FORMER LOCAL SOLDIER DIES

Wilhelm Isadore Thams, Late of Prince Rupert, Succumbs in Military Hospital at Vancouver

Wilhelm Isadore Thams, a former resident of Prince Rupert and Usk, died at Shaughnessy Military Hospital, Vancouver, last Thursday, from the effects of wounds sustained during the Great War in which he served with the 197th Battalion. It was two or three years ago that deceased went south to receive treatment at the military hospital. He was at one time janitor in the Daily News office as well as for the Metropole Building.

The late Mr. Thams was fifty-seven years of age and served as a private in the War. Besides his widow, he is survived by three sons—John Watson Thams of South Africa, William Isadore Thams of Edinburgh, Scotland, and Johnston Lockhart Thams of Vancouver.

The funeral took place this afternoon from the chapel of the Independent Undertakers in Vancouver, Rev. Dr. MacLaren officiating.

Try Pacific Milk

Now and again letters come from patrons who use Pacific Milk. These letters touch on every phase of its value but the pleasing fact, if we may mention our own point of view, so many continued after the first purchase. This is a tribute to the milk—to richness, purity, freshness and flavor.

223 Sixth Street

Was Subject to BRONCHITIS Every Winter

Mrs. Wm. Healey, 524 Hill Street, London, Ont., writes:—"My daughter, aged fourteen, was subject to bronchitis every winter.

"She would cough until she was sore from the exertion.

"Last winter a friend advised me to get a bottle of your

Dr. Wood's Norway Pine Syrup

so I got a small bottle to try and was delighted to find that before she had taken half of it her cough was completely relieved.

"I certainly feel justified in recommending it to those suffering from coughs and colds."

Price 35c. a bottle, large family size 60c.; put up only by The T. Milburn Co., Limited, Toronto, Ont.

JAZZ FOODS CONDEMNED

Warns Council of Women Against Weakening the Body

EDMONTON, Dec. 12. — What Dr. Ghoslley of this city calls "Jazz Food" was denounced by him when addressing the Local Council of Women. He said that it is a common practice for girls lunching down town to satisfy their appetities with pastry, ice cream and such food. "It weakens the body and leads to a desire for whiskey and for the "jazz life." People must learn to use simple, more natural foods. Sugar is the gasoline of the body. It produces nervous force, but does not build up the body. Girls who indulge in "jazz foods" become subject to tuberculosis, inebriacy and nervous trouble.

He quoted an Austrian doctor to the effect that smoking among the women of Europe had become such a problem in the deterioration of the Europetn races that, unless the country can take steps to put a stop to it, it will be the greatest factor in race suicide. The use of tobacco, he pointed out, produced sterility.

Indulgence in liquor was also decried. In this connection Dr. Ghostley referred in a general way to the results as he had observed them. He felt satisfied that the use of liquor by girls and women was largely due to the influence of men. He had been told by girls that if they did not drink the liquor brought in flasks by their escorts, they spoiled the party. It is startling how much drinking is going on among girls, he said. These things lead up to other problems pertaining to morals and the public health, which are not being handled satisfactorily. Very little effort is being made to cope with particular problems.

URGES TEACHING OF ASTRONOMY IN SCHOOLS

OTTAWA, Dec. 12.—In an illustrated lecture by Dr. H. M. Ami, president of the Ottawa Centre Royal Astronomical Society of Canada here recently, teaching of astronomy in schools was advocated. Dr. Ami pointed to the need of the younger generation acquiring a knowledge of astronomy.

Dr. Ami lectured on the total eclipse of the sun as witnessed by him in England last June. He asserted astronomy went hand in hand with industry, and for that reason young Canadians should have a sound foundation for their work in later years.

Dr. Ami said some inducement should be extended to Canadian esclentists so they would not need to seek more remunerative positions abroad.

COLOR OF SNOW IS UP FOR DISCUSSION

TORONTO, Dec. 12.—"Snow is not white: it is pink and blue and red and yellow." So said C. W. Jeffreys, the Canadian artist, in a talk given to the Toronto Women's Press Club. He said that Canada's art has developed from the stage of self-consciousness and affectation to a more really interpretive and creative side. Art must spring out of the expression of the life of the country and must show individuality. It was near-artists and near-critics who killed art. There was beginning to be real self-expression in Canada.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

To the end of December, 1926.

Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,5577; Coal and Coke, $284,599,133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1926 show an

AGGREGATE VALUE OF $988,108,470.

PRODUCTION FOR YEAR ENDING DECEMBER, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HONORABLE THE MINISTER OF MINES.
VICTORIA, BRITISH COLUMBIA.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering of the Six Mineral Survey Districts are published separately, and are available on application.
