Sir Henry Thornton in an Optimistic Mood at Luncheon Yesterday

Told Members of Board of Trade That Big Eighteen-car Barge Would be Built at Once and Other Things Which Would Benefit Port

At the luncheon yesterday given by the Board of Trade for Sir Henry Thornton, M. P. McCaffery presiding, the president of the Canadian National Railway pleased the members very much with the statement that he had three announcements to make that would be of great interest to the people of Prince Rupert. One of these was the building of the three large modern steamers mentioned by him in the south, which would operate to Alaska and would bring a great deal of business to this port. The second was that an eighteen-car ferry barge costing about \$100,000 would be built here

Ministers to Clear Up Offices Preparatory to Making Way for New Administration in Victoria

VICTORIA, July 21.—Hon. A. M. Manson, attorney general, and Hon. T. D. Pattullo, minister of lands, will reach the city today from the north to attend a meeting of the cabinet on Monday. Under the Election Act, a period of twenty-one days must elapse between the date of the polling and the making of the official count by the returning officers in the various ridings. It is pointed out that the election will not be over until this count has been made and the government, therefore, will not be vacating before that date in any event.

Meantime, no new work will be initiated by the government and the various departments will be engaged in cleaning up their affairs in readiness for the new ministers to take charge. Contracts that have been called for and tenders that have been received since the election was launched will, according to Hon. Dr. W. H. Sutherland, minister of public works, be allowed to remain unawarded for the new minister of public works to deal with.

In Liberal circles, there is a good deal of talk about finding a seat for Hon. Dr. J. D. MacLean so that he might continue as leader of the opposition. Some party supporters feel that the retiring Premier should continue at the head of his party while others contend now that he is defeated, that he should step down and allow one of the ministers who carried his seat to replace him. In this connection the names of Hon. T. D. Pattullo and Hon. A. M. Manson are prominently mentioned. If Dr. MacLean decides to remain, however, it is unlikely they will seek the honor.
