PUBLIC SCHOOL BOYS COMING HERE FRIDAY

REPRESENTATIVES OF ENGLAND'S GREAT EDUCATIONAL INSTITUTIONS FOR BOYS VISIT CANADA

JASPER, Aug 22—To get a glimpse at first hand of the size and possibilities of this particular portion of the new world, thirty-four young men, representing those strong holds of tradition, the public schools of England, arrived in Jasper this morning. They are travelling across Canada under the auspices of the School Empire Tour Committee composed of the governors and headmasters of the public schools of Britain and sponsored by Col. Emery, Secy. of State for the Dominions. In the group are boys from Eton, Harrow, Stowe, Winchester, Rugby, Marlborough Clifton, Eastbourne, City of Oxford, Kidderminister and Tunbridge. They are accompanied by the Rev. E. H. Rowley, E. C., master of Harrow, in charge of the tour, Lieut. D. A. H. Wynne, Rifle Brigade and Henry Studholme, who acts in the capacity of advance agent.

The party landed at Quebec from the White Star line "Calgaric," were shown the historic fortress of the city, and left immediately for Ottawa where they were received at Government House and visited the government experimental farm. The next stop was at Timmins, Ontario, where the mining activities took their attention and gripped the imagination of the travellers. The pulp and paper mill at Iroquois Falls were visited and then they proceeded to Saskatoon, visiting farms in the neighborhood. In Edmonton, Canadian methods of dairying and a visit to wheat elevators took up the morning. Tea at Government House in the afternoon and a dance in the evening completed a delightful day, during which the young Englishmen were entertained by private citizens and thus got an opportunity of seeing home life in this new country from the inside. They will be in camp at the Y.M.C.A. camp on Lake Edith in Jasper National Park for four days, the longest stop across the continent during which time they are "to do exactly as they please," according to Mr. Rowley, who stated that "the boys are here for no other reason than to see and hear all they can about this particular part of the empire in the short time at their disposal. Today we all go to see Mount Edith Cavell. Apart from that we are free to fish, ride, hike, dance, do as we will until we leave for Prince Rupert on Friday morning.

AWFUL BUZZER AT HOSPITAL

VISITING MEDICAL SPECIALIST COMMENDS WORK OF INSTITUTIONS BUT IS SEVERE ON NUISANCE

Criticism of the "awful buzzer" at the hospital was the subject of a letter, mostly very commendatory in its nature written to the Prince Rupert General Hospital by a patient, Dr. J. N. Gunn, M.R.C.S., England, a medical specialist of Calgary, which was read at the hospital board meeting last night and caused considerable merriment. The letter follows:

"I spent three days and three nights in your hospital. The doctors I met are above the average in ability. You are fortunate in having such men on your staff.

"The nursing cannot be improved on. From the matron down all are very considerate, well trained and efficient. I have received kindness on every side.

"The criminal who is responsible for the awful buzzer and its location in the hall should be crucified. Sleep on the floor is simply impossible."

The secretary was instructed to thank Dr. Gunn for his commendatory remarks and the matter of the buzzer was discussed with a view to amelioration of the condition.

CANOE UPSETS BOYS ARE LOST

TWO UNITED STATES TOURISTS ARE THOUGHT TO HAVE BEEN DROWNED IN INTERIOR LAKES

BURNS LAKE, Aug. 21—Reports received here point to the death of Craig C. Goldenburgh and John H. Hessel, two U. S. tourists from the State of New Jersey whose canoe was found upside-down at the head of Whitesail Lake by H. D. MacNeil and J. R. Stanyer, after they had been missing from their party for ten days. A slight possibility remains that the boys may have been able to swim to shore and are now existing on berries and a search party under the direction of Constable G. A. Johnson left Burns Lake for the scene of the disaster.

The party left here four in number, with David E. Harrower of Knowlton, Que., in charge, on July 25, with two canoes and a large quantity of provisions. The other three members were the above-mentioned and Sidney A. Hessl. They embarked on Ootsa Lake at Wistaraia, but finding the waters too rough for their canoes, phoned to the Circle Guides and were towed by Mr. McKinley to within a few miles of the head of Whitesail Lake.

The party then started relaying their supplies to the head of the lake where they intended to camp and the two canoes became separated. A violent squall came up and the canoe in which Sidney A. Hessel and D. E. Harrower were in took refuge on an island where the uncertain weather kept them marooned.

