## POST OFFICE NEED

Ketchikan is moving heaven and earth in an effort to secure a new post office. All the citizens are uniting for day after having spent the past the purpose and one of them is right on the ground at few weeks in Victoria and Van-Washington taking the matter up with the Federal au-couver. Enroute home he attenthorities. That is the way to get something. Unity is ded the Liberal convention in necessary.

Ketchikan is not as big a place as Prince Rupert, but it has faith in the city and enough ginger to get out and make itself heard. The probability is, it will have a Federal building before Prince Rupert. trict and on Saturday made a

Now that Olof Hanson has been chosen by local Lib- trip to the mining prospects arerals as their standard bearer, it is to be hoped he will be one of the leaders in the movement to secure a new post office for Prince Rupert. Doubtless other sections of the riding will be asking for appropriations, but this is one thing the need of which is apparent to everyone.

#### AIR LINES UP THE COAST

Yesterday another despatch came over the wire telling on Saturday accompanied by Mrs. of the plans to inaugurate an air service between Seattle and Alaska. It is altogether probable that any line to Mr. and Mrs. Wm. Sims left Alaska would make a call at Prince Rupert, unless there on Friday for Kaien where Mr. should be an all-Canadian service to this city and to Port- Sims has been transferred in the land Canal. Eventually this will come. In the meantime, C. N. railway work. Both Mr. we must look for abortive efforts.

### RURAL SCHOOLS

A proposal has been made in Alberta for the govern- Women's Auxiliary work ment to take over the control of the rural schools, levying a general school tax rate and paying the salaries of the teachers. This because of the inefficient manner in which the schools are handled at present. In many parts of British Columbia the same may be said of the schools. It looks to the trustees as if the teachers were getting a lot of money. They lack perspective. We are strongly of the opinion that better results might be obtained if less power were placed in the hands of local authorities in regard to the conduct of education. ### SAFETY ON STREETS

The problem of safety on the streets is one that will was put on last Monday by the have to be dealt with in future in some more drastic Women's Auxiliary to the Hazelmanner. There is a possibility that as time goes on a more wary The Hazelton Dramatic Society people will develop who will keep out of the way of street has been organized with officers traffic. In France they have tried to solve the problem by as follows: president, S. J. Winsby; vice-president, Mrs. Dungate; speeding up traffic and with some measure of success. all traffic moves fast there is certainly less congestion.

The probability is that in large cities fewer cars will be used on busy streets, the populace turning once again to walking instead of riding.

The printer circuit is provided with automatic instruments that without the medium of an operator give a typed copy of the news ransmitted and thus causes a great saving in cost.

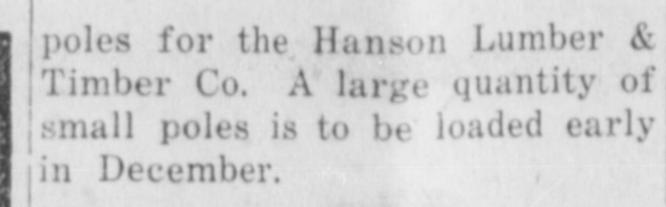

Approval was given to the action of the Board of directors at their meeting last month in Toronto in developing and expanding a direct service of British news from London.
