APPRECIATING NEWS

DAILY EDITION

During the past week or two this paper has almost doubled the harmless as a reporter. amount of telegraphic news received daily, thus seriously increasing the bill for telegraph tolls. That, along with the decrease in the "I'm afraid I'm the poorest of pros-velt. price of the paper, has made the matter of publication a very seri- pects for biographical matter. Do you ous one. However, advertising has been correspondingly heavy for know I've got a \$500 bet," he continthe past week so that it is hoped to at least break even. The in- ued, "with a magazine editor that he'll the family knew what was best for crease in circulation accompanying the drop in the price helped to never persuade me to write my own some extent to offset the loss.

We have had some compliments on the amount of sport news received daily over the wire. It is hoped to continue this feature. While it is impossible at present to make a big sport page, as in the big city dailies, much of the important sport news will be found on the front page along with the general news of the day.

#### INTERIOR MINES TO FORE

It is satisfactory to know that while mining has been getting school. Even then I liked to watch "She said she had a son who was much publicity and greater interest everywhere is being taken in insects. I wanted to be a naturalist crazy about bugs and birds and didn't mining properties, the northern interior, particularly the Bulkley But the family ukase was to the effect know what to do with him. 'Madam.' country, has been making good progress. Mines have changed couldn't afford to fool around with sider yourself the luckiest women." hands and capital for development has been secured. We expect to science. I ought to be placed in some see this continued. As the work proceeds, the mining public will be good paying job. Nothing specific had Afterward Theodore Roosevelt-whom attracted to the rich properties of Hudson Bay Mountain, the Ba- been picked out for me as yet-just he met through Prof. Osborn-also adbine, Topley, and Hazelton and places even nearer to Prince Rupert something like a lawyer, doctor or vised her to give him his head. William will come into their own.

#### CONSIDER THE ANTS

Now ants and mammals appeared at much the same period, the mesozoic, in the world's history; but took different directions, each succeeding where the other failed, says Sir William Beach to intercede in young Bill Beebe's Thomas in the London Observer when reviewing the new book on the behalf. One of them was Henry Fairlife of Forel. The ant society is a female society, which developed a hereditary social instinct so perfect that the animals can live successfully "without chieftains, guides, police or laws in an admirably co-ordinated state of anarchy." If the higher mammals attempt this "they at once fall back into such a triumphant state of brigandage that they are compelled to submit once more to the rule of chieftains." Ants may be said to be as certainly supreme among the social anarchists as man among the individualists, though again and again his Solomons have considered the ant and tried to con- PIONEER PHYSICIAN HERE SINCE at the hot springs near Juneau. On THIS is the season of the year when form to her methods; as if they held the educational creed that the proper study of mankind is not man, but man plus ants.

#### ANGLO-EGYPTIAN TREATY (Winnipeg Free Press)

Premier King's statement to Parliament upon the question the Anglo-Egyptian treaty adds to the significance of the situation, sional man who is as widely known as in addition to clearing up the seeming conflict between what Mr. he is highly esteemed. Announcement King had previously stated in Parliament and Lord Salisbury's comment upon it.

This treaty was drafted in London. The British Foreign Of- mayne and family, also well known and ENJOYABLE TIME AT ANNUAL EVENT fice, conceiving it to be an Empire treaty, drew it up in terms thus popular, will follow next week. They describing it; and the Dominions, having been made fully cognizant will take up residence at William Head. of its provisions, were asked to indicate whether they desired to associate themselves with Great Britain in completing it. Had they in 1905 and took up residence in Metladesired to do so it would have been necessary for each of them to appoint a plenipotentiary to sign the treaty. Under the new ar- long before there was any vestige of LO.D.E. proved to be an outstanding That's where Dido Gurvich fought rangement the British Government cannot give powers to a plenipo- the present city.
