NEGLECT is doubtless the cause of most of the ills that afflict humanity. This is so self evident that it seems hardly necessary to tell you. If your eyes are giving trouble, have them attended to—and at once.

OF ALL absurdities in the of foolishness, surely the loss of eyesight through neglect is the most inexcusable.

DON'T lose health and efficiency through neglect. Come and see!

Now Offering Its First Issue of 100,000 Shares At 25c Per Share For Immediate Development

Residents of the district should not overlook this splendid opportunity-they are given first chance to participate in this share issue. With the stragetic position of these properties right in the heart of the new Richfield camp, and with excelleat showings of good ore, there is every reason to believe that shares will increase to many times their present value in the next few months. NOT MORE THAN 100,000 shares will be taken from the

treasury on this issue, and

Every Dollar Is For Development Work

Local men are behind this undertaking-local spirit is behind it-Frank H. Taylor, the original discoverer of Richfield, is behind it and is in charge of development. The public is assured of this: That good mining practice and honest business methods will be carried out in the expenditure of every dollar raised. These local officers are now endeavoring to finance this Company locally to avoid the usual heavy commissions on sale of stock.
