DAILY EDITION

SHALL WE TAX IMPROVEMENTS?

On New Year's Day the people of Prince Rupert received rather unpleasant intimation that it may be necessary this year to tax improvements. It was a very unpleasant intimation because it perils from bandits, from the contendmay mean putting on the brakes so far as the progress of the city is concerned. This is something for the voters to take cognizance of at the election next week.

There are always two opposing opinions in regard to the taxing of improvements. There are those who believe in the single ax ing, wrecking the camps and making or taxing of land values for everything and those who think im- life a misery. Approach to the monasprovements should bear a share of the cost.

The single tax encourages people to improve their property. It from the savage dogs accustomed to says that a man should not be taxed because he is more progressive feed on dead human bodies and ready throughout the year. It calls for no than his neighbors. Those who advocate the system say that land values are increased by buildings, both values of the land built upon and also other land surrounding it. Building is something to]; be encouraged. If owners of property are led to think they will be all the obstacles. taxed for the improvements they make, they will be slow to improve TEN YEARS AGO their property. They cannot afford to put up buildings unless assured of a sufficient income, not only to pay for the building but also to pay the tax.

So far this city has set itself strongly against any improvement tax. The result is that buildings have been erected, such as the block now going up on Third Avenue where the owner is taking great chances in spending the money. We are expecting other build- Sava Byeletich, Sava Bjeletich, Nedjelko bison bear on their flanks assegals ings to go up and it would be a great pity for us to do anything to Drinich, Sava Yoich, Meksim Knezevich, discourage them. We cannot expect the erection of modern build- Lazar Vujasich, Rad Sarovich, and Vaso ings if we are going to penalize those who spend their money. We suggest that voters think this matter over well and find out the views of the candidates before casting their ballots.

CANDIDATES NEEDED JUST NOW

Candidates are needed for the vacant positions on the city coun- Grant in recognition of the honor concil and the school board and it would be well for those who have the ferred upon him by Westminster Hall interests of the city at heart to look around them and see that good in making him a doctor of divinity. men are urged to offer themselves. Many of the best people do The presentation was made by G. R. not like to push themselves forward but they are willing to serve if urged to do so.

INTERESTING SUGGESTION

Louis Forkrud in a letter published today suggests that the railway from the Peace River shall come through to the upper Naas valley and then cross to the C.N.R. at some point in the neighborhood of Terrace. This is a feasible route and one that has been suggested before. It is one that should be borne in mind. Some day a railway is pretty sure to come in that way. The matter of route is largely one for engineers but at the same time it is well for the people of this part of the country to keep their eyes on the engineers because many them are not infallible.

PECK McSWAIN, PRINTER

Peck McSwain, printer, has been sending out blotters for new year cards with his dollar mark thereon. Peck is now residing at anything but I hardly think it would sit up and take notice Stewart and he is at home there among the miners and prospectors do to hire one to take the wife to a The route advocated in the Rupert with whom he has lived and worked and smoked and enjoyed a con- bridge party. vivial glass for many a day. Nobody seems to know how old Peck is, and some of the miners at the camp intimate that he will never die. At any rate he still looks on the best side of life and his wish and the bills seem even more numer- is highly mineralized and as such has Newington and Wandsworth where the to his friends, as expressed on the card is: "May you never have to turn a handspring for a meal in 1928." The News wishes Peck many a good listener for his yarns and many a jolly companion so away cigarettes, rich people are those that his latter years may remind him constantly of the good days who give cigars or nothing-mostly that have passed.

Ten Years Ago in Prince Rupert

JANUARY 4, 1918.

Bishop F. H. DuVernet writes a letter to the press urging that the city council be not reduced from eight to four members. He also advocates proportional representation system of voting in the civic election here.

The Trades and Labor Council last night endorsed Ald. G. B. Casey, W. G. Barrie, John Rank, Fred Shaw, Peter Rorvik and Mrs. W. J. Kirkpatrick as aldermanic candidates and S. D. Macdonald for police commission.

