HOPEFUL FOR KING GEORGE

Whole Situation Regarded as Satisfactory Today

LONDON, Dec. 19.—The desperate battle King George is waging for life continued somewhat in his lavor today. The morning bulletin, like the two of yesterday, recorded improvement, though slight. Despite the fact that his gain is slight, there has been a definite and more hopeful atmosphere among palace officials. On the whole, the situation is regarded as favorable and satisfactory, aithough it must be emphasized that anxiety must continue for some time. Uninterrupted progress for several cays would be necessary before real confidence could be felt. There was no disposition to minimize the fact that the King's condition is still critical. It was a menth ago today that the public was first informed that the hing was ill.

LONDON, Dec. 19 .-- At 11 o'clock this morning the following bulletin was issued:

"The King has had a restful night. The slight improvement noted yester ay continues."

and when required. Neither Company claims exemption.

The above tabulation sets out the important features in both offers. On this fair comparison we submit it is clear that our offer is the better.

THE CANADIAN NATIONAL RAILWAY HAVE A LARGE INVESTMENT IN VANCOUVER AND IN PRINCE RUPERT. HAS PRINCE RUPERT GAINED OR LOST BY SHARING THE CANADIAN NATIONAL RAILWAY WITH VANCOUVER?

Last year at this date much more grain had been shipped from the port of Prince Rupert than has been shipped to date this year, and yet Prince Rupert's elevator is full of grain awaiting shipment. Is this because the Alberta Wheat Pool has now an elevator in Vancouver?

Prince Rupert never has gained by sharing interests in large enterprises with Vancouver. If you vote for the Power CORPORATION OF CANADA, you will again be overshadowed by Vancouver.

The following is copied from an article entitled "How to invest your money," appearing in the Daily Mirror (Overseas Edition of Nov. 8).

"I have before me as I write extracts from the Montreal Gazette of September 22 last, in which Sir Herbert Holt predicts a great future for British Columbia in general and Vancouver in particular.

"Sir Herbert drew attention to the fact that the port of Vancouver has the advantage over Montreal of being an open port, which naturally contributes very materially to the rapid progress being made.

"There is no question' he said, 'that wheat and other grain from Alberta and the Peace River Valley will be shipped that way, while flour for the Orient-a trade which is assuming very material proportions-is finding Vancouver the natural shipping point.'

"Asked as to the hydro-electric industry on the coast, Sir Herbert, who is identified with the British Columbia Power Corporation, merely presented the example of the growth of the Montreal Light, Heat and Power Company in proportion to the growth of the City and district of Montreal.

"His inference obviously is that the growth of the coast utilities will keep pace with the growth of the urban centres, particularly the city and port of Vancouver."

According to the above statement Sir Herbert Holt is identified with the British Columbia Power Corporation in which Power Corporation of Canada according to its annual report, has a substantial interest.

This statement shows clearly that Vancouver is the chief concern of the British Columbia Power Corporation on the coast.

American States Public Utilities Service Company has no interest at all in Vancouver and must therefore use all its resources to develop Prince Rupert.

Vote for American States Public Service Company and industrial independence for Prince Rupert.

Voters can obtain transportation to the poll by Phoning 14 or 15

tributed to her in an evening newspaper, which quoted her as saying: "I did get so fed up with hole and prohibition drinking. I need a drink of beer openly just to make me
