covered with grass and flowers, growing on old guano deposits. On the lower parts of these islands are large colonies of sea lions, numbering roughtly about 3.000. The bulls weigh, apparently, from 1,000 to 2,000 pounds, the cows being about one-third to one-half as large; and there are pups in thousands, ranging from about 18 inches to 4 feet in length. Sea lions are one of the curses of the halibut fishermen, who greatly changed by a few minutes' conversation with any halibut fisherman who has worked in this vicinity. Not even the excuse of tourist at-

traction can be offered in favor of the sea lions at Cape. S.t James, as halibut boats, light-house tenders and whalers are the only vessels plying these waters. Therefore, why these creatures should be allowed to flourish at the expense of an economically valuable fish is more than the fishermen can under-

The Canadian government has done some work, through trips made by the Coast Guard steamer "Givenchy" to Virgin Islands, etc., to reduce the numbers of sea lions; but the fishermen justly urge that the colonies at Cape St. James should also be cleaned up realizes, that sea lions are a menace Paul Armour in command, left on to the fisheries, as the California Fish Thursday morning for Kitkatla, reand Game Commission has delegated turning on Friday morning.
