

PAINKILLER

PERRY DAVIS

FOR
Sprains — Strains — Bruises

For Sprains and Strains, rub with Painkiller every two hours until pain subsides. Keep injured part at rest. Then wrap bandage soaked in Painkiller around affected part; cover with dry cloth. Renew twice daily until well. For Bruises, raise bruised part if possible. Apply first, cloths wrung out in ice-cold water; change often to keep cold. Then wrap with bandage soaked in Painkiller.

SITUATION IN CHINA.

That the situation at Shanghai is critical goes without saying. If it is true that the safety of the international settlement now depends primarily on the foreign forces there, it is also true that the safety of the Chinese citizenry will be best assured if the Cantoneses are prompt in capturing the city.

It is believed the foreign troops now in Shanghai are adequate to preserve order in the foreign section but if not there are thousands more approaching on ships a few days distant from the city. Moreover, the Chinese living within the foreign concessions are strongly on the side of peace between the native factions and between China and the outside world. But the foreign troops, including those China-bound, could not hope to maintain peace within the huge native city, nor halt the advance of the nationalist army.

Whether the situation will result in disaster or merely acute tension and minor "incidents" will in large part depend on whether nationalists and foreigners agree to co-operate in the preservation of life and property. The gravest danger is from mutual hatred developed by the intolerable arrogance of the settlement and the arrogant intolerance of the nationalist extremists.

CANADA'S TREMENDOUS PER CAPITA PRODUCTION.

During the past two years, Canadian agriculture, mining, fishing, manufacture and transportation have been experiencing a fundamental prosperity which indicates an insistent world demand for the varied products of Canadian industries, says the Royal Bank of Canada's monthly letter. That a country with a population of less than ten million people should have exported \$1,271,000,000 worth of goods in 1925, and \$1,269,000,000 worth in 1926, implies a tremendous productivity per capita. Canada is now the leader in the production of newsprint, asbestos, nickel, cobalt, and salmon, and furnishes the world's largest exportable wheat supplies. Since Canada also stands second in the per capita number of telephones in use and in the production of automobiles and lumber; third in gold and silver production; seventh in steel production and tenth in that of coal, it is evident that the prevailing prosperity is dependent upon a healthy condition in many industries rather than upon a temporary expansion in some single line.

This rapid development of the natural resources of the country is attracting widespread investment interest and has resulted in the investment of about five and one-half billion dollars from foreign sources. Of this amount, about three billion has come from the United States and two billion from Great Britain. The major items of British investment have been public securities, railway, mortgage, banking and insurance securities, while a large proportion of money from the United States has been invested in mining, forestry and manufacturing. One result of this conservative policy on the part of the British investor has been that he has received a much lower return on his investment than that which has accrued to the investor from the United States, who has been more directly interested in primary production.

In 1925, the products of Canadian mines had a value of two hundred and twenty-five million dollars; in 1926, the value aggregated two hundred and forty-two million dollars—a new record. Besides the important minerals mentioned above, there are also important mines of zinc, talc, feldspar, mica and graphite. Perhaps the most important developments of the past year have been the exploration of twenty oil fields in the West, resulting in the location of a number of large producing wells in Alberta; the discovery of promising deposits of gold in the Red Lake area, and of gold, zinc and copper in the Rouyn area. The construction of a smelter is now under way at Rouyn, and this year, tin and antimony are being refined at Trail. In his annual speech, Sir Herbert Holt, president of The Royal Bank of Canada, said "Although the mineral industry is third in importance in Canada, the greater part of our land area is as yet unprospected and only sufficiently explored as to indicate in a general way its main geological features and prospective mineral wealth. With technical prospecting reaching further and further afield, and utilizing the latest scientific apparatus (in the way of aeroplanes for transportation and electrical methods for prospecting), I feel that the development of the mining industry will be the outstanding feature of the next decade."

Annual Report of District Forester Tells of Timber Industry in This Vicinity

The year 1926 was normal in the Prince Rupert District, says the annual report of R. E. Allen, district forester. A slight advance was shown in saw log scale which was offset by a decrease in the minor forest products, poles and ties, giving a total scale of approximately the same as in 1925.

The Pacific Mills plant at Ocean Falls was the only pulp and paper mill operative. The Swanson Bay (Whalen Pulp and Paper Mills) has not yet been re-opened under the new management and is rapidly deteriorating. There is much talk of the entire dismantling of this plant and rebuilding on a modern scale.

The logging and milling industries throughout the district have suffered from lack of profitable market during the past year. This applies more especially to the lumber industry. There are 20 mills located in the district, of which 13 were operative and 7 were closed all year. There were also 13 portable and semi-portable mills operating spasmodically.

HOW MILLS OPERATED
The Prince Rupert Spruce Mills' large mill at Prince Rupert was destroyed by fire in November 1925, and as yet, has not been rebuilt. The site has been cleared for what is said to be a new mill to be constructed this year by the owners of the Big Bay Lumber Company, which new mill may gradually take over the production of their present mill at Georgetown.

PRODUCTION TABLES

Sawlogs, F.B.M.	138,489.615
Poles and piling, lineal feet	1,946,135
Hewn Ties (pieces)	544,823

Total estimated revenue from timber sales	\$220,500.

