ELECTION TOMORROW

This is the last number of this paper prior to the election which takes place tomorrow. Like a great many others we have been speculating as to the outcome and have decided that the Liberals are likely to get at least 29 seats, Conservatives 11, and Labor 5.

Liberals—Alberni, Atlin, Cariboo, Chilliwack, Columbia, Cranbrook, Creston, Delta, Prince George, Grand Forks, Islands, Kamloops, Kaslo, Lilloet, New Westminster, North Okanagan, North Vancouver, Omineca, Prince Rupert, Revelstoke, Similkameen, Skeena, Yale, Vancouver 3, Victoria 3. Total 29.

Conservatives—South Okanagan, Saanich, Salmon Arm, Point Grey, Vancouver 3, Victoria 1, and possibly Comox, Dewdney and Mackenzie. Total 11.

Labor—Burnaby, Cowichan, Fernie, Nanaimo, and South Vancouver. Total 5.

WOMEN VOTERS

Women voters will doubtless remember that the Conservatives have refused to put a woman on their list of candidates in spite of the fact that in several ridings there have been outstanding women ready to take the nomination, such as was the case in Victoria.

The Liberals have two women on their lists. Most of the legislation for which women have asked have been passed by the Liberal government or forced on the Conservatives by Liberals. That is why tomorrow women will be voting for Liberal candidates throughout the province.

LABOR VOTERS

It is almost futile to point out once more why the MacLean government should be supported by Labor. They have done so much more than the other party in the past and will undoubtedly do the same in the future. Here is the crucial test, however. In Fernie and Cowichan-Newcastle, Liberals have refrained from putting candidates in the field and are ranging up behind the Labor men, giving them every support and will be pretty sure to carry them to victory. Conservatives have their candidates in the field in every case, regardless of Labor.

EMPLOYERS OF LABOR

Employers of labor will be inclined to vote Liberal because the Liberals have put the province on a sound financial basis and prosperity has returned. Capital is flowing into the province as never before and as long as the Liberals are in office it will continue to have confidence in the province. They know what to expect. They know they cannot get privileges but will be sure of fair treatment with no favorites. That is why capitalists will vote for the government candidates.

AGAINST PRINCE RUPERT

It has been mentioned by the Conservatives that Prince Rupert would have got the Court House without Mr. Pattullo's influence and yet every Conservative in the House voted against the appropriation with the exception of the member for Similkameen, W. A. McKenzie. That indicates the sort of deal Prince Rupert is likely to get from Conservatives.

While we cannot use federal issues as an argument in this election it is impossible just now to forget Sir Henry Drayton and the Prince Rupert elevator. He was a leading Conservative and he opposed the elevator tooth and nail.

OPPORTUNITY IS OFFERED IN BIG NEWS CAMPAIGN

ENTER YOUR NOMINATIONS TODAY AND BE AMONG THE FIRST—GIFTS OF UNUSUAL VALUE BEING OFFERED

Capital prizes are today more numerous than candidates entered in The News \$4,000 prize campaign, so your opportunity is here today if you are able to make a decision to help yourself.

OPPORTUNITY

There is a top prize valued at \$1,200, a new Pontiac 2-door Sedan and an \$860 Ford Tudor sedan and either of these can be yours. Then there are cash prizes and commissions totalling hundreds of dollars. Every active participant who does not win a car or cash prize will be paid a cash commission of 10 percent on every dollar in subscriptions you turn in. Ten percent is one dollar in ten, for yourself and you have spare time. Can you do as well in any other way?

Sign the nomination coupon in today's News. See that it gets to the News campaign office. Make the start that will make you more money in a few weeks of just your spare moments than the average man makes in an entire year.

How can The News make you realize the opportunity there is for a man or woman who will go in to win—who will go in and "carry on"? If you could see it, you would have your nomination in this very minute. This campaign is an out and out

