PULP AND PAPER MILL AT KITIMAT.

Proper advantage being taken thereof, a pulp and paper mill at Kitimat, on such a scale as announced yesterday, may be of inestimable benefit to Prince Rupert. It is the next best thing to having Old Sport mines. The Britannia Min- cross-cut from drift 432, National Silver the enterprise right in the city.

Prince Rupert is the administrative centre for Kitimat and ined the Sunloch. Whether that means of \$20 ore, and another of five feet might well be its business centre. Whether it is or not will depend an arrangement with Britannia for wide of \$10 ore. The management now much on the business people of the city. If they will not or cannot mining; and with Consolidated Mining recognizes the possibility of developavail themselves of the opportunity, the Kitimat paper mill will be tributary to Vancouver just as are many industrial plants even closer to the city than Kitimat.

Kitimat is ninety miles from Prince Rupert and four hundred trolytic copper refinery on the Coast A Vancouver man has obtained judgmiles from Vancouver. If the plant gets an even show in Prince for the treatment of blister copper of ment against Daly-Alaska for moneye Rupert it will naturally do its business here. If not it will go to the Granby, Britannia, and its own he contended to be a loan, whereas the Vancouver.

The old tale that these industrial concerns do their business in Vancouver because they want to help that city is a fallacy. Such sentiments do not weigh anything in the commercial world. They deal in Vancouver because the best price and best service is given of about 100 feet. This tunnel is being for the manner in which he kept the there. If Prince Rupert gave the best prices and the best service they would deal here.

It can no longer be said that there is not enough market value of between \$18 and \$19 a ton. tributary to Prince Rupert to support large businesses here. There The ore closely resembles that of the are indeed enough industries in the district. What is wanted now is Dunwell. the business establishments here but it cannot be expected that Van- The Silverado Mine, on the mountain couver concerns, having large investments and holdings in Vancou- immediately east of Stewart, is to be ver, are going to open up here if they can continue, as they are doing reopened. New machinery has been now, to do the business just as well from there.

There seems to be no reason why the Kitimat paper mill and other industries already established near here should not be of more than indirect benefit to the city.

WHAT NEWSPAPER ADS. DID.

It was only a few years ago that the retail stores in towns and the smaller cities did the bulk of their week's business on Sat- Porter-Idaho has been working urday. While the other five business days might have paid expenses winter. There are still isolated towns where one may sec for himself what "might have been" the nation over if newspaper advertising had never been.

A TRIP INTO THE COUNTRY.

A jaunt into the country at this season will do any one good. What is more restful to exe-weary city dwellers than to gaze out practically all available ground west road. upon the rural scenes?

There are the cows standing in the flowing brook, if they are not eating the tender grass. The leaves are covering the trees with their pretty foliage. The ground is fairly teeming with life. Everywhere one turns a scene that is good for the soul meets one's gaze; feet, from which it is expected enough to enter Russia. everywhere one turns a scene is pictured that is good for "sore eyes"-the eyes that are tired and are seeking rest and need just such a change.

Try a trip to the country in the springtime!

No Mining District Has Made Better Progress Than Stewart Says Journal Reviewing Events

No mining camp in British Columbia continues to show greater progress than Portland Canal, says the Mining and Industrial Record. Recent months have witnessed new ore developments, and a decided change for the better is coming over the scene. The event of the month was the starting up of the Dunwell mill. This went into commission on February 27. It was built at a cost of about
