## NOTHING SUCCEEDS LIKE SUCCESS

Nothing succeeds like success. People like to be on the United States had a popula the winning side. They favor the man who is making tion of 15,000,000 that she starte good. In other words "To him that hath shall be given." on her great march forward. Mr

Unless there are circumstances in the case which and shortly afterwards he behave not appeared on the surface, Captain Pamphlet comes a producer. He is an asset should never have gone to jail. There are circumstances from the start," he said. when mercy is far, better than justice and even justice in this case would have been satisfied by giving prisoner a CLDAD warning.

Pamphlet was undoubtedly engaged in rum running but not at the time he was caught. A vessel was in distress and he went to the rescue and saved several lives. He did not need to have gone and would not have been caught if he had let the shipwrecked people die. It was London Magistrate Rules Hussurely a hard thing to send him to jail for such an offense, if it was an offense.

band's Silence Tantamount to Desertion

LONDON, Oct. 22.-The North her, is to be deemed guilty of granted the wife a separation order, and ordered the husband to pay here \$8:75 weekly. The wife is the owner of the house and of most of the furniture.

Mrs. Fanny Silver, of Rendlesham Road, Ciapton, had asked for a separation order from her husband, Barnett Silver, a costume manufacturer. She said that her husband had never called her by her Christian name, never taken her or the baby out, . never shown any signs of affection, and even refused his mother-in-law's invitation to quarrel with her (the wife) and thus "say something and not walk] about like a dummy in the house." He had absolutely withdrawn himself from her company and had all his meals in the house until last week without saying a

The husband generally admitted the facts and told the magistrate that it was all because of his mother-in-law, who "claimed she was the boss of the house.

The police magistrate said it

TATHEN 38c. of every dollar paid in industrial wages and salaries in British Columbia comes from lumbering, her ten-year production increase of 138.7 per cent. is vitally important to everyone.

Thirty per cent. of our Province's entire industrial production of 251 million dollars in 1926 was contributed by lumbering and its allied industries. British Columbia now ranks third in the Dominion in industrial importance, and forest products dominate.

Involved in British Columbia's lumbering industry is capital of more than 100 million dollars . . . 20,000 people are employed . . . 330 mills operated.

Without question this gigantic business is destined to continue at the same pace.

Climate, soil and drainage have produced our vast forests of soft woods . . . the greatest in the world! One-third of the British Empire's entire timber supply is in British Columbia. Today, the demand for soft woods is four times that of hard woods . . . and with the last great stand of soft woods located in our Province, continued progress and prosperity are certain.

Great as our timber stands are, our government realizes the necessity of safeguarding the future of this vast industry and is devoting much time, study and thought to the question of scientific reforestration, fire prevention and conservation.

Lumbering brought 84 million dollars to British Columbia in 1926 (the value of the cut hat year), an increase of 49 million dollars over 1916. Every year more than 30 million dollars worth of supplies are purchased to enable this great industry to carry on.

Foreign markets have been sought . . . and captured. Water borne export of lumber has enjoyed exceptional growth. Ships laden with 2,616,419,000 feet board measure left our ports. during 1922-1926 . . . an increase over the period of 1912-1916 equal to 984%. The log scale jumped 111% during the same period!

This activity represents real money in constant circulation. It keeps thousands of men busy . . . influences every phase of commercial life . . . builds markets for our farm products . . . spells "BRITISH COLUMBIA" the world

Add to this the sash and door factories, and pulp and paper production, which alone jumped from \$15,450,000 in 1916 to \$72,327,000 in 1926, and you have an idea of the enormous importance and far reaching influence which this, our chief provincial enterprise, is bound to exercise on the welfare and earnings of each and every citizen.
