The striking thing about most patients of the chiropractor is that they have not just happened into his office -they have been sent there by a former patient — one who knows what Chiropractic did for him, and what it will do for others.

It is this circle of satisfaction, this proof by way of results which has built chiropractic to its present eminence. As people learn that there is science which strikes at the cause of disease instead of trifling with effects, Chiropractic grows. By my chiropractic health

method I correct diseases of the eyes, ears, nose, throat, lungs, heart, stomach, liver, kidneys, bowels and lower organs.
