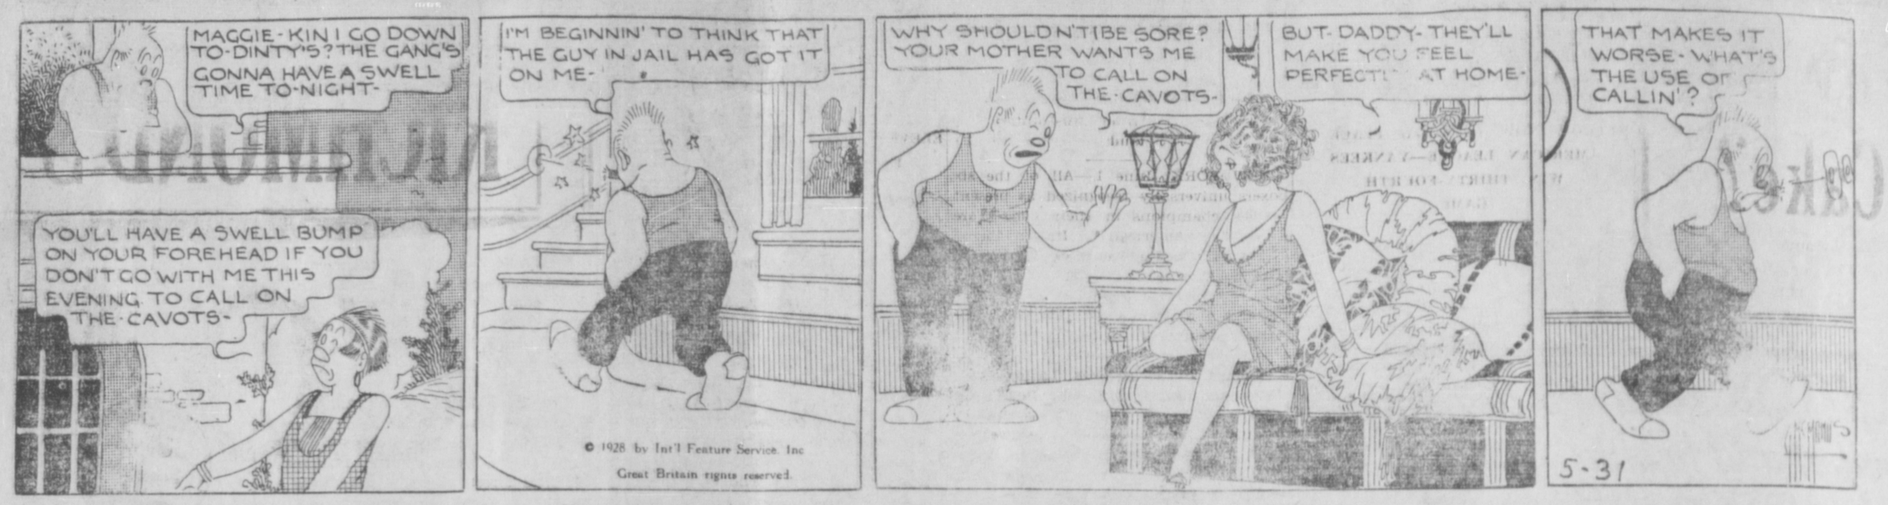
BRINGING UP FATHER

By George McManus



THE BRITISH ASSOCIATION

SCIENTISTS WILL GATHER IN GLASGOW, WHERE IMPORTANT SUBJECTS WILL BE DISCUSSED

LONDON, May 31.—The British Association for the Advancement of Science will meet in Glasgow from September 5 to September 12 under the presidency of Professor Sir William Bragg, director of the Royal Institution of Great Britain, who succeeds Sir Arthur Keith, Conservator of Museum and Hunterian Professor, Royal College of Surgeons, England. He will deliver the presidential address in St. Andrew's Hall, Charing Cross, on September 5, on modern developments of the physical sciences and their relation to material problems.

Among the addresses by sectional presidents will be one by Sir William Ellis, former Master Cutler of Sheffield, on the influence of engineering on civilization; by Sir John Reith, director general of the British Broadcasting Corporation, on wireless in the service of education; and by Sir George Macdonald, permanent secretary of the Scottish Education department on the the archaeology of Scitland.

