### LOCAL NEWSPAPER IS TOWN'S BEST BOOSTER.

A writer in a current magazine observes "if the newspaper is just a little better than its town, the latter is the gainer thereby."

Towns and their newspapers usually lag or lead together. Progressive journalism is the unfailing tonic of the lethargic community, but it is equally true that a lifeless newspaper can seriously retard the development of its community.

There is no better community asset than a home newspaper equal to the needs of the community. While a poor newspaper is better than none to the individual reader, that does not hold true for the town.

What can a good newspaper do for its community? It can serve as the town's messenger to the outside world. It must take the leadership in all community projects if they are to be successful. It is the infallible line of communication between local government and citizen. It is to the newspaper that all organizations turn for assistance in public welfare movements and without that assistance they face failure.

The newspaper reaps the reward of its initiative by sharing in the general improvement of business and community affairs it has been instrumental in bringing about. The good newspaper deems it a pleasure to serve its community and its readers and is fully aware that it is only through giving a full measure of service that it can progress and prosper.

### MANY SCHEMES FOR FREE PUBLICITY.

The Daily News, like other newspapers the world over, is repeatedly the victim of artful attacks in an effort to secure valuable space for the introduction of various schemes for private gain or the moulding of public opinion toward "putting over" some scheme.

Some bureau or syndicate or manufacturer or politician will hit upon a happy idea, and some clever fellow will tell him just how he can work the newspapers for all the "stuff" needed; whereupon the "expert" is engaged or the advice is taken without the aid of the expert. He makes good at getting the stuff out—but publishers are too keen to allow the grafting game to go too far.

Invariably, when the scheme is found out in time, and the matter is refused, a threat is hurled at the publishers that the "story" will be given to another paper.

The plot works, occasionally, but not always.

In the long run, the schemer usually loses out because never again can the paper be approached in the same way by the same schemer.

The fact must be considered, also, that unless citizens can be depended upon at all times to furnish their local journal with live stories they cannot expect to get away with spasmodic attempts to put over propaganda. The editor is a hard man to fool.

### WALKING LOSES ITS POPULARITY.

Although in the downtown districts of our cities the sidewalks are still crowded with pedestrians, it is probably true that walking has become an obsolete pastime in America. The rushing in and out of stores in the shopping districts isn't walking anyway, in the opinion of lovers of that form of physical exercise.

We have lost the feeling of leisure which in former days was so conducive to walking. Even in our motoring we seem to be possessed of the idea that we must hurry to get somewhere, although we may have no particular destination in mind.

Obviously the automobile does not permit of sauntering. When the road is good, there comes the irrestible impulse to make the most of it, which to nearly all drivers means anywhere from 35 to 60 miles an hour. And consequently there is lacking the opportunity for quiet enjoyment of the passing landscape; and lacking, too, is the inducement for reflection and restful meditation which walking, either by one's self or with agreeable companions, makes almost inevitable. In its own way motoring has its pleasures, and on the whole they are no less than those of walking. And perhaps in the stress of modern life it is only natural that we should have taken to the thrill-producing form of exercise.

# SHALL CHURCH MAKE HISTORY?

ADMISSION OF WOMEN AGITATES UNITED CHURCH PRESBYTERY

MONTREAL, Feb. 26. — (Canadian Press).—Shall the United Church of Canada make ecclesiastical history by admitting women to the ordained ministry of the United Church, is the question now agitating every Presbytery of the United Church, it is pointed out by Dr. D. L. Ritchie, Dean of the United Theological College, Montreal; President of the Conference of Montreal and Ottawa, and chairman of the Presbytery of Montreal, United Church of Canada, in an interview with the Montreal Daily Star.

The question was debated at the biennial meeting of the council of the United Church of Canada here last June when a resolution was carried to the effect that the matter should be sent out to all the Presbyteries of the United Church in the Dominion, for decision, and that all should report their findings at the next biennial council of the Church to be in Winnipeg in June, 1928.

The Star with the interview printed the views of some leading United Church ministers here.

Dr. E. Leslie Pidgeon, who was responsible at the General Council meeting last June for postponing the adoption of the amendment to the constitution of the United Church which sought to open the door to permit the entry of women into the ministry said: "I still think that the entry of women into the ministry wouldn't strengthen the church."

**POSSESS GIFTS**

Rev. Dr. J. W. G. Ward of Emmanuel Church knew of no reason why women possessed of the gifts and qualifications necessary to preachers of the Gospel should be debarred from the ministry. "Women ought never to have been excluded from the ministry," Dr. George Laughton, of St. James Church, said. "God gives his church pastors, evangelists, teachers, apostles and prophets. Women have excelled in all these lines, especially as evangelists, teachers and prophets," Rev. Dr. J. R. Dibson stated. Geographical and economic conditions prevailing in Canada, not always considered when discussing the question of women entering the ministry, were mentioned by the Rev. Dr. C. A. McIntosh, pastor of the Dominion-Douglas United Church.

While conditions were as at present, Dr. McIntosh said again, he thought it would be unwise to admit them to the ministry. Rev. W. J. Johnston, pastor of the Centenary United Church, saw no reason why they should not be admitted. "I am in favor of women entering the ministry," he said. Rev. Dr. S. P. Rose, professor at the United Theological College of Montreal thought that a lot depended on the individual woman herself. "I am quite in favor of it because I think it would be only the exceptional women who would want to enter the ministry," he said.

**UNANIMOUS DECISION**

At Toronto an intercollegiate debate resulted in the unanimous decision that women were not eligible for the ordained ministry of the United Church of Canada. The debate was participated in by students from the United Theological College here, who spoke for the women, and a student from Knox and Victoria Colleges, Toronto, who were for barring women from the ministry.

# MIXING WHEAT HURTS QUALITY

SERIOUSNESS OF MATTER BROUGHT BEFORE OTTAWA COMMITTEE—WOULD AMEND ACT

OTTAWA, Feb. 26.—The introduction of new and unproved varieties of wheat in Western Canada is becoming a menace to the whole standard of the Canadian crop abroad according to representations made before the agricultural committee of the House of Commons. As a result of these representations, the committee will recommend to the minister of agriculture that the Seed Act be amended to prevent thelicensing of any new varieties of wheat known to be of poor quality.

Major M. G. Strange, Fenn, Alberta, president of the Canadian Seed Growers Association, testified that, owing to the mixing of varieties, the standard of Canadian wheat on the Liverpool market had been steadily decreasing until this year when it was below that of wheat grown in Oregon. The reason for this, he stated, was that the producers of Marquis wheat were not really delivering Marquis but it became mixed in transit with that of single farmers producing new varieties.

Hon. W. R. Motherwell, minister of agriculture, promised that the committee's suggestions would be studied and any suggested remedy would receive his support.

# The Call of The North

Taste Nile water, and you will return! But without visiting Egypt, this saying surely may be applied to the northern country and to the turbulent waters of the Skeena.

Anyway, those who have once lived in the north have always the desire to return.

The wanderer comes back to Prince Rupert and he has a gratifying experience. He sees the city so much improved and notes the old spirit of optimism and progress.

He appreciates the atmosphere of goodwill, the many kindly smiles of greeting, the hearty grasp of a hand and the kindly interest that welcomes him home.

The evident air of the city's prosperity puts him on his mettle and he feels it up to him to show his appreciation.
