LOWER TAXES FORESHADOWED

SPOKE AT VANCOUVER

SANE BUSINESSLIKE METHODS TO BE ADOPTED BY THE GOVERNMENT AS IN THE PAST

McGeer Urges Removal of Chief at Vancouver and Placing a New Man at Head to Reorganize Force

VANCOUVER, June 30.—Evidence adduced at the police inquiry warrants the immediate dismissal of Chief of Police H. W. Long, Detective Inspector John Jackson and Detective Sergeant George McLaughlin, and the complete reorganization of the force, in which the present police commission and Mayor Taylor should play no part, according to a summary of the argument of G. G. McGeer, K.C., counsel for Police Commissioner T. W. Fletcher at yesterday afternoon's session of the Vancouver police department probe.

McGeer, in a recently completed summary of his brief of argument, contended that reorganization of the force should be in the hands of a chief constable of the highest type, a man preferably with military and legal training. In the hands of such a chief, argued McGeer, could be left the question of which other men should be removed from the force.

The mayor said, declared McGeer, that there were traitors on the police force, but he did not place Jackson or McLaughlin in this category. Evidence also had been given by Ernest Leith, former constable, said McGeer, that McLaughlin had stated that he did not get the "big stuff" that Jackson and Taylor got that. If there was not sufficient evidence to warrant an indictment of conspirators, against these men, there was at least sufficient evidence to justify the commission in finding that none of these men should longer retain the public confidence.
