CONTINUOUS PROCESSION

Prince Rupert is one of those places in the making where officials and others come and go in an almost continuous procession. It is difficult to keep track of the changes although the place is small. Clergymen and others tell of the changes that are taking ferred to those who imported secondplace in their congregations. The Daily News list of subscribers is also changing as readers come and go. Most of them like to have a copy of the News sent them when they leave and that is the reason we have so many out of town subscribers.

CAMPAIGN OF ECONOMY

The British government recently instituted a campaign economy and thus saved the taxpayers of the country over fifty legitimacy, needless to say, is not one million dollars. In doing so there were many hardships wrought that would be accepted by Webster. upon employees who had to leave the government service and find other employment.

work is good in any government occasionally. The objection heads They say that we should have legisla- practises with those of Christian Scien- ing to his resistance, was shot by one It is possible that an occasional cleanup and adjustment of of departments have to letting men out is the hardship it involves. Yet the public money must be expended well or in time the country will go bankrupt just as any private firm must keep its expenditures well within bounds.

RESEARCH COUNCIL OF CANADA

The research council of Canada, at the head of which is now in Canada who want a car and who are Forty-two years ago while I was and demoralize these people should be Dr. Henry Tory, formerly president of the University of Alberta, too poor to buy a new one. These stationed at Kitzegucla, a case of witchis a very important body which has a very important work to do. thousands would be deprived of all the craft there had a very serious ending. Searching and experimentation with a view to improvement to the producing powers of the country are very important. The body deals with such questions as the elimination of rust in wheat, cross fertilization of plants, root rot and other field crop diseases, in agriculture, and similar problems in manufacturing. It is along sim- car, he rarely ceases to use one. STORIES OF WITCHCRAFT IN EARLY DAYS OF B.C.

Editor, Daily News.

Port Essington, B.C. April 23, 1928.

I wish to say a few words re- the Billy Williams case, so much talked about in your paper. Having been a missionary at Kispiox for a number of years in the early days of the mission. I know something of the witchcraft that was parctised amongst these people at that time. It was a sight to behold, say forty people gathered to-Members of parliament have received gether in a large heathen house with circular from an automobile journal, rattles and drums and singing of songs, published in the City of Toronto, ask- beating time on the boards, performing ing for legislation to prohibit the im- over the sick, some of them-both men pertation of used cars coming from the and women-half naked. HINDERS PROGRESS

Witchcraft checks every desire on the part of the native to rise and, like a big stone wall, hinders any progress in the civilized life. While living among them, I saw the big change can-were flooded with secondhand, old from heathenism to christianity. Th€ change was great. Christians moved from their heathen surroundings and built new homes. A church was erected. secondhand cars. They didn't stock up Then we had a sawmill and two incorporated stores. After that, the government built a school house and sent a teacher and field matron. This was a wonderful change for such a short time. Gradually came a revival of witcherait which was done through hatred and spite. Today, some who in those days, were the leaders in the church sawmill and stores are now leaders of the witchcraft and conjurers in that village. Their present determination is to build up their ranks.

The government is not too late to At Glen Vowell, Hazelton, Hug-wil- 500 soldiers on board and landed beget, Kitzegucla, Kit-wun-gah, Kit-welk- hind B.A. cannery, now known as "Sol-There is no real necessity for suggest- cool, Menskimisht and Kit-se-las, none diers' Point." Diabetes Mellitus

Diabetes is not a kidney disease as many people think, but a condition in which the kidneys become involved, and ultimately break down as a result of their strenuous efforts to eliminate sugar from the blood

The presence of sugar in the blood has a double significance. It points out that the cells of the body are not assimilating the much-needed carbohydrates so necessary its physical economy, besides the irritating effect it has on the kidneys in the discharge of their duties.

Up to date all so-called cures for dia-

betes mellitus have proved a complete failure. By my natural methods I do not combat the disease, but aid the natural tendencies of the system to right itself in a

If you are suffering from diabetes I will be glad to have you call in and allow me to go into your case in detail. This consultation service I will gladly render free of charge.