Dr. Vaughan Cornish, geographer, Manchester, will address the conference of delegates of corresponding societies on the preservation of scenic beauty in town and country, and Dr. Cyril Norwood, head master of Harrow, will preside over the section of Educational Science.

The customary evening discourses to members will be given on September 7 and September 11, the first by Professor E. A. Westermarck, professor of Philosophy, Finland, on the study of popular sayings—this is the Frazer lecture on Social Anthropology due for delivery this year in Glasgow, and will be open to members, by courtesy of Glasgow University—and the second by Professor E. G. Donnan, of the University of London, on the mystery of life from the standpoint of physical chemistry.

A reception an ddance has been arranged for Thursday night by the Lord Provost and Corporation of Glasgow in the City Chambers, and a second reception will be given by the local committee in the Kelvingrove Art Galleries on Monday, September 10. One day will be devoted to excursions to places of scientific and industrial interest in the Glasgow area.

This will be the fifth time that the British Association meets in Glasgow. The first occasion was in 1840 and the last in 1901. Next year's meeting will be held in South Africa.

guage of the Kildane. She wanted to know what the telegraph wires were, and could not understand their use when it was explained. Indeed she does not understand much that she has seen, so wonderstruck is she. She was full of admiration for the hedges and trees, but thought the sheep grazing in the pastures were "very dirty" compared with the Kildan sheep.

Policemen in their uniform and white sleeves directing traffic at Blackpool caused her amusement, and the Tower was a source of wonderment. The South Shore fairground was passed and she interested herself in the Big Dipper. "I would not like to go on that," she said. The electric tramways—apparently without any method of traction—puzzled her.

Miss Gillies is trying her best to grasp the conditions which prevail in England. She is still to speak on a telephone and see a film.

TURTLE FARM AT BRONX ZOO

NEW YORK, N.Y., June 1.—Part of the Bronx Zoo has been turned into a turtle farm where it is hoped 109 young land tortoises brought from the Galapagos Islands will grow to such size and toughness of skin that they can be returned to their island home safe from the fangs of wild dogs and pigs.

The animals, which are valuable as meat, have almost become extinct on Galapagos because of the ravages of the dogs and pigs, descendants of animals left there by three centuries of pirates and whalers.

The crop now in the Bronx Zoo was collected from the South Pacific Islands by an expedition sent there by the New York Zoological Society. The turtles range in diameter from six inches to three feet and from two to one hundred pounds in weight.

INVESTIGATE B.C. OLD AGE PENSIONS

WINNIPEG, June 1.—The government of Manitoba proposes thoroughly to investigate methods of administration and operation of old age pension machinery set up in British Columbia before inaugurating the scheme in Manitoba.

Major C. K. Newcombe, chairman of the Manitoba Workmen's Compensation Board, has been sent to Vancouver and he may possibly visit some other provinces before he submits a report to the provincial government.

It is believed his report will have an important bearing on the date when pensions will become payable here. A recent canvass of the province reveals nearly 2,000 applicants for pensions.

WALTZ IS BECOMING ONCE AGAIN POPULAR

NEW YORK, June 1.—The popularity of the waltz is being revived in New York society. "A perfect waltz" was demonstrated by Margot Zolnay and Cesar Romero at the Regent Rainbow ball where dancers later competed for a prize in waltzing. The new waltz is executed to faster time than the old version, and one or two fox-trot steps are inserted to syncopated time.

MAY WEATHER NOT SO GOOD

RAINFALL MORE THAN DOUBLE THAT OF SAME MONTH LAST YEAR AND SUNSHINE NOT SO ABUNDANT

As most of people might have expected, rainfall during the month of May this year was greatly in excess of the quantity which was recorded in the same month last year. At the same time, hours of sunshine were considerably decreased while the temperature was slightly warmer this year.

