THAT IS OUTPUT OF CAMP AT ALICE ARM WHICH WILL COMPLETE WORK SOON

Logging operations that have been carried on during the past few years on the Kitsault flats have played no small part in keeping Alice Arm on the map says the Alice Arm Herald. The logging of the flats commenced at a time when the camp was passing through a quiet period of the mining industry and will be completed this summer. but the mining industry is expanding by leaps and bounds, and although the logging will be missed the loss will be offset by increased mining activities.

The camp conducted by F. L. Housley is the last one to be operated. Mr. Housley commenced operations in Aug 1926. He took over the camp after others had made a failure, and has operated it successfully since that date

obtain complete relief and restore the natural beauty of the skin.

Mrs. Campbell writes:-"A patient under my care was so severely afflicted with eczema on her face

that the doctors considered it incurable and could do nothing for it. I decided to try Dr. Chase's Ointment and never found anything like it for the first application stopped the itching. By continuing the use of the Ointment, the eczema was entirely removed and the complexion greatly improved. No one would ever know that my patient had previously been so disfigured by this annoying and torturing ailment."
Dr. Chase's Ointment is the

recognized standard treatment for eczema. It should never be confused with ordinary salves for it is a medicinal ointment of proven merit and effectiveness. 60 cents a box, all dealers, or The Dr. A. W. Chase Medicine Co., Limited, Toronto.
