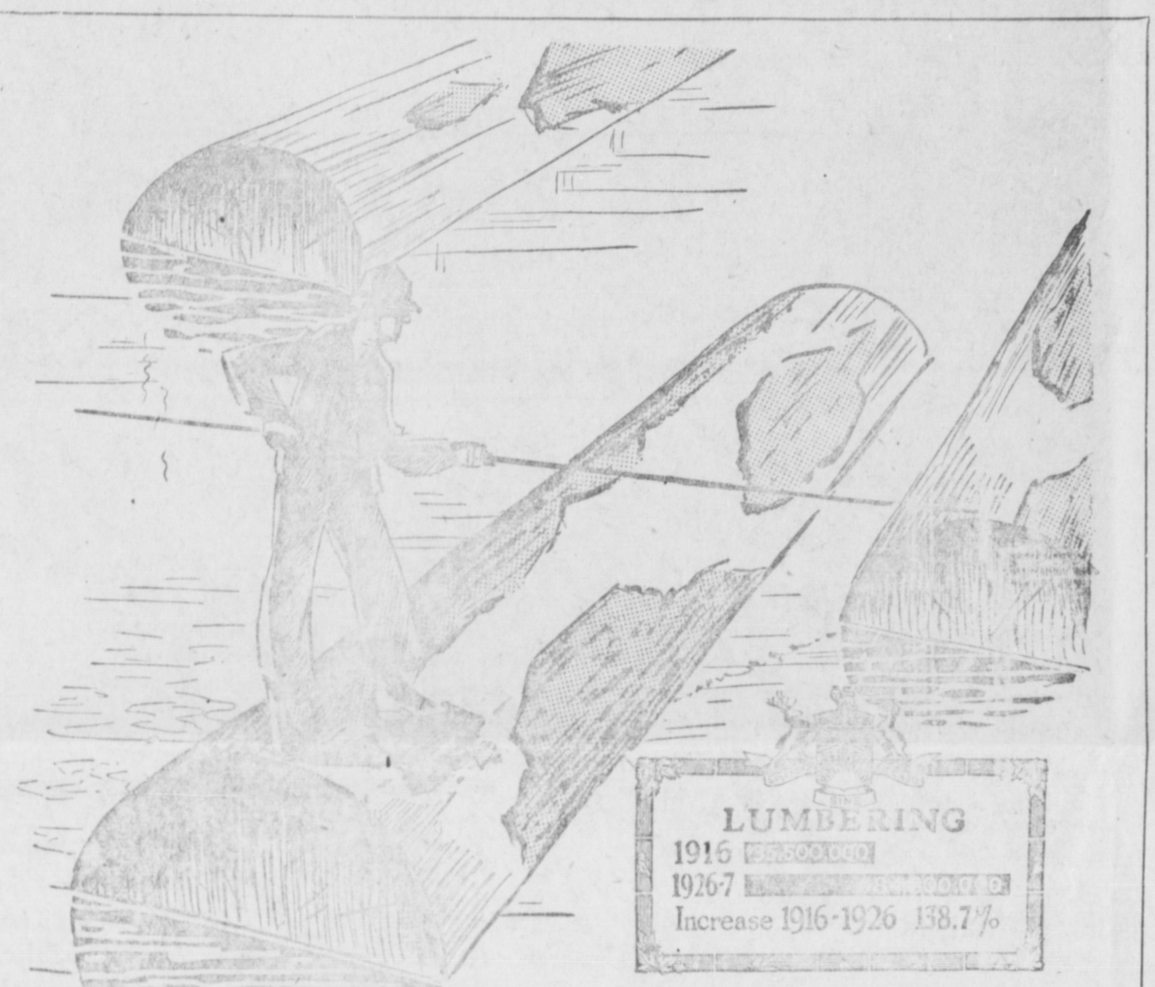
SUMMER SESSIONS OF SUNDAY SCHOOL WERE HELD IN A SWIMMING TANK: The Sunday school class of the Halsted Institutional Church in Chicago at church's swimming pool during summer sessions and the pupils were very happy and attentive in the cool surroundings.



Our leading Industry

WHEN 38c. of every dollar paid in industrial wages and salaries in British Columbia comes from lumbering, her ten-year production increase of 138.7 per cent. is vitally important to everyone.

Thirty per cent. of our Province's entire industrial production of 251 million dollars in 1926 was contributed by lumbering and its allied industries. British Columbia now ranks third in the Dominion in industrial importance, and forest products dominate.

Involved in British Columbia's lumbering industry is capital of more than 100 million dollars . . . 20,000 people are employed . . . 330 mills operated.

Without question this gigantic business is destined to continue at the same pace.

Climate, soil and drainage have produced our vast forests of soft woods . . . the greatest in the world! One-third of the British Empire's entire timber supply is in British Columbia. Today, the demand for soft woods is four times that of hard woods . . . and with the last great stand of soft woods located in our Province, continued progress and prosperity are certain.

Great as our timber stands are, our government realizes the necessity of safeguarding the future of this vast industry and is devoting much time, study and thought to the question of scientific reforestration, fire prevention and conservation.

Lumbering brought 84 million dollars to British Columbia in 1926 (the value of the cut that year), an increase of 49 million dollars over 1916. Every year more than 30 million dollars worth of supplies are purchased to enable this great industry to carry on.

Foreign markets have been sought . . . and captured. Water borne export of lumber has enjoyed exceptional growth. Ships laden with 2,616,419,000 feet board measure left our ports during 1922-1926 . . . an increase over the period of 1912-1916 equal to 984%. The log scale jumped 111% during the same period!

This activity represents real money in constant circulation. It keeps thousands of men busy . . . influences every phase of commercial life . . . builds markets for our farm products . . . spells "BRITISH COLUMBIA" the world over!

Add to this the sash and door factories, and pulp and paper production, which alone jumped from $15,450,000 in 1916 to $72,327,000 in 1926, and you have an idea of the enormous importance and far reaching influence which this, our chief provincial enterprise, is bound to exercise on the welfare and earnings of each and every citizen.

Read these announcements and understand your province's progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!