During the past month, according to figures issued this morning by H. D. Tee, Digby Island, Dominion meteorologist, there was a bumper total rainfall of 8.62 inches as compared with 3.58 inches in May 1927. On each of three days of the past month over an inch of rain fell, the greatest precipitation in one day being 1.48 inches on May 4. Last May the greatest rainfall in one day was .62 of an inch.

There were 129.5 hours of sunshine during the past month as compared with 149.8 hours in May, 1927.

The highest temperature reading this May was 68 on May 13. The highest temperature reading in May 1927 stood at the same level. Minimum temperature this month was 35 on May 9, as compared with last May's 34. The mean temperature for the month just passed was 49.5 as compared with the mean of 48.2 in May 1927.

Following are the complete figures for the past month:

Total wind mileage, 3,863.

Average wind velocity, 28 miles per hour from the southeast on May 3.

Total rainfall, 8.62 inches.

Greatest daily rainfall, 1.48 on May 4.

Hours of sunshine, 129.5.

Maximum temperature, 68 on May 13.

Minimum temperature, 35 on May 9.

Mean temperature, 49.5.

Highest barometer reading at sea level, 30.47 on May 12.

Lowest barometer reading at sea level, 29.38 on May 28.

PILGRIM FATHERS SETTLED IN HOLLAND

BOSTON, June 1.—Rev. Ulysses S. Milburn of Everett says there are more descendants of the Pilgrim forefathers in Holland today than there are in America. He explains that his recent three months' research in England and Holland resulted in the discovery that more than thirty of the Pilgrims instead of coming to America after their 12 years' sojourn in Leyden became naturalized citizens of Holland and many daughters of the English exiles married Dutch citizens.

C.N.R. steamer Prince John, Capt. E. Mabbs, arrived in port at 10:30 last night from Vancouver via the Queen Charlotte Islands with passengers and freight. After discharging two hundred tons of coal for Albert & McCaffery, the vessel will sail direct for Vancouver where she will receive overhaul preparatory to going into summer service. The Prince Charles, Capt. Nell McLean, will take the Prince John's sailing to Vancouver via the Queen Charlotte Islands at 8 o'clock tomorrow evening.

TEA AND SALE BOOTH SCHOOL

EVENT UNDER AUSPICES OF PARENT-TEACHERS' ASSOCIATION YESTERDAY GREAT SUCCESS

The Parent-Teacher's Association was responsible for a most successful tea and sale of home cooking yesterday afternoon at the Booth School, the sum of $40 being raised towards the funds of the association.

For the tea Mrs. George Hill was convener, assisted by Mrs. Fred Cameron, Mrs. Mehaffey, Mrs. Cox and Mrs. Vierick.

Home cooking was in charge of Mrs. Dalby and Mrs. Tucker.

Ice cream—Mrs. Eastman, Mrs. Carlisle and Mrs. G. H. Arnott.

The cashier for the tea rooms was Mrs. Max Collison.

The rooms were artistically decorated with spring flowers and presented a very gay appearance.

LONDON ASTONISHES GIRL FROM ST. KILDA

Seventeen-Year-Old Girl Sees Her First Horse, Railway Train, Auto and Cinema

LONDON, May 30.—Miss Rachel Gillies, a 17-year-old dweller on St. Kilda, the lonely outpost of the British Islands in the North Atlantic, had until a few days ago never seen a railway train, an automobile, a horse, or a cinema. Then she came to Fleetwood with Mrs. McLeod, the missioner of the island, and was given a general tour of the district.

Miss Gillies does not speak English very well, as Gaelic is the natural lan-

Ten Years Ago in Prince Rupert

JUNE 1, 1928.

D. R. Kennedy of this city has been advised of the death in action of his brother, Staff Sergeant Charles B. Kennedy, M.M., who was a noted British Columbia athlete and who served in the war with distinction, having been mentioned in despatches while on service with the Forty-Seventh Battalion.

Constable William Adams, patrolling Fulton Street this morning arrested a Chinaman who carried a sack which turned out to contain seven bottles of liquor. A fine of $50.50 was imposed by Magistrate Carss in police court.

Eighteen constables of the Royal Northwest Mounted Police, who were found not physically fit for overseas service, were passengers aboard the Princess Sophia yesterday returning north to resume their duties in the Yukon.