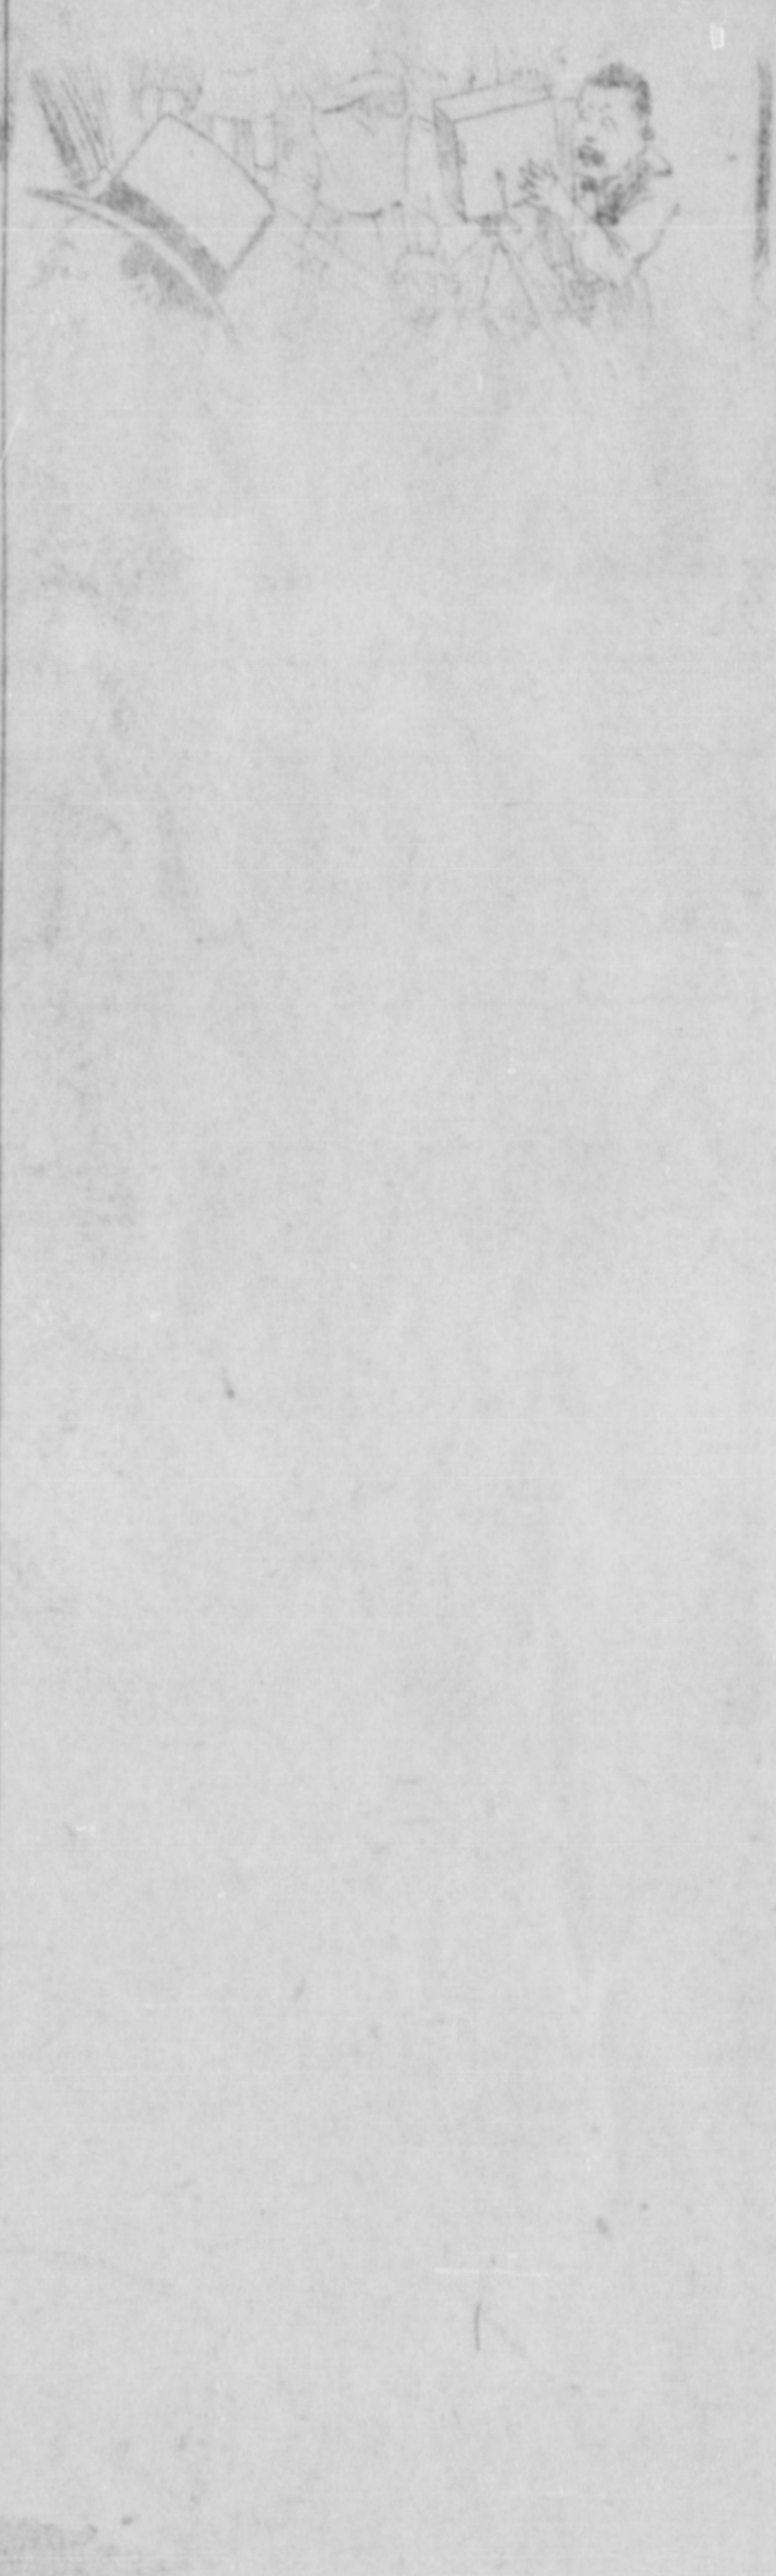

business proposition—a proposition of salesmanship, with everything in your favor. There is no time for sentiment in order to get subscriptions. The News is putting up some \$4,000 in automobiles and cash. In order to participate in the awards you get subscriptions. You get paid mighty well too. Where else can you go and in a few weeks carry away a prize valued up to \$1,200?