DEAF SINCE HE WAS CHILD; HEARS

SECRETARY OF LETHBRIDGE SCHOOL BOARD UNABLE TO ACCOUNT FOR "MIRACLE"

LETHBRIDGE, March 9. — Partially deaf since childhood, and greatly handicapped in his work, H. Fleetwood, secretary treasurer of the public school board of this city, has regained his hearing.

Mr. Fleetwood is unable to account for the "miracle" as he characterized it. As a matter of fact, he admitted, he is not seriously trying to discover the cause, for he is too elated in having recovered his auditory powers and is trying to "catch up" with those things of which he has been deprived in the past as a result of his disability.

He can now listen to ordinary conversation, without asking the speaker to shout into an ear phone. It came about very suddenly, according to Mr. Fleetwood. He was walking along with his wife when suddenly he felt an acute irritation in his ears. These sensations came spasmodically and finally the member cleared up and he heard everything going on about him. Medical men are unable to explain the sudden change.

Ten Years Ago in Prince Rupert

MARCH 10, 1917

Mrs. McIntosh, mother of Mrs. W. D. Vance, who has been visiting in the city, has returned to her home in Edmonton.

A. R. Neale has resigned as assistant horticulturist to the department of agriculture and will be leaving Prince Rupert shortly.

A society named the Serbian National Defence League of Prince Rupert has been organized.

M. Albert has returned to Vancouver from Yokohama, having found it impossible to enter Russia at present.

There was a shortage of fish cars yesterday and four boats cleared for Seattle.

Being unable to dispose of 50 tons of herring which he brought to the city yesterday, Alex Smith was obliged to dump them into the harbor.

Bert Pearce, a well known local boy, who saw service in France, returned

for Nervous Headache

DR. CHASE'S NERVE FOOD

Never did a Cup of Coffee taste as good as this...

Such a remark is a tribute to any hostess—but it is deserved when coffee is served with Eagle Brand Condensed Milk instead of cream and sugar.

Eagle Brand improves the finest cup of coffee, gives it a richer "body," a delicious mellow flavour, a tempting golden color. Eagle Brand is pure creamy milk, thoroughly blended with granulated sugar. It is not only more satisfactory in coffee than ordinary cream, or top-milk, and sugar, but more economical, as well. It keeps perfectly in the open tin until used. Your grocer can supply you.

An Eagle Brand Recipe Cocoanut Macaroons

Melt 2 squares of chocolate and mix well with 1 can of Borden's Eagle Brand Condensed Milk. Add slightly over 1/2 pound desiccated cocoanut, mix thoroughly and add 1 teaspoonful vanilla. Drop on greased pan 1 teaspoonful at a time, about an inch apart. Bake in a moderate oven until nicely browned. This makes 20 macaroons. Omit chocolate for plain macaroons.

Send for Free Recipe Book

Scores of dainty, appetizing dishes which call for milk and sugar can be made better if Eagle Brand is used.

Write Dept. E. The Borden Co. Limited, Vancouver for free copy of Eagle Brand Recipe Book.

NAVIGABLE WATER PROTECTION ACT.

R.S.C. CHAPTER 115.
MASSETT CANNERS LIMITED hereby give notice that it has, under Section Seven of said Act, deposited with the Minister of Public Works at Ottawa, and at the office of the District Registrar of the Land Registry District of Prince Rupert, at Prince Rupert, B.C., a description of the site and plans of the wharf and pier proposed to be built on the Massett Indian Reserve, Number One, on Graham Island, Province of British Columbia.

AND take notice that after the expiration of one month from date of the first publication of this notice, Masett Cannery Limited will, under Section Seven of said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of site and plans, and for leave to construct said wharf and pier.

DATED at Prince Rupert this 26th day of February, 1927.

MASSETT CANNERS, LIMITED.
By its Solicitors,
Williams, Manson & Gonzales.

LAND ACT

Under and by virtue of the provisions of Section 28 of the "Mineral Act," notice is hereby given Messrs. Malcolm Smyth, Edmund Langis, Harold Hansen and Albert Moore, that there is owing to the undersigned for Assessment Work performed on the Cordillera Group of Mineral Claims, Princess Royal Island, Skeena Mining Division, the sum of \$393.88, and that unless said persons pay their proportionate share of the cost of such Assessment, together with all costs of advertising, etc., to the undersigned, on or before May 12, 1927, application will be made to the Gold Commissioner, Prince Rupert, B.C., to have their respective interests in the herein mentioned Mining Group of Mineral Claims vested in the undersigned.

DAVID CORDILLA,
JACOB KOSKI.

LAND ACT

NOTICE OF INTENTION TO APPLY TO PURCHASE LAND

In Prince Rupert Land Recording District, and situate at Huston Inlet, Queen Charlotte Islands.

TAKE NOTICE that Robert M. Currie, of Vancouver, B.C., occupation fish packer, intends to apply for a lease of the following described land:— Commencing at a post planted at northeast corner about 1,000 feet westerly from miners' cabins at head of Huston Inlet; thence westerly 20 chains; thence southerly about 12 chains; thence easterly 20 chains; thence northerly about 12 chains, and containing 24 acres, more or less.

ROBERT M. CURRIE,
Applicant.

LAND ACT

Skeena Land District, District of Queen Charlotte Islands.
