

Worth Checking Up

NO matter what amount your budget sets aside for washday expense, you will find that we offer a laundry service comfortably within it. And, more important, a checkup over a period of time will convince you that laundry-washed clothes last longer, save money, guard health... and are cleaner! Call us on the 'phone... we'll gladly help you arrange for this new-era method of handling the family wash.

LARGER OUTPUT OF MINERALS

COMPLETE REPORT OF MINISTER OF
MINES JUST ISSUED INDICATES
INCREASED ACTIVITY

VICTORIA, June 9.—Increased activity at a larger output of minerals were the distinguishing feature of the mining industry in British Columbia during 1927. While the gross value of the production was less than that of the previous year, the actual tonnage of ore mined showed a substantial increase indicating the greater development over 1926.

The gross value of the output of the mines of the Province was \$60,729,358 as compared with \$67,188,842 in 1926, a decrease of \$6,459,484, or 9.6 per cent, a decrease accounted for not by any slackening in production but because of lowered metal prices. In fact the actual quantity production was 5,416,021 tons of ore mined or 640,948 tons in excess of the previous twelve months.

These figures are set forth in the annual report of the Minister of Mines, Hon. W. H. Sutherland, which has just been issued as the final revised figures for 1927 as compiled by John D. Galloway, provincial mineralogist. They indicate that while the lowered metal prices might be expected to reduce profits and dividends, yet the increased

output meant a greater distribution of money in wages, supplies, transportation, services, etc., and in that regard the mining operations in 1927 were of greater benefit to the Province than those of 1926. As a matter of fact, however, dividends were greater than in 1926, amounting to \$10,800,838 as against \$9,747,270 in 1926, a result due to improved methods of treating ores and consequent lowering of costs of

processing.
