Ferguson Property in Ingenika is Looking Good — Considerable Activity Around Usk—George Copper Reaches Interesting Stage

Development on the Ferguson group on the Ingenika River is giving excellent results, the ore being approximately similar in grade to that of the Sullivan mine. The outcrop occurs on a knoll and a tunnel is being driven to give depth of approximately 400 feet below this. It is now in ore which carries silver, lead and zinc. Work at points east and south has been started and has established a mineralized area of very considerable extent. At a later date a tunnel will probably be driven from about the level of the river which will give a total depth of 750 feet. Ridgeway R. Wilson is in charge of operations.

Considerable activity around Usk continues. The Toulin mine, an old property near that point, has been re-opened by John Willman who is also directing operations on the Columario mine, five miles from Usk, where ten men are now employed and where compressor and other equipment were recently installed. Five men are working on the Chindemash Creek claims, twelve miles from Usk.

If preparatory work goes ahead at its recent rate, the Saddle group on Hastings Arm, controlled by the Silver Crest Mining Co., should commence shipments next month. The tram line is now half completed and work is being rushed to finish it. The crew is drifting in on the vein and is encountering ore all the way. The ore bins are already in place and the engineers in charge are confident of completing shipping arrangements by September.

Molybdenum ore from the Tidewater Molybdenum property, down the inlet from Alice Arm, owned by G. W. Bruggy and William McFarlane, has for the fifth consecutive year carried off first prize at the Vancouver Exhibition. Experts have pronounced the Tidewater to be the richest molybdenum property in Canada. It is the intention of the owners to develop the property as soon as possible and, for the purpose, a company will probably be formed in the near future.

The George Copper property at Stewart is reaching an interesting stage which presages extensive development by the Consolidated Mining & Smelting Co. It is reported that the diamond drills which recently started work again have cut a fifty-foot body of copper ore of good value. Success at the George Copper would be a great boost for the Bear River valley generally.

Reports circulated that new high-grade ore has been located in the Premier mine are probably based on the breaking of new high-grade ore in the stopes as development work is carried on.

People in California are taking a greater interest in mining in British Columbia states Forrest L. MacDonald, president of the Utility Mining & Financing Co. of Alice Arm, who recently returned from a trip to San Francisco and other California cities. Those in the south are becoming more acquainted with the vast mineral riches of the north and the financing of meritorious companies is becoming much easier than it was formerly. The Utility Co. is at present developing the Tiger property at Alice Arm and is obtaining outstanding success.

FALL SCHEDULE TO START SOON

CANADIAN NATIONAL STEAMERS TO REVERT TO AUTUMN TIME TABLE EARLY NEXT MONTH

Early in September the summer service of Canadian National Coast Steamships will be discontinued and fall schedule will be reverted to. The last sailing from here for the south on summer schedule will probably be that of the steamer Prince George on Monday afternoon, September 10. After that date there will be two boats a week between here and Vancouver.

The steamer Prince Rupert, arriving from Vancouver, Powell River and Ocean Falls at 10.30 Wednesday morning, will sail at 10 o'clock that night for Stewart, returning here at 8 p.m. and sailing south at 11 p.m. Thursdays.

The steamer Prince George, arriving from the south at 10.30 a.m. Saturdays, will sail at 4 p.m. for Anyox and Ketchikan, return at 7 p.m. Sundays and sail south at 11 p.m.

The steamer Prince Charles will be here northbound on the final voyage of her present schedule on Monday, September 10, and, returning south to Vancouver, will assume a fortnightly service between Vancouver and Prince Rupert via all Queen Charlotte Islands, relieving the steamer Prince John.

MACKENZIE KING AT LEAGUE OF NATIONS

GENEVA, Aug. 31.—Premier Mackenzie King, who took his seat on the council of the League of Nations when it convened yesterday in the afternoon, attended the sittings of the minorities commission which is dealing with the protest of Belgian and Russian monasteries in Greece against appropriation.

ENGINE RUNNING

Little George, the garage mascot, was visiting his aunt. He found the cat in a sunny window purring cheerfully.

"O Auntie, come quick," said little George, "the cat has gone to sleep and left his engine running."

IN THE MATTER of an application for the issue of a Duplicate Certificate of Title for Lot nineteen hundred and eighty-three (1983), Range five (5), Coast District.

Satisfactory proof of the loss of the Certificate of Title covering the above lands having been produced to me, it is my intention to issue, after the expiration of one month from the first publication hereof, a Duplicate Certificate of Title to the above land in the name of Joel Pilisbury. The original Certificate of Title is dated the 7th September, 1910 and is numbered 309R.
