EXAMINATION RESULTS OUT**

**Number of Pupils at Prince Rupert High School Make Passes**

VANCOUVER, July 26.—Of 2534 candidates writing matriculation examinations in the high schools of the province last month, 1147 passed in all subjects. 703 were granted supplemental passes and 657 were granted partial standing. Successful candidates included:

**PRINCE GEORGE CENTRE**  
Prince George High School, Grade XI.—Elizabeth J. Harvie, Katherine McLeod. Two candidates granted partial standing. Completed Grade XI. Nester T. Tsowskyan and C. MacQueen.

**PRINCE RUPERT CENTRE**  
Prince Rupert High School, Grade XI.—May Clark, Lucy M. Gain, George Cecil Hacker "S," Henry W. Heilbroner "S," Dorothy Patmore, Evelyn D. Rice, "S," Laura A. Stephens "S," Douglas G. Stewart, Julia K. W. Walters "S," Rosemary E. Windsor. Ten candidates granted partial standing completed Grade XI. Swana Olafson, Mary M. Martin.

Prince Rupert High School third year commercial. Muriel E. Brewerton. One candidate granted partial standing. Third year technical.

**QUESNEL CENTRE**  
Private study. Completed Grade XI. Grace McKenna.

**SMITHERS CENTRE**  
Smithers High School, Grade XI.—Kathleen H. Durham "S," Annie Green "S," Nancy B. Preece "S," Alice M. Shepherd. One candidate granted partial standing. Completed Grade XI. Oswald H. Hoskins.

**VANANDA CENTRE**  
Private study. Completed Grade XI. Wilfred J. C. Tait.

**FORT FRASER CENTRE**  
Fort Fraser public school Grade IX. Glenn Vinnedge. Grade XX. John D. Moore.

Fort Fraser North public school. Grade X. Katie E. Belsham, David Wellington "S."

**PRINCE GEORGE CENTRE**  
Prince George High School, Grade IX.—Dorothy S. Harely "S," Bell Parter, Winnifred C. Tyner.

Bend public school Grade IX.—Lillian Bogla, Ruth S. Hooker.

Dome Creek public school. Grade X.—Roberta Bogla.

Loos public school. Grade XII.—Martin Brate. Grade X.—Bert R. Leboe, Otto E. Elbo. Private study. Grade XII. One candidate granted partial standing. Bouehle Lake School, Grade IX.—One candidate granted partial standing.

**COMPLIMENT PAID TO LOCAL STOREKEEPER**

Among the many tourists visiting the city these last few days was a certain manufacturer from Chicago. While sauntering along Third Avenue, his eye passed idly over the windows of The Louvre and distinctly brightened as he glimpsed the interior of the store from the street. After an inspection of the show windows, he and his party entered the store and he continued his inspection, both of the fittings and of the goods displayed. A manufacturer himself, his verdict was that he considered it to be the nicest store he had seen since he had crossed the Canadian border and that whoever had fitted it up had showed good taste.

This compliment from an absolute stranger to The Louvre was appreciated. The same good taste shown in the store fittings is also applied to purchases for the Louvre where ladies may depend upon seeing hats, dresses and gowns the most chic and up-to-date in style. Ladies of the city are invited to inspect the stock and to judge for themselves.

**Man in the Moon**

TO be perfectly satisfied is fatal. Then begins deterioration.

IF we don't get a better mail service pretty soon, Jake suggests putting on an overcoat as soon as the road is through to Terrace. That would bring in letters quicker than they arrive today.

THE other day I was asked why was a flapper like a plumber and the only answer I could think of was that costly fixtures accounted for much of her prosperity.

THE rail birds on Second Avenue have been enjoying the fine weather of late. There is talk of the formation of a railbird's club with a worthy chief splitter as presiding officer.

OH, I long to be a rail bird  
Just sitting in the sun  
And spinning yarns to all my friends  
Soon as my work is done.

I long to watch the people pass  
And spit and make remarks  
About the girls who amble by  
And boys off on their larks.

MRS. Putter: "Is your husband a golf fan."

Mrs. McNabb: "Is he? Why, he thinks the missing link is a lost golf course."

**DR. H. R. GRANT VISITING HERE**

**Sky Pilot Welcomed by Friends and Members of Former Congregation**

"My heart gave a twinge as I travelled down the beautiful Skeena River and then at the station last night when I met the large number of people I knew so well," said Dr. H. R. Grant this morning. "It is great to be here and to meet the people I knew so well. I am having a wonderful holiday."