"Everybody Wins Something!" is the campaign slogan. In this campaign you win. There are no goals set—the grand prize winners win because they have more votes than others, but everybody wins and wins in a real way.

GREAT OPPORTUNITY

Surely a greater opportunity has never knocked at your door. The two biggest prizes in The News distribution are two big beautiful, powerful cars. They are cars of known value and worth. What an opportunity exists for persons who are wide-awake enough to send in their nominations and secure one as a result of their spare time effort in the next few weeks. The next prize is \$500 in cash. Add there are other cash prizes too. And the 10 per cent commission feature, "Everybody Wins Something."

Right now—this very day, is the time to start your campaign in earnest. Thus far a surprisingly small number have entered, considering the number and value of the prizes to be given away. Campaign headquarters are located on the second floor in the News Building, 243 Third Avenue. Call, write or telephone and ask for information. Or if you request it, a representative will call and explain the campaign plan to you. Sign the nomination blank today and get started immediately. The sooner your campaign is under way, the sooner you start making winning votes. Campaign headquarters are open evenings until 8 o'clock. Come in and receive full details. Telephone 534.

EVERY TWO MINUTES OF EVERY BUSINESS DAY... SOMEONE IN CANADA BUYS A NEW GENERAL MOTORS CAR

SINCE the days of Confederation, General Motors of Canada Limited has been supplying Canada with transportation. Each year as requirements have multiplied, the scope of General Motors service has widened... the quality of General Motors cars has steadily improved. Each year more Canadians have looked to General Motors for better automobiles, until now, every two minutes of every business day, someone in Canada buys a new General Motors car.

These cars are bought by people you know... by people like yourself... for the very

reasons which would guide you in the choice of a car.

They are bought because they are the product of the most progressive organization in the world's most progressive industry... because they reflect the General Motors policy of constant advancement... because they are better cars...

They represent the latest developments of the world's leading automotive research laboratory, offering these developments to the public as soon

as they become available. They are proved in advance, at the expense of General Motors, not the public. They are better cars because they are Canadian cars. And they embody greater value because of General Motors money-saving methods of quantity buying and volume production.

This popularity of General Motors cars holds more than a passing interest for the Canadian car buyer... for General Motors utilizes increased demand to reduce production costs and to offer still more outstanding automobile value.

IT'S BETTER BECAUSE IT'S CANADIAN

HOT WEATHER BENEFITS CROPS

LIKELY WESTERN CANADA WILL REAP ITS LARGEST HARVEST THIS YEAR

WINNIPEG, July 17.—Crops throughout the whole of western Canada have benefited immensely from the very hot weather of the past week as with the abundance of moisture in the ground and crops of sufficient height to prevent evaporation rapid development has resulted.

All districts report wheat and barley headed out and oats well advanced in the shot blade. A few districts throughout southern Saskatchewan report slight damage from hail, with the most damage occurring in the Stopy Beach and Darnody districts. There are also some signs of rust reported from a few points, but in none of these districts is it considered serious.

Districts in southern and eastern Manitoba which have suffered from too much rain are making rapid recovery and with the exception of flax there is a splendid prospect that there will be a fair crop, excepting where it was completely inundated which at most only represents a very small acreage.

Hay is an excellent crop throughout the whole of the west, and in southern and central Manitoba some ex-

cellent crops of sweet clover are being cut.

Reports from Alberta would indicate that at the present time prospects are favorable for a crop that will equal if not exceed that of last year and that a large acreage of new land is being brought under cultivation. With Saskatchewan and a large portion of Manitoba also preparing to harvest a large crop, present indications are that the farmers of western Canada are about to reap their greatest harvest.

BOYS' BAND TO BE CARED FOR

ROTARY CLUB AT ALBERTA CAPITAL WILL INTEREST THEMSELVES IN THE LADS

Word was received here by mail yesterday that the Rotary Club of Edmonton and the president of the Exhibition Association had busied themselves to see that all arrangements were completed to look after the Prince Rupert Boys' Band in every way. Not only will the club as a whole entertain them but individual members will do what they can to make their stay in the Alberta capital pleasant.

The band was started under Rotary auspices and F. G. Dawson, a former member of the club here, wrote to friends in Edmonton asking for their interest in the local boys.

Frank Gray, manager of the Somerville Cannery Co.'s floating cannery Laurel Whalen at Ferguson Bay, was a passenger aboard the Prince Charles yesterday afternoon, returning to Massett Inlet following a trip to Vancouver. He was accompanied by his son.