H. D. MacNeil and J. R. Stranyer who were starting on the circle trip determined to look up the party and went considerably out of their way to see how they fared and brought relief to the marooned men. A search was then made for the other members of the party and the other empty canoe was found floating around in a bay bottom side up. A search was made for the boys but no trace of them could then be found. Sixteen hours of fast work brought the rescuers and rescued back to civilization and the report was made to the local constable who is organizing the search party.

SO EASY NOW TO BANISH PERSPIRATION ODOUR

One never knows when one may offend. Perspiration odour is so elusive, so subtle.

To perspire is natural, even healthful . . . one to two pints daily say the doctors.

But perspiration need no longer be offensive. Simply change to Lifebuoy Soap for face, hands and bath.

Lifebuoy is all that a superior toilet soap should be—and more. It neutralizes perspiration. Costs no more.

NEW LAUNDRY IS DISCUSSED

HOSPITAL BOAD DECIDES TO SEND AWAY FOR PRICES ON WORK BEFORE TAKING ACTION

At the meeting of the hospital board last night, president Thompson in the chair, it was decided to write away to outside points to find out the cost of laundry work before deciding whether or not to put in their own laundry here. Last month the laundry bill, it was stated, was over four hundred dollars.

Prior to this the secretary had been instructed to write away to find out the cost of installing a laundry. Among the replies was one from Duncan, which was similar in requirements to Prince Rupert. It cost $3,400 to requipment and $1,500 for a biulding and the cost of operation was $250 a month.

"At Kamloops, a hospital double the size of the one in Prince Rupert, had a laundry costing $10,000 for plant and building and the cost of operation was $375 a month. Figures were also obtained from a good many other points.

Man in the Moon

Girls should hesitate to get married unless they are reasonably satisfied that they are able to support their husbands.

The other day I met a stock vendor who told his prospective client about a mining stock that was going down. I was just dreaming.

I met a man with a derby hat
And plus four pants so big
Then I met another with drooping moustache
And other outlandish rig.
And I prayed high heaven me to fend
From becoming a critical prig.

Talking about mining stock, I bought some once and I still have it. When I decide to paper my study with expired certificates I shall use them along with the oils and local companies.

I bought a little mining stock
And rich I thought myself,
But fate refused to back me up
By granting lots of pelf.
My mine a little prospect was;
It had no ore worth while;
So I shall try some other means
To make my final pile.

DON'T STOP NOW!

When You Have Run The First Lap It Is Not a Victory--Only a Step Forward

So evenly have honors been divided up to the present in The News' Great Automobile and Subscription Campaign that it depends almost entirely upon the individual efforts of each candidate during the remaining few weeks as to who will finish with "Flying Colors" and be acclaimed the winner of first honors and the two Big Motor Cars. If you halt now for a moment; if you weaken for a single day; or if you overlook one opportunity to better your chances to win, you are taking the desperate hazard of losing the big prizes which are now within your grasp and which really belong to you if you but hustle.

DISTRICT NO. 1

District No. 1 includes only those participants residing within the city limits of Prince Rupert. One of the prize cars and as many cash awards as there are active participants will be awarded to candidates living in this district.

THE RACE IS CLOSE

If there ever was a time candidates should make every minute count, it is now. The race is close. There is but litt'e difference between the leaders and anyone in the race can be a leader within a very fw days if he or she will just make the necessary effort. The difference is nothing, really. It is "do or die" in the next few days.

THE SECOND PERIOD

This "Second Period" gives time enough for anyone to make victory a certainty. Get started at once—today—keep going and finish the biggest, yet shortest campaign ever inaugurated in Northern British Columbia with a finish that will do you justice and make you prosperous and happy.

ANY CANDIDATE CAN WIN

Any candidate can win one of the mammoth prizes as close as the race now stands. Each individual's success or failure—gold and glory, congratulations and commendations of all Prince Rupert and surrounding territory, and two of the most serviceable motor cars made—everything depends upon what each candidate is able to accomplis in these next few days of the all important second period.

Candidates and subscribers attention is called to Rule Number Eight of campaign, the important part of which is printed below:

8—Votes are not transferrable. Candidates can not withdraw in favor of another candidate. Should a candidate withdraw from the race, his or her votes will be cancelled. Neither will it be permissible for candidates to give or transfer subscriptions to another candidate. Votes on such transferred subscriptions will be subject to disqualification.