Dr. Grant arrived yesterday afternoon on the train from Terrace and was met by a large number of old friends and members of the Presbyterian congregation. He is now the guest of Mr. and Mrs. T. H. Johnston, Fourth Ave. East, and expects to remain until Monday. On Thursday he will be the guest of honor at the Rotary Club luncheon and if he is able to remain that long he may preach on Sunday.

**Ten Years Ago in Prince Rupert**

JULY 26, 1917.

A committee consisting of Ald. McClymont, Ald. McRae and Ald. McMeekin was appointed at the council to investigate the cost of coal.

Miss H. L. Bentley of Edmonton and Mrs. Pringle are leaving for Seattle for a holiday.

The condition of W. Gerschitz, who was admitted to hospital suffering from paralysis is improving.

Miss Chris Stephen has returned from Skagway.

E. F. Doby and H. B. Rochester have received their new automobiles.

The Kelly Lumber Co. expect to have 150 men employed at their Queen Charlotte Island camps shortly.

**TALKED TO HUSBAND IN NEW YORK CITY**

LONDON, July 26.—Mrs. B. G. Dahlberg of Chicago learned recently that she could not get a telephone call through to her husband in New York from a Paris hotel room, so she cabled a London hotel one afternoon to get a call through to New York for her at 10:30 o'clock that night. Then she boarded an aeroplane bound for London. Upon reaching London she spoke to her husband in New York for six minutes and then took the next passenger aeroplane back to Paris.

**BOSTON HAS LARGE CATCH OF FISH**

BOSTON, Mass., July 26.—The greatest catch of fish in the history of the port was landed at Boston during 1926, the 52nd annual report of the Boston Fish Bureau discloses. A total of 167,061,136 pounds was landed here by 4,669 vessels arriving during the year. The best previous record, that of 1925, was 194,038,489 pounds.

**FLY-TOX KILLS MOSQUITOES**

**Mosquitoes Thin Your Blood**

Normal blood is too thick to be drawn through the mosquitoes' small piercing tube. They must first inject a thinning fluid. In that way disease germs are set afloat in the blood stream—bacteria of burning fever and crippling disease. There is also the danger of stropooccoc infection (blood poisoning) from scratching the bite. Mosquitoes must be killed. Health authorities advocate Fly-Tox. Simple instructions on each bottle (blue label) for killing ALL household insects. Insist on Fly-Tox. Fly-Tox is easy to use. Safe, stainless, easy, sure. Advt.

**ONE LICENSE ONLY FOR TWO BUSINESSES ASKED OF COUNCIL**

At the city council meeting last evening a letter was read from G. F. Brine asking that it should be sufficient for one business license to be taken out to enable him to carry on his auctioneering as well as selling by private sale. At present he takes out a business license and an auctioneer's license. Mr. Brine was present to speak in support of his letter. The matter was referred to the finance committee to enable them to consult with the city solicitor.

**MOSQUITOES**—what chance for comfort! Kill them at once, with Flit.

Flit spray clears the house in a few minutes of disease-bearing flies, mosquitoes, bed bugs, roaches, ants and fleas. It searches out the cracks where insects hide and breed, destroying their eggs.

Flit kills moths and their larvae which eat holes. It will save your clothing, furs and rugs. Clean and easy to use. Will not stain.

Flit is the result of exhaustive laboratory research. It has replaced old ineffective methods. Fatal to insects but harmless to mankind. Recommended by Health Officials. Buy Flit and Flit sprayer today. For sale everywhere.

**DANCE FOR COLOMBO**

City Sets Aside \$150 Toward Defraying Cost of Event

In connection with the visit of the British naval cruiser Colombo on August 24, a recommendation was read from the finance committee at the city council meeting last evening recommending that a public dance be given on that occasion and that the city set aside the sum of \$150 for the dance. This was agreed to.

**SYNOPSIS OF LAND ACT AMENDMENTS**

**PRE-EMPTIONS**

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

**PURCHASE**

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

**HOMESITE LEASES**

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

**LEASES**

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

**GRAZING**

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to 10 head.

**CAMP-FIRE PERMITS**

This year it is necessary to have a permit from some Forest Officer before any camp-fire may be set in any forest or woodland

Be sure to get a permit for your camp-fire and follow the instructions printed on the back of it
