**HOW LITTLE WE KNOW**

All thinkers are constantly met by the thought of our physical limitations. "How little we know!" they exclaim. So Henry Ford, probably the greatest industrial organizer the world has seen, finds himself shut out from the great things that might be. In an article on "Machinery, the New Messiah" in the Forum, he concludes: "And yet with all our progress we know very little. We know nothing or comparatively nothing about the biggest thing or the smallest thing—little about the universe around us, and little about the atom. The microscope and the telescope are still limited instruments through which we see darkly. Yet I believe the time will come when man—in some one of his mental stages or planes of consciousness, if you wish to call it that—will know what is going on in the other planets, perhaps be able to visit them. When one looks back at the distance we have travelled mentally, in even the last fifty years, great things may be possible within the next century."

**SOURCE OF IDEAS**

"How do we think? What makes us think? Where do our thoughts come from? These are all interesting questions to me, interesting problems that I sometimes ponder," continues Ford. "As with a properly tuned antenna, thoughts seem to come to one attuned to receive them. That seems to be the way we get ideas, but it takes a conscious effort on our part to be ready to receive them. Call this universal source of ideas anything you wish, the fact remains that the thoughts are all around us ready for acceptance. They come from outside of us, from a source that we may not know, but they are nevertheless available when we put ourselves into the right mental condition to receive them. "But the job of thinking is a real one—probably the hardest work there is to do. Yet I believe that all the world's secrets are open to thinkers, and that whenever a problem comes to us, it can always be solved—otherwise it would not present itself. I believe that we have always lived, moved, and had our being in this ocean of thought and that we shall always continue to live in it, even though our form and the form of the universe and things in it may change as we do."

**DISTRIBUTE ORIENTALS**

It has been suggested that if more Orientals are to come to Canada they be evenly distributed among the provinces, each taking its quota. Then all provinces would become equally interested in the problem. Today immigrants from Japan are restricted to five hundred under the gentleman's agreement, and even these must be students or merchants or members of families already living in Canada. There is no immigration of Japanese laborers, as such. When such people apply for admission it could be ascertained to which province they wish to go and allow only those who are bound for the provinces not now having their quota of Orientals.

We are not endorsing this proposal but simply passing it on as one that has been suggested for the solution of the problem as it affects British Columbia. If Canada is to be open to members of another race, it might be well that they should be evenly distributed throughout the country.

In a speech yesterday in the House of Commons Dr. King states that the Liberal party is the only one that has ever done anything to control Oriental immigration. Possibly he may take this latest proposal into consideration so that the people of Eastern Canada may share the privilege which has been almost wholly British Columbia's up to now.

**LEAP YEAR DANCE AT TERRACE WAS LIVELY**

Rebekahs Responsible for Event of Gaiety; Decorations Were Very Pretty

TERRACE, March 2.—The leap year dance given by Mountain View Rebekah Lodge, Terrace, on Wednesday evening drew a splendid crowd and a very enjoyable evening was spent. Crepe paper festoons in the lodge colors of pink and green were used to advantage in decorating of the hall.

The ladies were not backward in making use of the leap year privilege of choosing their partners and kept things moving gaily all evening under the able direction of Mrs. J. Warnie as floor manager. J. McLaren's jazz orchestra furnished lively music throughout the evening and refreshments were served by the Rebekah ladies.

**TERRACE BASKETBALL GIRLS WERE BEATEN**

Better Showing Made on Second Night at Smithers with Higher Scores

TERRACE, March 2.—Reports from Smithers indicate that the Terrace basketball teams were no match for those of the interior town, both Terrace teams being defeated in both games, although the local teams did much better work the second night, after being more familiar with the strange hall.

Reports show the scores to be as follows:

**TUESDAY NIGHT**  
Girls—Smithers, 24; Terrace, 9.  
Boys—Smithers, 27; Terrace, 8.

**WEDNESDAY NIGHT**  
Girls—Smithers, 27; Terrace, 13.  
Boys—Smithers, 21; Terrace, 15.

"But you are not always bothered with poor light are you?" inquired the gas company clerk.

"Oh, no, not always!" replied the complaining householder.

"Ah, I thought so, it's only at certain times that you notice it, eh?"

"Yes, only after dark."

**Had a Severe Cold Coughed Incessantly**

Mrs. C. Fehrman, Selkirk, Ont., writes:—"Last winter I suffered from a very severe cold. I coughed incessantly which irritated the glands and caused sore throat.

"I tried several medicines without any luck, but one day I picked up your almanac and read about Dr. Wood's Norway Pine Syrup

"I got a bottle and after taking a couple of doses felt much relieved and when I had finished it my cold had simply disappeared."

**UNIQUE HAT IS IN SCOTLAND**

Goes to England and Scotland and Give Prince Rupert Much Publicity

English newspapers just to hand tell of the arrival there of the travelling hat which was taken from Prince Rupert by the big motorship King James, that arrived back here for her second lead of the season last night. Incidentally it has given Prince Rupert a lot of publicity. The hat was entrusted to Chief Engineer Alex. Baird by W. Smith of the C.N.R., who took it to Hull, England, where it was handed to the Hull Daily Mail by Mr. Radcliffe, the wireless operator. From there it went to Avonmouth on the King James in charge of W. Gillies, third mate, who hails from the Orkney Islands. It was re-labelled by the Western Daily Press of Bristol. The wife of the chief officer of the ship planned to take it to Aberdeen and present it to Sir James Taggart, Lord Provost, the real object of this last trip being to show the Aberdeen people how to travel free for many thousands of miles.

Originally the hat started from Dallas, Texas, and it is now carrying 57 labels. Last November it was at Calgary where it received the inscription: "I'm on my way, I don't know where. And I don't care where I roam. So give me a lift and shove me along And some day I'll reach home."

**Man in the Moon**

TOO many opinions are created by the pocketbook and too few by pure reason.

POETRY is hard to write but the very devil to read.

TEACHER—Now, you have in front of you the north, on your right is the east, and on your left the west. What have you behind you?  
Small boy—A patch on my pants. I told mother you'd see it.

A YOUNG lady was being interviewed.  
"Do co-eds kiss?" the reporter asked.  
"You'd be surprised," she remarked coyly, "how much goes on right under your nose."

THIS dunning week, No. Arathusa, it has nothing to do with the minister of railways. It is the week during which we receive notifications from our creditors that the accounts are many months overdue.

I LISTENED to the flapper  
And what I heard was this  
"It sure will be a wild party  
And one you must not miss."

**EYESORES**

Editor, Daily News.

Now that the tourist season will shortly arrive with its many visitors to Rupert may I draw your attention to some filthy eyesores which should be removed without any further delay.

At McClymont Park actually on the playing ground are two dirty children's latrines which should be moved further away out of sight of the public altogether. And on the other side of the road just beside the creek is another one marked "girls" with its bucket protruding in a most obscene and filthy manner. It should be moved away behind a bush and well covered.

At the Exhibition grounds just opposite the tennis courts and in full view of passers by is another disgusting dirty latrine marked "men and women." Surely the city authorities are not lost to all sense of decency as to permit these wretched eyesores to remain to say nothing of the nuisance to health when the warm weather sets in with its myriad of flies to jump from these latrines into the reservoir. (You can see them for yourself.)

Yours faithfully,  
A DISGUSTED VISITOR.