The sum of \$400 was realized at a tea, sale and dance held on New Year's Day for the Red Cross Society. There were many donations for raffle.

> Certainly in no museum, even if a museum could be built to endure five in the recesses of these caves, half a mile or more from the entrance, neither the temperature nor the dampness ever varies, no current of an ever blows and the limestone has distilled through the centuries a thin veneer of transparent stalagmite which has preserved everything under a sheet of imperish. able glaze. To penetrate into the most interesting calls for the equipment of an athlete; you must navigate a boat to reach the entrance; you must do part of the journey on hands and knees sages under the curse of the serpent.

EXPLORING EXPEDITIONS With the object of popularizing the Pyrenean caves an expedition organized by Count Begouen, who is in the foreront of prehistoric studies in France visited the famous cave of Niaux, three miles from Tarascon in the Ariege, with a large number of journalists and persons interested in the science of prehistory. This cave lies high above the road and is entered through a hole just large enough to admit a human body. Thereafter it widens into a high

tunnel, the ancient course of a subterranean river fed by the melting attack the living. But the stimulus athletic feats, for it follows a straight course into the mountain for nearly a nile, through lofty, cathedral-like halls estooned with caystal stalactites, which iere and there have grown into majesic columns that support the roof. In he deepest recess lie the paintings of nimals now extinct that ranged these ighlands when the climate was sub-Arctic. There are reindeer and bison and wild horse, all drawn in imperishable manganese and ochre. Doubtless pointed at the heart, to conjure a LUIVUII DE successful hunting. They belong to the been less than 20,000 years ago, and is more likely to be nearly 30,000. Under no shorter period could all the flora

ECZEMA ENDED

Madame A. Lariviere of Fall River, Mass., suffered with eczema for three years, and had treatment from several doctors, all of whom gave up the case. "Finally," she says, "I went to a specialist, have saved myself a \$40 doctor's which cost me another \$20, but I bill! A doctor sewed up the cut was no better.

"A friend advised me to try but the wound did not heal, and he Zam-Buk, which I did, and for advised me to go into a hospital. which I have ever since been thankful. I very soon felt some relief, and perseverance with Zam-Buk Zam-Buk instead, and in two completely rid me of the disease." weeks' time was back at work."

SEVERE CUT HEALED

Mr. C. Oakley of Saskatoon, who sustained a terrible cut on his leg, says: "Had I known of Zam-Buk when the accident occurred, I could and attended me for five weeks,

"I objected, however, and used

SAVED OPERATION

"Father developed a painful sore on his face," writes Miss N. Lewis of Silver Lake, Oregon. "Numerous remedies and treatment from several doctors failed to heal it, and the doctor advised an operation. Someone advised him to first try Zam-Buk. A few applications brought relief, and continued use of Zam-Buk entirely healed the sore, saving father from an operation."

Zam-Buk is best for eczema, ringworm, blood-noisoning, piles, cuts, braises, burns

swings into the Kalum Valley and connects with the Grand Trunk at Terrace. This way the distance would be greater but the extra mileage would run through fine timber and agriculturai lands. The grade is the best and there are no natural barriers to contend with and from this line, when developments would warrant the cost, a branch line could at any time be built into Stewart. A charter for this railway was granted before the war but the great

struggle tied up all available money. Nature has so fashioned the great interior that its outlet must necessarily be located within its own latitudes. To force the commerce of this vast country to a southern outlet is a political move and an outrage not to be tolerated. If the north is to develop and prosper it must be allowed to do so along the lines nature intended. Personal and political differences should be forgotten. A vast land is waiting to pour its latent riches into this port. Let this be directed to a southern city and Prince Rupert may as well face the fact that her notion of future greatess is a mere illusion.

LOUIS FORKRUD.

SOME CLOSE AT 10, OTHERS AT 11-TAXI DRIVERS BENEFIT

LONDON, Jan. 3. - London is all lobsided when it comes to drinking hours in the pubs.
