HIGHWAY GRANT

The Dominion government, if reports be true, has agreed to manufactured and sold fire brick. I got terward we mean to install nurseries, pay a million dollars toward constructing a highway from Golden to Mount Robson Park. This would be used as a tourist route and would bring many visitors to both Mount Robson and Jasper.

If this is correct, Prince Rupert should try to secure a similar at odd moments. grant for the construction of a trunk highway connecting Prince Rupert with the interior. At any rate the proposal is worth considering. Now that the government has shown its willingness to co-operate in building main highways, this highway along the Skeena River is one well worthy of their help.

POSITION OF LABOR

The position of labor in politics was incidentally mentioned It's more than a year ago now, and I'm various ventures I've been in have done in his address here by Hon. T. D. Pattullo in connection with the still at it. last session of the provincial Legislature. The minister said that the aims and principles of his party were the same as those of labor and that was the reason the government was getting support from Labor members.

In Britain today it is found that a somewhat similar condition |exists. Labor got impatient with the conservatism of the Liberals in that country and they fought each other with the result that the KIKE HEADS ultra-conservative Baldwin government is now in power. Seeing their mistake the Liberal and Labor parties are getting together and it looks as if they might be fighting side by side in the next election.

In this province no one can say that the Liberals are not progressive. The complaint from many is that they are too progres- HIS sive. They are spending money on old-age pensions, mothers' pensions and compelling reasonable wages and taking other steps which are being opposed by those who would make money from sweated labor. Labor is backing the party for that reason.

OUR SPECTACULAR PRINCE

Most princes succumb to the lure of the female and settle down as married men. Our Prince of Wales is different. He is blessed with superabundant energy and he devotes himself to riding and George Woodland, John Dybhavn, George various other outdoor sports which attract wide attention. He also Bryant, Harry Rochester, John Dore of course carries out thousands of official duties which are part of his job.

the new officers take charge some time The young prince was a general favorite and as he is advanc- later. ing in years he is losing none of his popularity. If all the kings of Britain had been of his calibre, the United States would today FAIRBANKS PICTURE have been part of the British Empire.

GALLOWAY RAPIDS BRIDGE

The surveys for the Galloway Rapids bridge have been commenced and it is announced by the minister that the structure will be built this year. Already surveys have been made on the other side of the bridge for the purpose of deciding the route to take. This is all good news here. Prince Rupert people have set their minds Fairbanks as The Gaucho," here tonight on that highway and they are pleased to hear the announcement made officially.

The news that the road is to be carried through right to the peaks, the battles of the Gauchos, the Alberta boundary is also good news as it places the north in a position of equality with the south.

WHAT I MIGHT HAVE BEEN

As Told to Harold C. Burr By REX BEACH

66 A FTER I left college and took up; the study of law I thought that eventually I'd become a Chief Justice of the Supreme Court of the United States. I preferred that to being President-it lasted longer.

"But before I settled down to writing I gave up that ambition. I've done other things besides write. I'm still doing them, for that matter. I went mining, became a salesman, picked up smattering of civil engineering, took up motion-picture producing, and now I'm deep in a farming project down in Fiorida. But the idea of becoming a lawyer and the step thence up to the bench came first.

"I had a couple of brothers who were very successful attorneys, and I didn't see why I couldn't make the third barrister in the Beach family. Before that happened, though, the Klondike gold rush sent the country crazy, and I
