See This Diamond Ring $75.00

We have lately made a fortunate purchase from a diamond importer who offered a special inducement to clear out the balance of a package.

We are having the stones mounted up in white gold rings to sell at $75.00, and you will say they are beauties.

The stone has quite a large appearance for the money and is of good color. This would make a nice moderaate priced engagement ring, but we have others with larger stones at higher prices and some as low as $15.00.

SPORT CHAT

With the end of the season's basketball program now in sight and other winter schedules being well advanced in their second halves, thoughts will soon be turning once again to the outdoor sports of spring, summer and fall. The time may seem a little early yet but, nevertheless, those interested in baseball and football will soon be beginning to actively canvass the situation. Plans for a coming year always remind one of what has gone the season before and, in this regard, it is to be hoped that those in charge will learn from the mistakes of the past and build for better and more successful outdoor sport. Baseball thrived pretty well last season with but two teams in the Senior League but it is to be hoped that this year there will at least be three or four. To form such a league it will probably be necessary to call on some of those who in the past have played in Intermediate company and, at that, showed considerable promise. The three team football league last year had a good season of it and it is to be hoped that the coming summer may be as successful.

With the completion of the exhibition's new floor at the Hastings Park Arena, Vancouver is now possessed of one of the most up-to-date and largest basketball courts on the coast. Built at a cost of $1200, of first grade maple the new floor is the last word in basketball equipment. With the new court in place the Arena is capable of handling up to 7,000 persons to watch a game in progress.

It is the purpose of the exhibition association to foster basketball and make it a major sport in Vancouver according to J. K. Matheson, manager of the exhibition. It was with this object in vitw that the new floor was erected.

Mrs. Louis Legge and children have returned to Stewart from an extended visit south.

The Minto group of three claims, situated on the south side of the main Marmot River, has been bonded by Alex McInnis and Mrs. G. A. Fraser to Vancouver syndicate. The Minto is re-location of an old-time property which was at one time purchased by Bob Martin from the original locators, the late Dan Anderson and Dick Olson.

Three groups of mineral claims on the Alaskan side of the Salmon River valley have been bonded by a Winnipeg syndicate through Norman Tobias and E. W. L. George of that city who were visitors here last week. Included in the deal are the Border group of claims, owned by L. R. Doggett and Mrs. Helen Bell; the Alaska Virginia group, owned by J. A. Hall, Charles E. Pinsell and Mrs. Margaret Bunting, and the Crest group, owned by Arthur D. Moa, M. D. Ickis and Oren F. Hill. Terms of the deal are not revealed.

ALICE ARM

The South Atlin Teachers' Association has elected officers as follows: President, J. D. Hartley; vice-president, Cordyce Clark; secretary treasurer, Mr. Thorsteinsson.

The outlook for the mining industry in this district during the coming season is very bright. It is understood that several new properties will receive attention during the year. The Alice Arm Power & Mining Co. and the Esperanza are particularly looked to for results.

Indicating that shipments will be made during the coming season with a general expansion of operations, advices have been received from the south that the Silver Crest Mining Co. will instal an aerial tram line on the Saddle property on Hastings Arm early in the summer.

The launch Fisherman, with Lee Intermela in charge, is making weekly runs between Anyox and Alice Arm. Kergin & Fowler have the Awake off for the winter. The Fisherman will carry mails between here and the melter town.

Favorable comment is made by Dr. H. T. James, resident mining engineer, in his annual report, on the zinc ore showings on McGrath Mountain.
