## He began to thrive when Doctor put him on Eagle Brand'

## What One Mother Says of Eagle Brand:

"I feel I must write you a few words of appreciation for the good that your Eagle Brand Milk has done for my baby boy. After trying several foods without success, we finally tried Eagle Brand and the results have been little short of marvelous, as these figures show:

Weight at birth... 7½ lbs.
"6 weeks. 7½ lbs.
"4 months 15 lbs.

He was started with Eagle Brand at two months. At six months baby has cut two teeth with no trouble.

> Gratefully, "Mrs. L. C." (Regina). (Original letter on fyle)

TOW is YOUR baby getting on? I If you cannot nurse your child, do not experiment with foods. Begin Eagle Brand at once. It is old-established (1857), reliable and has successfully reared more babies than all other infant foods combined. It is highly endorsed by leading doctors for its purity, uniformity and easy digestibility. Can be used for babies from birth onwards. Complete directions are given on each can.
