SERVICE BETWEEN CANADA AND WEST INDIES UNDER TRADE AGREEMENT

required to give the special service be-

ships will be built, and that tenders will be called for immediately for their con struction. Three, it is understood, will be constructed in Canada and two in Shanghai Volunteer Corps, comprising the United Kingdom. The approximate cost of each vessel is estimated, roughly, at \$500,000. These salps will not be ready for service until some time in 1923. The agreement provides for a p fortnightly passenger and freight service the post office, tramways, busses, water- throughout the year from Canadian ports works and seamen answering immediate- to ports in the eastern group of islands and an adequate service, details of which have already been published, to

The vessels engaged in the principal service will be of five or six thousand tons gross. They are to be specially designed for the West Indies service, and **** must be equipped with modern refrigeration plants for the requirements of the extensive fruit trade which is expected to develop. It is believed this refrigeration equipment will come from Britain. The new vessels will be capable of fourteen knots an hour.
