FORM THE THINK HABIT.

Fear of making mistakes has made failures of as many men as mistakes have made successes. Failures are awed into retrogression by the same possibilities-of-mistakes challenged by the succes- with the permanent officers. ses among men.

A popular adage is "The man who never made a mistake never CANADIAN LEGION made a dollar," but a truer statement of fact might be "The man who never made a mistake has not yet lived."

Conceding that all men make mistakes, it is manifest that only the same mistake repeated is unpardonable and the habit, not the individual mistake, is costly. Somebody pays everytime somebody blunders and the only way to correct the habit of blundering is to form the habit of doing things right. Form the habit of being care- of the Canadian Legion and their ful and take pains today that you may spare yourself incalculable Women's Auxiliary were at home to the pain tomorrow. Many are blundering on to success by making the members of the other local fraternal most of their blunders.

Here is a subject demanding serious consideration. If the time comes when the vast majority of women must enter the factories, stores and offices to help maintain homes and support children the inevitable outcome will be fewer homes and children. To permit such a condition would mean race suicide.

And, in the final analysis, the fact must not be lost sight of that economic laws work both ways. Large families are now forcing mothers into gainful occupations. With large numbers of women ment, Smithers, was a business visitor thus engaged, the birth rate must fall. The receding birth rate and here during the week. children reaching the self-supportage age will release more mothers and wives from outside employment, with the result that the birth rate will again climb. From here the process will begin all over again.

WHAT WE NEED IN PRINCE RUPERT.

There are many things we need in Prince Rupert, but a few are

vital and outstanding above all others.

We need stability-the will power to determine what is right and a determination to see that only that which is right prevails. We need a spirit of unanimity—the ability and willingness to agree upon what we want and then go after it and get it.

We need aggressiveness-for without aggressiveness, indolence and stagnation will be our lot.

We need loyalty-for without loyalty we will be enriching commercial interests at distant points and impoverishing our people;

Some cummunities thrive and grow because of their natural advantages. Others are made only through the dogged energy and perseverance of their citizenship.

Ours will be what we make it, and we should make it all that reached such heights! we can.
