Irade In Sale of Watches

Styles and models of watches are changing all the time, just like autos. Many Prince Rupert people are carrying old style watches, because they have not been able to trade them in. Many of these old watches are not only unsightly but are costing money for repairs, besides not being as reliable as a modern watch.

TRADE IN YOUR OLD WATCH!

We have decided to make a liberal allowance for a short time on old watches as part payment on a new watch, so don't miss this chance.

All our watches are of well known makes and are sold at regular prices.

Little Salmon Canning Going on Yet-Lull in Boat Building-Much Activity at Dry Dock

The opening of the 1927 sockeye fishing season differs little from that of other years. As is usual in the first week or so of each season little fish has so far been caught and it is not considered that much of a run will develop until next month. In District No. 2 Bella Bella and Klemtu are reported to have been the only canneries to actually start packing during this, the first week of the season. Up to Wednesday, Inverness was reported to have been the only plant on the Skeena River having steam up. All boats are fishing on the river, however, in the hope that the run will show an early improvement. The firs

weekly close season started at 6 o'clock berta G. for R. G. Johnston and the last night and will be lifted at a similar hour Sunday night.

An improvement in trolling was reported this week although the fish for an extended period of boat repair could still be a good deal more abund- work which has already started. ant than they are just now without breaking any records. About 150 boats boat Florence G. for the Gosse Packing are estimated to be engaged at present time in this pursuit in the vicinity of Dundas Island with some 80 at Hippo. Rowboat trolling at Warke Channel is also in full swing.

which is engaged in salmon packing between Hippo Island and Butedale cannery, is expected in port this week-end to pick up her skipper, Don Yelf, who seine boat Osio II. left this week end is now fully recovered from burns about for down the coast to fish and pack the face sustained recently on the boat. out of Klemtu cannery. He was brought into town a few days ago by the Bruce I. for medical atten-

engine after which she will engage in Alaska steamers and look 'em over. fishing for Port Edward cannery. Last week a similar motor was placed in the Henry Ford, belonging to T. J. Davidson of Osland, and a run of 13/4 hours was made from here to Inverness cannery out of which the boat will engage in fishing. Next week the same type of motor will be placed in a gillnetter for F. Crookall of Osland which has just been built.

BOAT BUILDING THROUGH

The season's program of new boat building is now about completed and the summer lull in this line of industry will be shortly setting in. An opportunity will be given thus to carry out considerable repair work that has been hanging fire.

Suchiro is now putting finishing touches on the seineboat for William Rudland, his last contract this spring. The boat for William Wood of Sandspit recently left this yard and is now being outfitted at the Cow Bay floats before proceeding to the Islands.

Suga is completing the seine boat Al-

NEW SERVICE BOAT

Other cannery managers can have their speedboats to rapidly traverse from one point in their fishing grounds toanother but Bob Johnston desires something more substantial to cover his territory. Thus the new service "Klemtu Cannery" which arrived in port on Thursday from Victoria where it was built at Foster's yard.

The Klemtu Cannery is a sturdy looking craft which should be well suited for the work it is planned she shall carry out. She is 46 feet long with beam of 11 ft. 5 in, and is powered with a 40 h.p. full deisel Fairbanks-Morse engine. She has comfortable accommodation and, while designed more particularly for the transport of the manager or other cannery officials, is also fitted out for towing so, at a pinch, she may be called into practical work. She has a speed of nine knots

The boat, of which Capt. Norman Brodhurst, well known locally, has been appointed as master, made the trip up from Victoria by easy stages, stopping overnight at Nanaimo, Alert Bay, Bella Bella and Klemtu enroute. She arrived here at 4:30 Thursday morning and proceeded late that afternoon In the Matter of the Estate of Torey to Inverness; On Sunday, she will go TAKE NOTICE that by order of His on down to Klemtu which will be her

A QUICK SALE

The little open boat Irene has had no less than three owners during the period of the past week. A few days ago Bill Watt turned the vessel over to convert it into a troller but had a quick change of mind and found a purchaser that Gosse Packing in the person of Jimmy Wadsworth, Fish Packers, intends former owner of the Iduna, who, at the of a crankshaft for the Granby Co. to apply for a lease of the following time of writing, looked like he was going to stay with his ship. The Irene

> Rolf Walker has returned to the Yacht Club float with his small pleasure boat which he wintered at home.

Picnic and fishing parties have once gain become the order of the day and daily the harbor is dotted with pleasure craft plying to and fro, and at night the opposite shore is a constellation of campfire beacons. Large organized picnics have of recent years been gaining in popularity and almost every Sunday between now and September is booked up with events of such kind.

Incidentally the anglers are becoming restless and a number of extended
