RELIEVE HEADACHES? Certainly!

A question we frequently hear is: "What can you do for my headache?" The answer is: "We can relieve it in almost every case and most times very quickly." How quickly depends upon how serious is the condition which causes the headache.

For the fact is that a headache cannot exist by itself. It is a symptom of a deeper trouble and its cause must be removed before you are safe from a recurrence. That cause may be from the eyes, liver, kidneys, stomach or intestines.

Wherever it be, it is in itself an effect of imperfect nerve transmission due to spinal pressure on nerves. It is the work of the Chiropractor to locate and remove such pressure. Those who have taken his adjustments will tell you that he does this very successfully. Phone Green 241
